

## High Strength Heat Insulation 50mm Eps Panel For Roof Waterproof Building Structure

Our Product Introduction

for more products please visit us on [baodupanel.com](http://baodupanel.com)

### Basic Information

- Place of Origin: Hebei, China
- Brand Name: BAODU
- Model Number: EPS Sandwich Panel
- Minimum Order Quantity: Discussible
- Price: \$5-Discussible
- Packaging Details: In general, for steel structure, we use the steel frame packing to keep goods not to be broken. For sandwich panel and color steel sheet, we use the plastic packing. If the clients need special packing will according to their requirements.
- Delivery Time: 15days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 5000 Square Meters per Day

### Product Specification

- Product Name: High Strength & Heat Insulation For Roof Waterproof EPS Sandwich Panel Building Structure
- Environmental-friendly: Yes
- Surface: Prepainted
- Material: EPS
- Top Plate/Bottom: 0.4-0.8mm
- Life Time: 15-30 Years
- Fireproof: Yes
- Thickness: 50mm 75mm 100mm 125mm 150mm 200mm
- Highlight: **high strength 50mm eps panel, heat insulation 50mm eps panel, 125mm eps sandwich panel**

## Product Description

### High Strength & Heat Insulation For Roof Waterproof EPS Sandwich Panel Building Structure

#### Product Description:

EPS Sandwich Panel is an outdoor waterproof fireproof, thermal insulation soundproof exterior wall panel. It is made by using high-grade EPS material and advanced technology. The EPS roof panel sandwich panel is widely used in public buildings, such as villas, factories, warehouses, and office buildings. It is characterized by its superior waterproof performance, fire resistance, thermal insulation and sound insulation. It can effectively protect the building from external weathering and ensure the safety of the building. In addition, its reasonable price and long life time of 15-30 years make it an ideal choice for public buildings.

Apart from the waterproof, fireproof, thermal insulation and soundproof performance, the EPS Sandwich Panel also has the features of light weight, corrosion resistance, good waterproof and thermal insulation performance, and easy installation. It can be applied to the roof, wall and floor of the building. In addition, it can be used for both indoor and outdoor applications, making it an ideal solution for all types of public building projects.

EPS Sandwich Panel is an ideal choice for public buildings, as it is designed to provide superior durability and performance. It is an attractive, cost-effective, and reliable solution that offers excellent outdoor waterproof fireproof, thermal insulation soundproof, and other features for a reasonable price. With its long life time of 15-30 years, it is an ideal solution for any public building project.

#### Technical Parameters:

Product	Eps Sandwich Panel
Width	50mm/75mm/100mm/150mm/200mm
Top plate/Bottom plate	0.4-1mm
Effective Width	950mm(Wall);960mm(Roof)
Length	Less than 11.8m (For transport need)
Density	8kg/M3 EPS
Color	Standard color :White, Red, Blue,Ral
Advantages	Light weight ; waterproof ; Good insulation performance with competitive price
Application	various roofs and walls of the large size factory warehouse, exhibition halls, etc.
Life time	15-30 years

#### Support and Services:
