Customization:

Support and Services:

Technical Support and Service for Container House

We offer the following technical support and service for Container House customers:

24/7 online customer service

On-site technical support

Frequent maintenance checks

Regular software updates

Troubleshooting and repairs

Replacement of faulty parts

Packing and Shipping:

Packaging and Shipping for Container House

Container houses are typically shipped with a flat-pack method and include an easy-to-follow instruction manual. Each house is made up of a variety of interchangeable modules, which are then bolted together. Each module is then carefully wrapped in a weather-proof material for additional protection and then placed into a crate for shipping.

Once the container house arrives at its destination, an experienced team of professionals will be ready to assemble and install the house. The entire process is

designed to be quick and easy for both the customer and the installation team.
