

## Superior Fireproof Rockwool Roof Panels Insulation Light Weight Easy Install

Our Product Introduction

for more products please visit us on [baodupanel.com](http://baodupanel.com)

### Basic Information

- Place of Origin: Hebei,China
- Brand Name: BAODU
- Certification: CE
- Model Number: Rockwool Sandwich Panel
- Minimum Order Quantity: 200-500 square meters
- Price: Reasonable
- Packaging Details: In general, for steel structure , we use the steel frame packing to keep goods not to be broken . For sandwich panel and color steel sheet, we use the plastic packing . If the clients need special packing will according to their requirements.
- Delivery Time: 15days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 5000 Square Meters per Day

### Product Specification

- Material: Rockwool,PU,Color Steel
- After-sale Service: Online Technical Support, Onsite Installation
- Product Name: PU Sealing Rockwool Sandwich Panel
- MOQ: 200-500 Square Meters
- Certificate: CE
- Thickness: 50mm 75mm 80mm 100mm 125mm 150mm 200mm
- Width: 1000mm
- Advantage: Superior Fireproof-insulation Fire Proof Light Weight&Easy To Install Fireproof Innovative Technology
- Highlight: **Fireproof rockwool roof panels,  
Light Weight rockwool roof panels,  
Light Weight sandwich panel rockwool**

### Product Description:

Rockwool Sandwich Panel

Rockwool Sandwich Panel is a type of PU sealing panel, which is widely used in construction, insulation, shops, outdoor offices and other areas. With its excellent thermal insulation, fire resistance and waterproof properties, it provides a high-quality solution for building insulation and construction needs.

Product Attributes:

Thickness: 50mm, 75mm, 80mm, 100mm, 125mm, 150mm, 200mm

Type: PU Sealing Rockwool Sandwich Panel

Usage: Construction, Insulation, Shop, Outdoor Office

Waterproof: Yes

Product Features:

Rockwool Sandwich Panel is made of two layers of high-quality steel sheets and a core of rockwool insulation material. This unique sandwich structure provides the panel with excellent strength, durability and thermal insulation properties.

Key Benefits:

Thermal insulation: The rockwool insulation material has a low thermal conductivity, which effectively reduces heat transfer and improves energy efficiency.

Fire resistance: With its non-combustible properties, Rockwool Sandwich Panel can prevent the spread of fire and provide a safe building environment.

Waterproof: The PU sealing layer on the panel's surface makes it highly resistant to water, ensuring long-lasting performance and protection against moisture.

Easy installation: The lightweight and easy-to-handle panels can be quickly installed, saving time and labor costs.

Versatility: Rockwool Sandwich Panel can be used in various buildings and structures, providing insulation for walls, roofs and floors.

Keyword Emphasis:

Rockwool Sandwich Panel is also known as Rockwool Insulated Panels, Rockwool Insulated Board, Rockwool Insulated Sandwich Board, Rockwool Insulation Board, Rockwool Insulation Panel and Rockwool Insulation Sandwich Panel. These keywords highlight the key features and benefits of the product, making it easier for customers to find and understand its advantages.

Conclusion:

With its superior thermal insulation, fire resistance, waterproof, and easy installation, Rockwool Sandwich Panel is a top choice for construction and insulation needs. Its versatile usage and various thickness options make it suitable for a wide range of applications. Choose Rockwool Sandwich Panel for a high-quality and efficient insulation solution.

### Features:

Product Name: PU Sealing Rockwool Sandwich Panel

Type: PU Sealing Rockwool Sandwich Panel

Length: Customized

Steel thickness: 0.4mm-0.8mm

Soundproof: Yes

Rockwool Insulated Sandwich Board

Rockwool Sandwich Panels

Rockwool Insulated Sandwich Board

Polyurethane Sealing

Customizable Length

Steel Thickness

Soundproof

### Applications:

Rockwool Sandwich Panel - Superior Fireproof and Insulation Solution

About Rockwool Sandwich Panel

The Rockwool Sandwich Panel, also known as the Rockwool Insulated Board or Rockwool Sandwich Board, is a highly versatile and durable construction material that is widely used in various industries. It is composed of a core material of rockwool insulation sandwiched between two layers of color steel sheets, making it an ideal solution for superior fireproofing, insulation, and heat-resistance.

Application Scenarios

The Rockwool Sandwich Panel is suitable for a wide range of applications, including but not limited to:

Industrial Buildings: Its superior fireproof and insulation properties make it an excellent choice for industrial buildings such as factories, warehouses, and workshops.

Commercial Buildings: It is also commonly used in commercial buildings such as shopping malls, hotels, and office buildings for its lightweight and easy installation.

Residential Buildings: The Rockwool Sandwich Panel is also used in residential buildings for its excellent heat-insulation and energy-saving capabilities.

Cold Storage: Its heat-insulation and moisture-resistant properties make it an ideal choice for cold storage facilities.

Clean Rooms: The Rockwool Sandwich Panel is widely used in clean rooms for its fireproof and dust-proof features.

Product Features

The Rockwool Sandwich Panel has a range of features that make it an ideal choice for various applications:

Superior Fireproof: The rockwool core material has excellent fireproof properties, making it an ideal choice for buildings where fire safety is a top priority.

Insulation: The rockwool insulation provides excellent heat-insulation, making it an energy-efficient solution for both hot and cold climates.

