Product Description

Waterproof Eps Core Panel Expanded Polystyrene Sandwich Panels Lightweight

Product Description:

EPS Sandwich Panel is a type of composite panel made from expanded polystyrene foam and other materials. It is widely used for various roofs and walls of large size factory warehouses, exhibition halls, etc. It is a cost-effective solution and is known for its excellent insulation performance and long-term durability. With thickness options of 50mm, 75mm, 100mm, 125mm, 150mm, and 200mm, it provides the users with more choices depending on their needs.

EPS Sandwich Panel can be easily customized with a variety of colors and textures to meet the needs of different projects. It is also waterproof and fireproof, and its life expectancy can reach 15-30 years, which makes it the ideal choice for various applications.

Whether you are looking for EPS foam sandwich panel, EPS sandwich wall panel, or other types of EPS sandwich wall panel, you can find the perfect solution with our reasonable price and excellent quality.
