

## Customized Grade Steel Coil For Profile Formed With Galvanized Surface Treatment

Our Product Introduction

for more products please visit us on [baodupanel.com](http://baodupanel.com)

### Basic Information

- Place of Origin: Hebei,China
- Brand Name: BAODU
- Certification: ISO9001,CE
- Model Number: Steel Coil
- Minimum Order Quantity: 1 ton
- Price: Reasonable
- Packaging Details: Standard export waterproof package, suit for all kinds of transport, or as required
- Delivery Time: 7days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 5000 Ton/Tons per Month

### Product Specification

- Grade: SS400, Q235, Q345R, SA302, SA516, A572, S275, S355
- Standard: AISI, ASTM,GB,JIS,ect
- Cutting: Fly Saw Tracking Cut.
- Matching Material: Stainless Steel
- Holes Punching: Post Holes Punching After Profile Formed
- Surface Treatment: Customized Or Galvanized
- Shape: Coil
- PAYMENT TERM: 30%Advance + 70% Balance
- Certificate: CE, BIS, ISO9001
- Product Name: Customized Grade Steel Coil For Profile Formed With Galvanized Surface Treatment
- Highlight: **Customized Grade Steel Coil,**  
**Profile Formed Steel Coil**

## Product Description

### Product Description:

**Corrosion Resistance:**For high temperature applications, high temperature applications require strong sensitization resistance to prevent intergranular corrosion at lower temperatures

**Clean surface:**It can keep the surface clean, so its heat transfer is better than other metals with higher thermal conductivity

**Oxidation Resistance:**High temperature oxidation resistance and high strength, so it can resist fire

**Usage time:**Stainless steel material is resistant to corrosion and oxidation, and can be used for a long time

### Features:

Product Name: Steel Coil

Tolerance:  $\pm 1\%$

Port: Tianjin

Material Thickness Range: 0.4-2.0 Mm

Cutting: Fly Saw Tracking Cut

Holes Punching: Post Holes Punching After Profile Formed

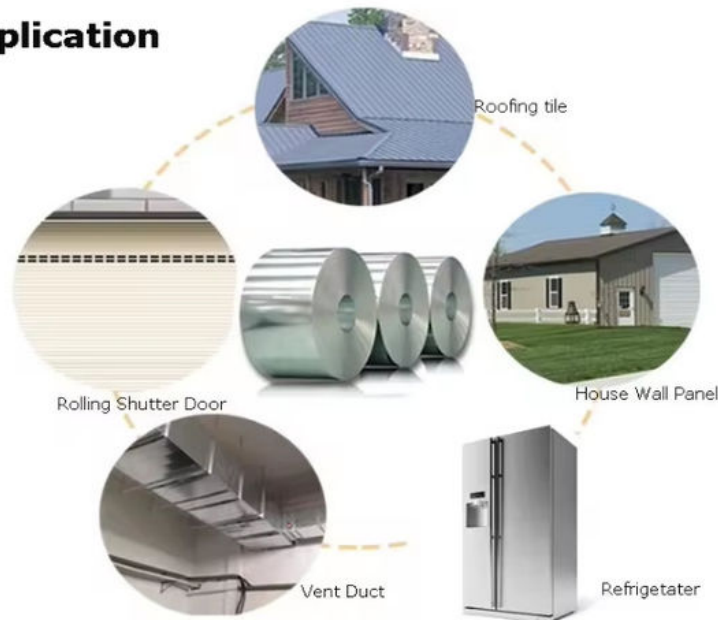

Our Steel Coil product is ideal for a variety of applications, including Custom Colored Metal Roofing Sheet Building Materials and Stainless Steel Strip. With a tolerance of  $\pm 1\%$ , you can trust that your materials will meet your exact specifications. The port of Tianjin ensures efficient transportation and timely delivery. Our Steel Coil can be cut using a Fly Saw Tracking Cut, and holes can be punched after the profile is formed for added precision and customization.