Lightweight and Easy to Install: The lightweight nature of the panel makes it easy to transport and install, reducing construction time and costs.

Innovative Technology: The Rockwool Sandwich Panel incorporates innovative technology to provide superior fireproofing and insulation solutions.

High-Quality Material: Made with high-quality materials such as rockwool, PU, and color steel, the panel is durable and long-lasting.

Technical Specifications

Brand Name: BAODU

Model Number: Rockwool Sandwich Panel

Place of Origin: Hebei, China

Certification: CE

Minimum Order Quantity: 200-500 square meters

Price: Reasonable

Packaging Details: In general, for steel structure, we use the steel frame packing to keep goods not to be broken. For sandwich panel and color steel sheet, we use the plastic packing. If the clients need special packing, we will accommodate their requirements.

Delivery Time: 15 days

Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram

Supply Ability: 5000 Square Meters per Day

MOQ: 200-500 Square Meters

Ordering Information

If you are interested in our Rockwool Sandwich Panel, please provide us with the following information so we can send you a quotation:

Required panel size

Thickness of panel

Required insulation material (rockwool, PU, etc.)

Usage and application scenario

Other specific requirements

Conclusion

The Rockwool Sandwich Panel is a highly versatile and durable construction material that offers superior fireproofing and insulation solutions. With its innovative technology, high-quality material, and easy installation, it is an ideal choice for a wide range of applications in industrial, commercial, and residential settings. Contact us today to learn more about our Rockwool Sandwich Panel and how it can benefit your next construction project.

## Customization:

BAODU Rockwool Sandwich Panel Customization Service

Brand Name: BAODU

Model Number: Rockwool Sandwich Panel

Place of Origin: Hebei, China

Certification: CE

Minimum Order Quantity: 200-500 square meters

Price: Reasonable

Packaging Details: In general, for steel structure, we use the steel frame packing to keep goods not to be broken. For sandwich panel and color steel sheet, we use the plastic packing. If the clients need special packing will according to their requirements.

Delivery Time: 15 days

Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram

Supply Ability: 5000 Square Meters per Day

Length: Customized

Keyword: Rockwool Sandwich Panel

Soundproof: Yes

After-sale Service: Online Technical Support, Onsite Installation

Thickness: 50mm, 75mm, 80mm, 100mm, 125mm, 150mm, 200mm

Rockwool Sandwich Panels, also known as Rockwool Insulated Panels, are the perfect choice for walls and roofs. They are soundproof and can be customized to any length. Our panels are CE certified and offered at a reasonable price. We also provide onsite installation services and online technical support for our customers.

## Support and Services:

Rockwool Sandwich Panel

Technical Support and Services

At Rockwool, we are committed to providing high-quality technical support and services for our Rockwool Sandwich Panels. Our team of experienced engineers and technicians are dedicated to ensuring the success of your project and the satisfaction of your customers.

Technical Support

Our technical support team is available to assist you with any questions or concerns you may have regarding the installation, maintenance, and performance of our Rockwool Sandwich Panels. We offer comprehensive support services, including:

Installation guidance and recommendations

Technical specifications and documentation

Product testing and performance analysis

Troubleshooting and problem-solving

We understand the importance of timely and accurate technical support, and our team is committed to providing prompt and effective solutions to any issues that may arise.

Training and Education

In addition to technical support, we also offer training and education programs for our customers and partners. Our training programs

cover a range of topics, including installation techniques, product features and benefits, and maintenance procedures. We believe that knowledge and expertise are essential for the successful use of our Rockwool Sandwich Panels, and we are committed to equipping our customers with the necessary skills and knowledge.

#### Custom Solutions

At Rockwool, we understand that every project is unique and requires a tailored solution. That's why we offer custom solutions for our Rockwool Sandwich Panels. Our team of experts will work closely with you to understand your specific requirements and develop a customized solution that meets your needs and exceeds your expectations.

#### Product Warranty

All our Rockwool Sandwich Panels come with a comprehensive product warranty, ensuring the highest quality and performance standards. In the unlikely event of any defects or issues, our team will work with you to resolve the problem promptly and efficiently. Thank you for choosing Rockwool Sandwich Panels. We are committed to providing the best technical support and services to ensure the success of your project. Contact us today for more information or to speak with a member of our team.

## FAQ:

**Q: What is the brand name of this product?**

A: The brand name of this product is BAODU.

**Q: What is the model number of this product?**

A: The model number of this product is Rockwool Sandwich Panel.

**Q: Where is this product manufactured?**

A: This product is manufactured in Hebei, China.

**Q: Is this product certified?**

A: Yes, this product is certified with CE.

**Q: What is the minimum order quantity for this product?**

A: The minimum order quantity for this product is 200-500 square meters.

**Q: What is the price of this product?**

A: The price of this product is reasonable.

**Q: How is this product packaged?**

A: Generally, for steel structure, we use steel frame packing to ensure the goods are not damaged. For sandwich panel and color steel sheet, we use plastic packing. If clients have special packing requirements, we will accommodate them.

**Q: What is the delivery time for this product?**

A: The delivery time for this product is 15 days.

**Q: What are the payment terms for this product?**

A: The payment terms for this product include L/C, D/A, D/P, T/T, Western Union, and MoneyGram.

**Q: How many square meters of this product can be supplied per day?**

A: The supply ability for this product is 5000 square meters per day.
