

Color Coated Profiled Zincalume Corrugated Roof Sheets ISO9001 Certificated

Our Product Introduction

for more products please visit us on baodupanel.com

Basic Information

- Place of Origin: Hebei, China
- Brand Name: BAODU
- Certification: ISO 9001
- Model Number: Profiled Steel Sheet
- Minimum Order Quantity: 1 Ton
- Price: \$600-650/ton
- Packaging Details: In general, for steel structure, we use the steel frame packing to keep goods not to be broken. For sandwich panel and color steel sheet, we use the plastic packing. If the clients need special packing will according to their requirements.
- Delivery Time: 15 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 5000 Ton/Tons per Month

Product Specification

- Product Name: Corrugated Profiled Color Coated Profiled Coated Steel Sheet For Steel Building Applications
- Processing Service: Bending, Welding, Decoiling, Cutting, Punching
- Standard: AISI, ASTM, BS, DIN, GB, JIS
- MOQ: Customized
- Thickness: 0.3-3.0mm
- Zinc Coating: 40-275g/m²
- Color: RAL
- Package: Standard Baodu Packing
- Highlight: **Color zincalume corrugated roof sheets, zincalume corrugated roof sheets, Zincalume color coated corrugated sheets**

Product Description

Corrugated Profiled Color Coated Profiled Coated Steel Sheet For Steel Building Applications

Product Description:

Profiled Steel Sheet is a kind of factory-directly supplied metal sheet produced by cold rolling, hot rolling, or perforating. It has a wide range of applications in various industries and fields due to its high strength, good toughness, and strong corrosion resistance. It is also available in various sizes, from 600mm to 1500mm, and surface treatments, such as coated, galvanized, etc. With advanced processing services, such as bending, welding, decoiling, cutting, and punching, the Profiled Steel Sheet is sure to meet any of your special requirements.

The Profiled Steel Sheet is especially advantageous for its steel sheet form, which provides the exceptional strength and durability that is needed in many industrial and commercial applications. This type of steel sheet is also highly resistant to corrosion, making it a great option for projects in damp or salty environments. In addition, the Profiled Steel Sheet is easy to install and maintain due to its convenient packaging in standard Baodu bags.

If you need a reliable, durable, and corrosion-resistant steel sheet, Profiled Steel Sheet is the perfect choice for your project. With its factory-direct supplies, advanced processing services, wide range of sizes, and various surface treatments, this steel sheet is sure to meet all of your needs. Choose Profiled Steel Sheet for your next project and experience the excellent benefits that it has to offer.

Features:

Strong
Lightweight
Long lasting
Relatively straight forward to install using simple tools
Available in a choice of colours and finishes and orders can be tailored to your requirements

Steel profiled sheets are adaptable too. When a thermal barrier is needed to prevent condensation (eg when the air inside the building is warmer than outside, such as in livestock buildings or heated premises) anti-condensation fleece can be applied to the underside of the sheet.

Applications:

Profiled Steel Sheet from BAODU is widely used in many different applications. It is certified by ISO 9001 and comes with a reasonable price. Its features include steel frame packing, sandwich panel, color steel sheet, plastic packing, L/C, D/A, D/P, T/T, Western Union, MoneyGram, 5000 Metric Ton/Metric Tons per Month Steel Roofing Sheet, 40-275g/m2, Corrugated Steel Plate, RAL, 1 and a tolerance of $\pm 1\%$. It is perfect for perforated steel sheet applications.

The steel sheet can be used for a variety of purposes, such as construction, home renovation, engineering, and more. Due to its excellent properties, it is ideal for outdoor applications. It is also extremely durable, and can withstand a wide range of temperatures and weather conditions. The sheet is easy to install, and can be customized to fit any project.

Profiled Steel Sheet from BAODU is an excellent choice for anyone looking for a reliable and high-quality product. It is available in a range of colors, including RAL, and is easy to install. It is also extremely durable and can withstand a wide range of temperatures and weather conditions.

Technical Parameters:

Material	SGCC,SGCH,G350,G450,G550,DX51D,DX52D,DX53D
Thickness	0.12-6.0mm
Width	20-1500mm
Zinc coating	Z40-600g/m2
Hardness	Soft hard(60),medium hard(HRB60-85),full hard(HRB85-95)
Surface structure	Regular spangle, Minimum spangle, Zero spangle, Big spangle
Surface treatment	Chromated/Non-Chromated, Oiled/Non-oiled, Skin pass

Customization:

We provide customized services for **Profiled Steel Sheet**, with the Brand Name **BAODU**, Model Number **Profiled Steel Sheet**, and Place of Origin **Hebei, China**. Our product is certified **ISO 9001**, and Minimum Order Quantity is **Discussible**, at a Reasonable Price. We provide **In general, for steel structure , we use the steel frame packing to keep goods not to be broken. For sandwich panel and color steel sheet, we use the plastic packing. If the clients need special packing will according to their requirements.** Delivery Time is **15days**, and Payment Terms are **L/C, D/A, D/P, T/T, Western Union, MoneyGram**. We have a Supply Ability of **5000 Metric Ton/Metric Tons per Month Steel Roofing Sheet**, with a Customized MOQ. The Thickness is **0.3-3.0mm**, and Application is **Steel Building**, with a Tolerance of $\pm 1\%$.

Support and Services:

Technical Support and Service for Profiled Steel Sheet

We provide a variety of services for our profiled steel sheet products to ensure our customers receive the best quality and value. Our technical support team is available to answer any questions you may have. Our services include:

On-site installation and maintenance

Free consultation for product selection and customized product design

On-site instruction and training

Quality control and assurance

Provide product warranty and after-sales service

We are committed to providing our customers with the highest quality service and support. Our team of experienced professionals is available to help you find the best solution to meet your needs.

Packing and Shipping:

Packaging and Shipping of Profiled Steel Sheet

Profiled steel sheet should be carefully placed in a steel frame or on pallets with protective material. Each individual sheet should be protected from scratches, dents, and other physical damage while in transit.

The containers should be sealed properly to prevent moisture and other contaminants from entering. During shipping, the profiled steel sheet should be stored in a dry, cool, and ventilated environment.

The profiled steel sheet should be shipped in accordance with the regulations of the country of origin. It is important to keep a record of all documentation related to the packaging and/or shipping process.
