

## Soundproofing Polystyrene 75mm EPS Sandwich Panel Building Material

### Our Product Introduction

#### Basic Information

- Place of Origin: HEBEI, CHINA
- Brand Name: BAODU
- Minimum Order Quantity: Discussible
- Price: \$6-7square meter
- Packaging Details: In general, for steel structure , we use the steel frame packing to keep goods not to be broken . For sandwich panel and color steel sheet, we use the plastic packing . If the clients need special packing will according to their requirements.
- Delivery Time: 15days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 10000 Perch/Perches per Month stainless steel perforated metal sheet

#### Product Specification

- Product: Building Material Thermal Insulation EPS Soundproofing Sandwich Panel
- Thickness: 50mm/75mm/100mm/150mm/200mm
- Top Plate/Bottom Plate: 0.4-0.8mm
- Effective Width: 950mm(Wall);960mm(Roof)
- Length: Customized
- Density: 8kg/M3 EPS
- Color: Customized
- After-sales Service Provided: Online Support, Video Technical Support
- Highlight: **Soundproofing 75mm eps sandwich panel, Polystyrene 75mm eps sandwich panel, 75mm polystyrene sandwich panel**

**Product Description****Building Material Thermal Insulation EPS Soundproofing Sandwich Panel**

Sandwich panels with EPS (Expanded Polystyrene) core are intended for large various kinds of applications, industrial, commercial, housing, transport, agricultural, marine and many others.

EPS sandwich panel maintains a satisfactory resistance to fire when installed correctly. It does not cause any fire hazards. baodu has no fabrication limit in length for EPS sandwich panel as we can cut to size according to the specific customer need. EPS sandwich panels do not react when exposed to other materials. For this reason, EPS sandwich panels do not decay easily. Also, it does not serve as organic food or nutritional provision for biotic detriments. EPS sandwich panels are famous for their high thermal insulation capabilities.

EPS Sandwich Panel is light in weight when it comes to carrying and lifting. However, it has the capacity to carry loads depending on the properties and strength of sandwich panel face sheets.

**Some of the advantages of baodu core sandwich panels are:**

- High load bearing capacity at low weight.
- Effective and durable thermal insulation.
- Water and vapour barrier.
- Airtightness for controlled environments.
- Long life, low maintenance.
- Lightweight, fast and economic construction.
- Fast and Easy to use
- Environmentally friendly and 100% recyclable

**Benefits from Baodu**

The shelf life, efficiency and cleanliness of any building is based on the panels that go into its making. The prefabricated EPS panels manufactured by BAODU has the following features:

The pre-engineered EPS sandwich panels from BAODU are of meet the building code specifications

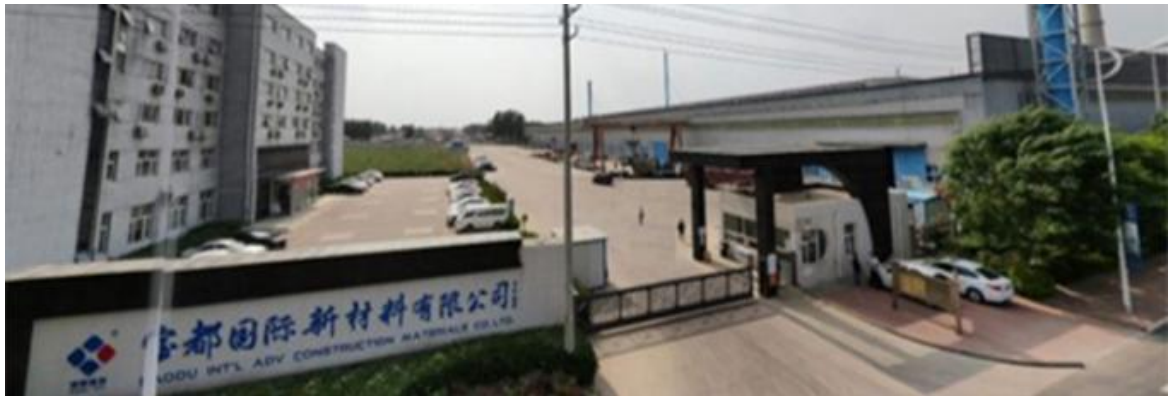

Superior energy savings due to low thermal conductivity

Flexibility in design and colors

All weather proof construction and low maintenance

These insulated panels give long lasting value with controlled quality, accuracy and speed of construction to cater better functionality and application.

**Projects Show:**

Baodu International Advanced Construction Material Co., Ltd. was established in January 2010 with the office in Beijing and factory in Hebei, China. Baodu is a designer, manufacturer, supplier and exporter of industrial noise comprehensive treatment, steel structure, sandwich panel and prefab house. Baodu has an annual output of 6 million square meters of acoustic sandwich panels, 100,000 tons of steel structures and 1 million square meters of floor decking sheet. The products are sold in more than 30 countries and regions around the world. Baodu has a professional design team with more than 10 years' experience, including 5 senior engineers, 20 engineers, and 35 technicians. Baodu has several energy saving and environment protection intellectual property rights, construction and environment protection design qualification, CE certification and Russian GOST certification etc. Baodu participated in the military parade village project for the 60th anniversary of China and project of Beijing Daxing International Airport. Under the guidance of China's "one belt, one road" strategy, Baodu has also undertaken overseas projects such as the project of Thar, Pakistan coal fired power plant, Hasyan Dubai power plant and so on. Finally, welcome your coming to Baodu for a visit and cooperation!