### Technical Parameters:

Surface Finished	Characteristics	application
NO.1	Finished by hot-rolling, smoother and pickling, characterized by white pickled surface.	Chemical industry equipment, Industrial tanks.
2B	Finished by anneal treatment, pickling after cold rolling, followed by skin pass line to more brighter and smoother surface.	General application medical instruments, Tableware.
BA	Bright anneal treatment after cold rolling.	Kichen utenstil, Kitchen ware,Architectural purpose.
NO.4(Satin)	Finished by incontinuous linear brushing	Architecture,industries,Escalators, Kitchen ware, Vehicles.
Hairline	Finished by continuous linear brushing	Architecture,industries,Escalators, Kitchen ware, Vehicles.
8K(mirror)	A mirror-like reflective surface by polishing with finer abrasives over 800 mesh.	Refletor, Mirror, Interior- Exterior decoration for building.

## Application

BAODU Steel Coil is a top-quality product manufactured in Hebei, China, designed to meet the varied needs of customers with different specifications. The product is certified by ISO9001 and CE, which guarantees the quality of the product. The minimum order quantity is 1 ton and the price of the product is reasonable.

Steel coils are widely used in various industries due to their excellent properties such as high strength, durability, and resistance to corrosion. The surface treatment of the product can be customized as per the customer's requirements. One of the most popular surface treatments is galvanization, which provides an added layer of protection against corrosion.

Steel coils are suitable for a variety of applications, including the production of Color Coated Steel Coil galvanized for use in the construction industry. The product is commonly used in the production of Construction Decoration Roofing Sheet due to its strength and durability. It is also used in the production of Custom Colored Metal Roofing Sheet Building Materials due to its versatility and flexibility.

The packaging of the product is done in standard export waterproof packages that are suitable for all kinds of transport, ensuring that the product reaches its destination safely. The delivery time of the product is between 7-15 days, and the payment terms include L/C, D/A, D/P, T/T, Western Union, and MoneyGram. The supply ability of the product is 5000 Ton/Tons per month, ensuring that customers get their products on time.

The BAODU Steel Coil is designed to match with Stainless Steel, making it an ideal product for the manufacturing of various industrial and commercial products. The tolerance of the product is  $\pm 1\%$ , ensuring that the product meets the required specifications. The port of shipment for the product is Tianjin, making it easy for customers to access the product.

### Customization:

BAODU offers product customization services for Steel Coil. Our Steel Coil is a standard AISI, ASTM, GB, JIS, ect certified product manufactured in Hebei, China. It is made of high-quality materials such as Ppgi/ppgl Color Coated Steel Coil, Custom Colored Metal Roofing Sheet Building Materials, 309s 316 316l 304 321 Stainless Steel Coil, and others.

The Steel Coil is ISO9001 and CE certified, ensuring its quality and reliability. The minimum order quantity is 1 ton with a reasonable price. It comes with standard export waterproof packaging, suitable for all kinds of transport, or as required. The delivery time is 7 days, and payment terms are L/C, D/A, D/P, T/T, Western Union, MoneyGram.

Our Steel Coil has a supply ability of 5000 Ton/Tons per month and is delivered through the Tianjin port. We offer customization options such as holes punching, post holes punching after profile formed, and surface treatment such as customized or galvanized. The payment term is 30% advance + 70% balance.

### Support and Services:

Our Steel Coil product comes with comprehensive technical support and services to ensure optimal performance and customer satisfaction. Our team of experienced engineers and technicians are available to provide assistance with installation, training, troubleshooting, and maintenance. We also offer custom solutions tailored to meet specific requirements and can provide on-site consultations to address any concerns or issues. Our commitment to quality extends beyond the product itself, and we strive to provide exceptional customer service to all of our clients.

### Packing and Shipping:

Product Packaging:

Steel coils will be securely wrapped in plastic and placed on a pallet.

The pallet will be shrink-wrapped for added protection.

A label with product information will be affixed to the outside of the packaging.

Shipping:

Delivery will be arranged with a reputable shipping company.

The steel coils will be loaded onto a truck or container for transport.

Shipping documents and tracking information will be provided to the customer.

### Our advantages:

Professional production and processing  
The use of high-quality  
Variety of specifications,

steel, quality assurance.  
free samples.
