

Structural Stainless Galvanized Angles For Customizable Building And Bridge Structures

Our Product Introduction

for more products please visit us on baodupanel.com

Basic Information

- Place of Origin: Hebei, China
- Brand Name: BAODU
- Certification: ISO9001:2008, SGS
- Model Number: Angle Steel
- Minimum Order Quantity: 1 ton
- Price: Reasonable
- Packaging Details: Export standard packing or according to customers' requirement
- Delivery Time: 21 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 40000 Ton/Tons per Month

Product Specification

- Features: High Strength/Corrosion Resistant
- Weight: Customizable
- Use: Beam, Bridge, Transmission Tower, Ship Etc
- Technique: Hot Rolled
- Material: Steel
- Application: Construction/Structural Support
- Shipping: Shipped By Container/break Bulk
- Product Name: Structural Stainless Galvanised Angle Steel For Customizable Building And Bridge Structures
- Highlight: **Stainless Galvanised Angle Steel, Structural Steel galvanized angles, Building galvanized angles Steel**

Product Description

Structural Stainless Galvanised Angle Steel For Customizable Building And Bridge Structures

Product Description:

One of the advantages of the Steel Angle product is its customizable weight, which allows for greater flexibility in design and construction. Additionally, this angle steel bar can be made from a variety of materials, including stainless steel angle bar, which offers excellent corrosion resistance and strength.

Due to its strength and durability, the Steel Angle product is commonly used in the construction of buildings, bridges, and other structures that require a strong structural support. It is also used in a variety of industrial applications, such as the manufacturing of machinery and equipment.

Overall, the Steel Angle product offers a reliable and cost-effective solution for a wide range of construction and industrial applications. With its customizable weight, right angle shape, and equal or unequal sides, this steel angle bar can be tailored to meet the specific needs of any project.

Features:

Product Name: Angle Steel

Type: Equal or Unequal

Features:

High Strength

Corrosion Resistant

Shape: Right Angle

Width: Customizable

Our stainless steel tile angle, angle iron steel, and L shaped angle steel bar are perfect for any project that requires high strength and corrosion resistance. With customizable width options, our Angle Steel product is versatile and reliable.

Technical Parameters:

Type	equal angle steel, unequal angle steel	
Standard	GB/T9787-88, JIS G3192:2000, JIS G3101:2004, BS EN10056-1:1999, BS EN10025-2:2004	
Materials	Q235B, Q345B, SS400, SS540, S235JR, S235JO, S235J2, S275JR, S275JO, etc.	
Thickness	3-24mm	
Length	1-12 m, or as requirements	
Equal Angle	Size	20-200mm
	Weight	0.597-71.168kg/m
Unequal Angle	Size	25*16-200*125mm
	Long Side	20-200mm
	Short Side	16-125mm
	Weight	1.687-43.588kg/m
Surface Treatment	oil, black, galvanized, painted	
Technique	hot rolled/cold rolled/galvanized	
Packing	with bundle, as per standard seaworthy package or as customer's requirement	
Application	widely used in various building structure and engineering structure, such as the beam, bridges, transmission tower, lifting transportation machinery, ship, industrial furnace, reaction tower and container frame etc.	

Applications:

The Angle Steel product can be used in various construction and structural support applications, making it a popular choice among builders and engineers. Its shape, a right angle, makes it ideal for creating strong and stable support structures for buildings and other structures. The product's customizable weight makes it easy to use in a variety of applications, from small-scale projects to large-scale construction.

The BAODU Angle Steel is suitable for use in a variety of scenarios and occasions, including:

Industrial: The Angle Steel product is widely used in the industrial sector for structural support in factories, warehouses, and other industrial buildings. Its strength and durability make it an ideal choice for heavy-duty applications.

Construction: The Angle Steel product is commonly used in construction for support beams, columns, and other structural components. Its ability to withstand heavy loads and extreme weather conditions make it a popular choice among builders and engineers.

Infrastructure: The Angle Steel product is also used in infrastructure projects, such as bridges and highways, for structural support and stability. Its corrosion-resistant properties make it a reliable choice for long-term projects that require durability and strength.

Architectural: The Angle Steel product is also used in architectural projects for its aesthetic appeal and versatility. Its right-angled shape can be used to create unique designs and structures that are both functional and visually appealing.

The BAODU Angle Steel product is available in a variety of materials, including stainless steel angle steel, carbon steel angle, and galvanized angle steel. The product's supply ability is 40000 Ton/Tons per Month, and it can be delivered within 21 days. Payment terms include L/C, D/A, D/P, T/T, Western Union, and MoneyGram.

Support and Services:

The Steel Angle product is designed to provide structural support in a variety of applications. Our technical support team is available to assist with any questions regarding the product's capabilities and installation procedures. We offer a range of services to ensure that our customers have access to the information and resources they need to successfully utilize our product:

[Product specifications and data sheets](#)

[Custom fabrication options](#)

[Engineering support for product design and selection](#)

[Training and education resources for installation and maintenance](#)

[Warranty and repair services](#)

Our goal is to provide comprehensive support throughout the entire lifecycle of the Steel Angle product, from initial design to ongoing maintenance and replacement. Contact us to learn more about how we can assist with your project needs.

Packing and Shipping:

FAQ:

Q: What is the brand name of this product?

A: The brand name of this product is BAODU.

Q: What is the model number of this product?

A: The model number of this product is Angle Steel.

Q: Where is this product manufactured?

A: This product is manufactured in Hebei, China.

Q: What certifications does this product have?

A: This product is certified with ISO9001:2008 and SGS.

Q: What is the minimum order quantity for this product?

A: The minimum order quantity for this product is 1 ton.

Q: What is the price of this product?

A: The price of this product is reasonable.

Q: What are the packaging details for this product?

A: The packaging details for this product are export standard packing or according to customers' requirement.

Q: What is the delivery time for this product?

A: The delivery time for this product is 21 days.

Q: What are the payment terms for this product?

A: The payment terms for this product are L/C, D/A, D/P, T/T, Western Union, MoneyGram.

Q: What is the supply ability for this product?

A: The supply ability for this product is 40000 Ton/Tons per Month.
