Basic Information

- Place of Origin: Hebei,China
- Brand Name: BAODU
- Model Number: Steel Beam
- Minimum Order Quantity: Discussible
- Price: Reasonable
- Packaging Details: GB standard steel i beam 1. It can pack by container or bulk vessel. 2. 20ft container can load 25 tons, 40ft container can load 26 tons. 3.Standard export seaworthy package, it use wire rod with bundle according product's size. 4.We can make it as your re
- Delivery Time: 21days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 50000 Ton/Tons per Month 15000T/per season,steel i beam

Product Specification

- Fire Resistance: Yes
- Shape: Beam
- Stock: All Size Available
- Length: 1--12m Or As Request
- Processing Service: Punching,Cutting,Welding
- Keyword: STEEL BEAM
- Application: Construction
- Surface: Oiled, Sand Blasting, Galvanizing, Painting,as Your Request.
- Highlight: Customizable Surfaces H Shape Steel Beam, Fire Resistant H Shape Steel Beam, Stainless H Shape Steel Beam

Product Description

H Shape Steel Beam Fire Resistant Stainless Steel H Beams With Customizable Surfaces

Product Description:

With its fire resistance feature, you can be confident that your building is safe and protected against potential hazards. Its technical specification of being hot rolled also ensures that the steel is strong and able to withstand heavy loads and pressure.

Our steel h beam is designed to cater to various construction applications. Its shape as a beam makes it suitable for use in building frameworks, bridges, and other structural projects. Its high strength and durability also make it an ideal choice for industrial and commercial applications.

Whether you are constructing a small residential building or a large commercial project, our high beam steel can meet your needs. Its versatility and strength make it a popular choice among contractors and builders.

So why choose our steel beam product? Our hot-rolled iron-carbon steel h-beams are of the highest quality, ensuring that your building or project is safe and secure. Its fire resistance feature provides additional protection, giving you peace of mind knowing that your investment is protected.

Don't settle for subpar materials when it comes to your construction projects. Trust in the strength and durability of our steel h beam.

Features:

Product Name: Steel Beam

Size: 100mm*68mm-900mm*300mm

Material: Steel

Surface: Oiled, Sand Blasting, Galvanizing, Painting, as Your Request.

Stock: All Size Available

Application: Construction

Our Steel Beam is a versatile structural support that can be used in a variety of construction projects. Made from high-quality carbon steel, it provides strength and durability. We offer a range of surface finishes including oiled, sand blasting, galvanizing, and painting, or we can customize the finish to your specific request. Our Steel Beam comes in a wide range of sizes from 100mm*68mm to 900mm*300mm, and we always have all sizes in stock. Whether you need a carbon steel h beam, galvanized steel beam, or stainless steel beam 304 price, we have the solution for you. Trust our Steel Beam for your next construction project.

This Steel Beam product is a type of prefabricated steel columns and beams that can be used in construction projects. It is made of either

carbon steel or stainless steel h beam, depending on the specifications.

Applications:

The product is ideal for use in a range of construction applications, including industrial buildings, bridges, and residential properties. The steel beam is long-lasting and is designed to withstand harsh weather conditions and other environmental factors.

BAODU Steel Beam is available at a reasonable price and has a minimum order quantity that is negotiable. The product is packed according to GB standards and can be packed in containers or bulk vessels. A 20ft container can load up to 25 tons, while a 40ft container can load 26 tons. The product uses wire rod with a bundle to ensure that it is seaworthy, and the packaging can be customized according to customer requirements.

BAODU Steel Beam also offers processing services, including punching, cutting, and welding. The product is marked according to customer requirements, ensuring that each customer receives a product that meets their specific needs.

The fire-resistant properties of the product make it ideal for use in buildings and structures where fire safety is a concern. The product is also ideal for use in structures that require exceptional strength and durability, making it a popular choice for construction companies and contractors.

In summary, BAODU Steel Beam is a high-quality product that offers exceptional durability and strength. The product is made using Q345B steel H beam and is available in galvanized steel beam and I beam steel variants. It is ideal for use in a range of construction applications and is available at a reasonable price. The product is delivered within 21 days and offers a range of payment methods.

Support and Services:

Our Steel Beam product technical support team is available to assist with any questions or issues related to the product. We offer a range of services to ensure that our customers have the best possible experience with our product, including:

[Product installation support](#)
