- Length: Customized
- Color: RAL Color; Customized
- Highlight: **prepainted eps sandwich panel, environmental friendly eps sandwich panel, prepainted eps sandwich wall panel**

Product Description

Prepainted EPS Sandwich Wall Panel Customized Length for Building Construction

Product Description:

EPS Sandwich Panel is an outdoor building material that is waterproof, fireproof and energy-saving. The panel is made of EPS foam sandwiched between two colored steel sheets. It is produced by a EPS foam sandwich panel production line with high precision and efficiency. It is widely used for building walls and roofs for residential, commercial, and industrial buildings due to its environmental-friendliness, long life time, and attractive appearance. It is available in custom length and 960mm ROOF 950mm WALL width. It comes with a variety of colors to choose from, including RAL color, and can also be customized. With a life time of 15-30 years, EPS Sandwich Panel is an ideal choice for both indoor and outdoor applications.

Color	Standard color :White, Red, Blue,Ral
Advantages	Light weight ; waterproof ; Good insulation performance with competitive price
Application	various roofs and walls of the large size factory warehouse, exhibition halls, etc.
Life time	15-30 years

Applications:

BAODU EPS Sandwich Panel – Outdoor Waterproof Fireproof Roof Panel

BAODU EPS Sandwich Panel is the perfect choice for outdoor roofing systems. It is an environmental-friendly, lightweight, and fireproof panel that is made with a combination of Expanded Polystyrene (EPS) insulation core and two pre-painted galvanized steel sheets. The top and bottom steel plates are 0.4-0.8mm thick with a total thickness of 40mm-200mm. It is waterproof, has excellent thermal insulation, and is soundproof, making it an ideal product for roofing and wall cladding of buildings.
