

Fire Resistant Stainless Steel Carbon Steel Hot Rolled H Beam For Structural Construction

Our Product Introduction

for more products please visit us on baodupanel.com

Basic Information

- Place of Origin: Hebei, China
- Brand Name: BAODU
- Model Number: Steel Beam
- Minimum Order Quantity: Discussible
- Price: Reasonable
- Packaging Details: GB standard steel i beam 1. It can pack by container or bulk vessel. 2. 20ft container can load 25 tons, 40ft container can load 26 tons. 3. Standard export seaworthy package, it use wire rod with bundle according product's size. 4. We can make it as your re
- Delivery Time: 21days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 50000 Ton/Tons per Month 15000T/per season, steel i beam

Product Specification

- Marking: Follow Customer's Requirement
- Product Name: Fire Resistant Hot Rolled Stainless Steel H Beam Carbon Steel H Beam For Structural Construction
- Installation Method: Welding
- Application: Construction
- Durability: Long-lasting
- Size: 100mm*68mm-900mm*300mm
- Material: Steel
- Length: 1--12m Or As Request
- Highlight: Fire Resistant hot rolled h beam , Carbon Steel hot rolled h beam , Structural Construction stainless steel h beam

Product Description

Fire Resistant Hot Rolled Stainless Steel H Beam Carbon Steel H Beam for Structural Construction

Product Description:

Our Steel Beams are available in a variety of surface finishes, including oiled, sand blasting, galvanizing, and painting. We understand that each construction project has its unique requirements, which is why we offer customization services to ensure that your Steel Beams meet your specific needs. You can choose the surface finish that best suits your project needs and preferences.

Our Steel Beams are suitable for a wide range of applications, including industrial, commercial, and residential construction projects. Whether you're building a steel roof or constructing a high-rise building, our Steel Beams are the perfect choice.

In addition to their high strength and durability, our Steel Beams are also highly versatile. They can be easily processed using cutting, welding, and punching techniques, which makes them ideal for use in a variety of construction applications.

Our Steel Beams are designed to offer superior performance and reliability, and are an excellent investment for any construction project. With our galvanized steel beam, you can be sure that your construction project will be built to last.

So why wait? Order your Steel Beams today and experience the benefits of high-quality construction materials. Contact us now to learn more about our products and services.

Features:

Product Name: Steel Beam

Size: 100mm*68mm-900mm*300mm

Material: Steel

Shape: Beam

Installation Method: Welding

Application: Construction

Our Steel Beam product is perfect for any steel beam structural needs you may have. Made from high-quality steel, this beam is durable and strong. With sizes ranging from 100mm*68mm to 900mm*300mm, we have a Steel Beam that will fit your specific needs. The installation method is welding, making it easy to install in any construction project. This beam is perfect for any construction project where a beam for steel structure is required. Contact us today to get a stainless steel beam 304 price quote.

Technical Parameters:

H BEAM (GB/JIS)

Sizes: 100mm to 900mm

Dimensional specifications:
JIS G3192, GB/T11263, EN10034, ASTM

Material Specifications:
JIS SS400, GB Q235B/Q355B, EN S235, S355

Applications:

BAODU Steel Beam is a versatile product that can be used in various construction scenarios. The Steel Beam can be used in structural applications such as stainless steel h beam, which is used in buildings, bridges, and other structures to provide support and stability. The Steel Beam is also used in the construction of warehouses, factories, and other industrial buildings that require a strong and durable support structure.

In conclusion, the BAODU Steel Beam is a reliable and cost-effective product that is suitable for various construction applications. The product is manufactured to meet the highest standards of quality and durability. It is available in different models and sizes, making it a versatile product that can be used in various construction scenarios.

Advantage:

HIGH STRENGTH AND STIFFNESS H-beams are designed to have high strength and stiffness to withstand large loads and resist bending and torsion, making them suitable for large-span structures and heavy-loaded projects. Various specifications: H beams have various specifications, we supply all kinds of standard H beams, including: American Standard H beams, Australian Standard H beams, British Standard H beams and so on, which can meet the needs of different projects, including different heights, widths and thicknesses.

Support and Services:

Our Steel Beam product comes with comprehensive technical support and services to ensure that your project is successful. Our team of experts is available to assist you with any questions or issues you may encounter during installation or use of our product. We offer the following services:

Product installation support

Product maintenance and repair services

Technical consultation and advice

Customization and fabrication services

Product training and education

Our goal is to provide you with the highest level of support and services to help you achieve your project goals. Contact us today to learn more.

Packing and Shipping:

Packing	1. Water-proof plastic cloth,
	2. Woven bags,
	3. PVC package,
	4. Steel strips in bundles
	5. As your requirement
Delivery Time	1. Usually, within 10-20 days after receiving deposit or LC.
	2. According to the order quantity

FAQ:

Q: What is the brand name of this product?

A: The brand name of this product is BAODU.

Q: What is the model number of this product?

A: The model number of this product is Steel Beam.

Q: What is the place of origin of this product?

A: The place of origin of this product is Hebei, China.

Q: What is the packaging detail of this product?

A: The packaging details are as follows: GB standard steel i beam 1. It can pack by container or bulk vessel. 2. 20ft container can load 25 tons, 40ft container can load 26 tons. 3. Standard export seaworthy package, it use wire rod with bundle according product's size. 4. We can make it as your requirement.

Q: What is the delivery time for this product?

A: The delivery time for this product is 21 days.

Q: What are the payment terms for this product?

A: The payment terms for this product are L/C, D/A, D/P, T/T, Western Union, and MoneyGram.

Q: What is the supply ability of this product?

A: The supply ability of this product is 50000 Ton/Tons per month, 15000T/per season, steel i beam.

Q: What is the minimum order quantity for this product?

A: The minimum order quantity for this product is discussible.

Q: What is the price of this product?

A: The price of this product is reasonable.
