## Product Description

Baodu offers a comprehensive range of EPS Insulated Panels. These are widely applied in building and construction industry. These panels are best used for structures such as food processing centres, industrial roofing structures, wall cladding, partitions, walk-on ceilings, prefabricated shelters, accommodation shelters, information kiosks, health centers, community shelters, communication sheds and other places. This product is also examined according to established norms, and we adhere to industry standards. In addition, each and every panel is tested for quality before delivery.

## EPS Panel Features

- Modular in nature and pre-engineered for precision and time-saving construction
- Constant thermal resistance
- Light weight EPS Sandwich Panels which are easy to lift and install at any altitude
- Frameless construction entails flexibility of design, supply and installation for all structure types
- Measurable energy savings with minimal loss and highly efficient performance
- Tough and long lasting to suit any construction
- Long life and low maintenance

## EPS Applications

- Roofing
- Wall Cladding
- Partitions
- Walk-On Ceilings
- Prefabricated Shelters
- Accommodation Shelters
- Information Kiosks
- Health Centers
- Community Shelters
- Communication Shelters

## Benefits from Baodu

The shelf life, efficiency and cleanliness of any building is based on the panels that go into its making. The prefabricated EPS panels manufactured by BAODU has the following features:

- The pre-engineered EPS sandwich panels from BAODU are of meet the building code specifications
- Superior energy savings due to low thermal conductivity
- Flexibility in design and colors
- All weather proof construction and low maintenance

These insulated panels give long lasting value with controlled quality, accuracy and speed of construction to cater better functionality and application.
