Basic Information

- Place of Origin: Hebei,China
- Brand Name: BAODU
- Certification: CE
- Model Number: Rockwool Sandwich Panel
- Minimum Order Quantity: 200-500 square meters
- Price: Reasonable
- Packaging Details: In general, for steel structure , we use the steel frame packing to keep goods not to be broken . For sandwich panel and color steel sheet, we use the plastic packing . If the clients need special packing will according to their requirements.
- Delivery Time: 15days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 5000 Square Meters per Day

Product Specification

- Application: Wall Building Warehouse Roofing Wall And Roof
- Soundproof: Yes
- Color: RAL Color;Customized
- Steel Thickness: 0.4mm-0.8mm
- Usage: Construction Insulation Shop Outdoor Office
- Advantage: Superior Fireproof-insulation Fire Proof Light Weight&Easy To Install Fireproof Innovative Technology
- Type: PU Sealing Rockwool Sandwich Panel
- Width: 1000mm
- Highlight: **Fireproof Rockwool Sandwich Panel, Construction Insulation Rockwool Sandwich Panel**
Outdoor Office Rockwool Sandwich Panel

Product Description:

The Rockwool Insulated Board is a lightweight and easy-to-install panel that offers exceptional fireproof insulation. It is perfect for use in buildings where fire safety is a major concern, such as industrial and commercial buildings, hospitals, schools, and residential buildings. The Rockwool Sandwich Board is also an excellent choice for use in areas with extreme weather conditions, as it offers excellent insulation against heat, cold, and moisture.

One of the key advantages of the Rockwool Sandwich Panel is its superior fireproof-insulation properties. This panel is made from a unique combination of rockwool and PU, which provides excellent fire resistance and insulation. The innovative technology used in the manufacturing process of this panel ensures that it is highly resistant to fire, making it an ideal choice for use in areas where fire safety is a major concern.

The Rockwool Insulated Sandwich Board is also incredibly lightweight, making it easy to install and transport. Its lightweight nature makes it perfect for use in applications where weight is a concern, such as in the construction of high-rise buildings. Additionally, the panel is easy to install and requires minimal maintenance, making it a cost-effective solution for clients.

The Rockwool Sandwich Panel is also waterproof, which makes it an ideal choice for use in areas with high humidity or moisture levels. Its waterproof properties ensure that the panel remains free from damage caused by water, which can lead to the growth of mold and mildew. The waterproof nature of the panel also makes it easy to clean and maintain, ensuring it remains in excellent condition for years to come.

The Rockwool Insulated Board is available in customized lengths, making it suitable for a wide range of applications. Clients can choose the length that best suits their needs, ensuring that they get the perfect fit for their project. The panel is also available in a wide range of colors, making it easy to match the panel to the existing color scheme of the building.

In summary, the Rockwool Sandwich Panel, also known as the Rockwool Insulated Sandwich Board, is a versatile and high-performance building material that offers superior fireproof-insulation properties. Made from a combination of rockwool, PU, and color steel, this sandwich panel is lightweight, easy to install, waterproof, and available in customized lengths. Its innovative technology and excellent fireproof-insulation properties make it an ideal choice for use in various construction applications, such as industrial and commercial buildings, hospitals, schools, and residential buildings.

Features:

- Product Name: Rockwool Sandwich Panel
- Soundproof: Yes
- Color: RAL Color;Customized
- Keyword: Rockwool Sandwich Panel, Rockwool Composite Board, Rockwool Insulated Board
- Steel thickness: 0.4mm-0.8mm
- After-sale Service: Online Technical Support, Onsite Installation

Applications:

BAODU Rockwool Sandwich Panel is a high-quality construction material that is widely used in various occasions and scenarios. The Rockwool Sandwich Panel is a type of Rockwool Composite Board, Rockwool Sandwich Board, and Rockwool Insulated Board. It is made up of two layers of color-coated steel sheet and a layer of insulated core material that is made of high-density rockwool fiber. The product is suitable for construction insulation of various types of buildings, such as outdoor offices, shops, and industrial buildings. It is a perfect solution for those who want to create comfortable and modern living and working environments. The Rockwool Sandwich Panel has excellent thermal insulation properties that help to maintain an optimal indoor temperature, reducing energy costs for heating and cooling. Moreover, it has sound insulation capabilities, which make it ideal for noisy environments. The Rockwool Sandwich Panel is a CE certified product that meets international quality standards. The minimum order quantity is 200-500 square meters, and the price is reasonable. The packaging details are designed to ensure the safety of the product during transportation. Steel structure products are packed in steel frames, while sandwich panels and color steel sheets are packed in plastic. Special packaging requirements are also available upon request. The delivery time for the product is 15 days, and the payment terms include L/C, D/A, D/P, T/T, Western Union, and MoneyGram. The

supply ability is 5000 square meters per day, making it an excellent choice for large construction projects. The design style of the Rockwool Sandwich Panel is modern, making it perfect for contemporary buildings. The steel thickness ranges from 0.4mm-0.8mm, providing durability and strength to the structure. The after-sale service includes online technical support and onsite installation, ensuring that customers receive the best possible experience with the product.

Customization:

Our minimum order quantity is 200-500 square meters, and we offer a reasonable price for our products. Packaging details vary depending on the product, but we ensure that all goods are kept safe and unbroken during transit. Our delivery time is 15 days, and we accept multiple payment terms including L/C, D/A, D/P, T/T, Western Union, and MoneyGram. We have a supply ability of 5000 Square Meters per Day and provide online technical support and onsite installation for our clients.

Support and Services:

The Rockwool Sandwich Panel product offers the following technical support and services:

- Assistance with product selection and design
- Technical data sheets and installation guides
- Training and education for contractors and installers
- On-site technical support and troubleshooting
- Warranty and claims support
