

Breathable Rockwool Insulation 100mm With Non Hygroscopic And Chemical Resistance

Our Product Introduction

for more products please visit us on baodupanel.com

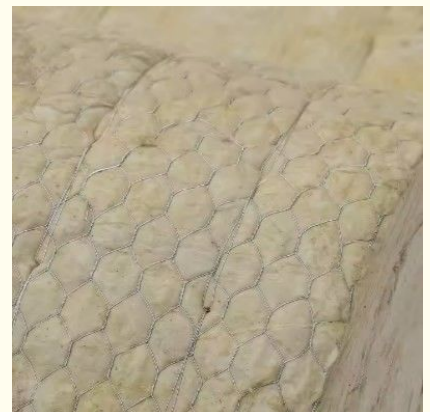

Basic Information

- Place of Origin: Hebei, China
- Brand Name: BAODU
- Certification: CE
- Model Number: Rockwool
- Minimum Order Quantity: Discussible
- Price: \$5-Discussible
- Packaging Details: Standard export waterproof package, suit for all kinds of transport, or as required
- Delivery Time: 15days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 5000 Square Meters per Day

Product Specification

- Product Name: Breathable Rockwool Insulation Rockwool Insulation With Non Hygroscopic And Chemical Resistance
- Keyword: Rockwool
- Water Absorption: $\leq 5\%$
- Density: 50-200 Kg/m³
- Chemical Resistance: Resistant To Most Chemicals
- Durability: Long-lasting
- Water Repellency: Non-hygroscopic
- Sustainability: Made From Natural And Recycled Materials
- Vapor Permeability: Breathable
- Installation: Easy To Install
- Highlight: **breathable rockwool insulation 100mm,**
non hygroscopic rockwool insulation 100mm

Product Description

Breathable Rockwool Insulation Rockwool Insulation with Non Hygroscopic and Chemical Resistance

Product Description:

Rockwool insulated metal panels are a great choice for those looking to improve the energy efficiency and sustainability of their buildings. These panels are designed to be used in a variety of applications, including commercial, industrial, and residential buildings. They are made from a combination of metal and Rockwool insulation, which provides excellent thermal performance and sound absorption. Rockwool insulation is non-combustible and has a Class A1 fire rating, making it an excellent choice for buildings that require high levels of fire resistance.

Rockwool slab facades are another popular application for this high-quality insulation material. These facades are designed to provide excellent thermal performance, helping to keep buildings warm in the winter and cool in the summer. They are made from a combination of Rockwool insulation and other materials, providing excellent durability and long-lasting performance. Rockwool insulation is also non-attractive to insects, making it an excellent choice for buildings that are located in areas where insects are a problem.

Rockwool ceiling panels are another popular application for this high-quality insulation material. These panels are designed to provide excellent acoustic performance, helping to reduce noise pollution in buildings. They are made from a combination of Rockwool insulation and other materials, providing excellent durability and long-lasting performance. Rockwool insulation is also highly water-resistant, with a water absorption rate of less than 5%, making it an excellent choice for buildings that are located in areas that are prone to moisture.

Overall, Rockwool is a high-quality insulation material that is perfect for use in a variety of applications. It is made from natural and recycled materials, making it an eco-friendly choice for those who are concerned about the environment. It provides excellent thermal performance, sound absorption, and fire resistance, making it an excellent choice for buildings of all types. Whether you are looking to improve the energy efficiency of your building, reduce noise pollution, or provide excellent fire resistance, Rockwool is an excellent choice.

Technical Parameters:

Application		Board	Blanket	Pipe	Bulk	Cubes
Industry	Boiler, Heating processing equipment, oven	√	√			
	Power equipment, flue, chimney	√	√			
	Chemical, petrochemical, refining equipment	√	√			
	Storage tank	√	√			
	Small and medium diameter pipeline		√	√		
	Big diameter pipeline (above 610mm)		√			
	Pipeline elbow, valve, flange etc.		√			
	Insulation gap filling				√	
Building	Building wall acoustic, fireproof	√	√			
	Curtain wall acoustic, fireproof	√	√			
	Fireproof wall, fireproof door, fireproof filling	√	√			
	Elevator shaft acoustic , fireproof	√	√			
	Steel structure fireproof spraying				√	
	Roof insulation	√	√			
Boat	Shipbuilding	√	√			
Agriculture	Vegetable,fruit, flower grows seedings					√

Applications:

1. Heat preservation of wall
2. Heat preservation of steel structure
3. Indoor partition wall
4. Train compartment

5. Sound absorption and acoustical isolation

BAODU Rockwool is available in a range of thicknesses from 30-100mm, and the price is discussible depending on the quantity ordered. The minimum order quantity is also negotiable, and the product is packaged in a standard export waterproof package that is suitable for all kinds of transport.

With a supply ability of 5000 square meters per day, BAODU Rockwool is a reliable and cost-effective solution for any construction project that requires high-quality insulation. Whether you need to insulate a commercial building, a residential home, or an industrial facility, Rockwool is a versatile and effective choice that will provide long-lasting performance.

Support and Services:

Our technical support and services team is dedicated to helping you with any questions or concerns you may have about your Rockwool products. Our team can provide assistance with product installation, maintenance, and troubleshooting to ensure that you get the most out of your investment.

We offer a range of technical support and services, including:

[Product installation guidance](#)

[Product maintenance recommendations](#)

[Troubleshooting support](#)

[Product testing and evaluation](#)

[Custom product design and development](#)

Our team of experts has extensive knowledge and experience with Rockwool products and can provide you with the guidance and support you need to ensure optimal performance and longevity of your insulation solution. Contact us today to learn more about our technical support and services.

Packing and Shipping:

The Rockwool product will be securely packaged in plastic to ensure safe delivery to your doorstep. The box will be labeled with the product name and any necessary handling instructions.

Shipping:

We offer free standard shipping for all orders of Rockwool product. Orders will be processed within 1-2 business days and shipped via a reputable carrier. You will receive a tracking number once your order has shipped so you can track your package.

FAQ:

Q1: What is the brand name of this product?

A1: The brand name of this product is BAODU.

Q2: Where is the place of origin for this product?

A2: This product is made in Hebei, China.

Q3: Does this product have any certifications?

A3: Yes, this product has a CE certification.

Q4: What is the minimum order quantity for this product?

A4: The minimum order quantity for this product is discussible.

Q5: What are the available payment terms for this product?

A5: The available payment terms for this product are L/C, D/A, D/P, T/T, Western Union, and MoneyGram.

Q6: What is the price range for this product?

A6: The price range for this product starts at \$5, but it is discussible.

Q7: What are the packaging details for this product?

A7: The packaging details for this product are standard export waterproof package, suitable for all kinds of transport, or as required.

Q8: What is the delivery time for this product?

A8: The delivery time for this product is 21 days.

Q9: What is the supply ability for this product?

A9: The supply ability for this product is 5000 square meters per day.
