

Manufacturing Project Galvanized Steel Angle Corrosion Resistant For Construction

Our Product Introduction

Basic Information

- Place of Origin: Hebei, China
- Brand Name: BAODU
- Certification: ISO9001:2008, SGS
- Model Number: Angle Steel
- Minimum Order Quantity: 1 ton
- Price: Reasonable
- Packaging Details: Export standard packing or according to customers' requirement
- Delivery Time: 21 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 40000 Ton/Tons per Month

Product Specification

- Features: High Strength/Corrosion Resistant
- Weight: Customizable
- Technique: Hot Rolled
- Type: Equal Or Unequal
- Normal Length: 1-12m Or As Request
- Dimensions: 20*20--200*200mm
- Width: Customizable
- Shipping: Shipped By Container/break Bulk
- Highlight: **Corrosion Resistant Galvanized Steel Angle, Manufacturing Project Galvanized Steel Angle, Construction Galvanized Steel Angle**

Product Description

Manufacturing Project Galvanized Steel Angle Sizes Corrosion Resistant Steel Angle For Construction

Product Description:

Our steel angle product is made with 304 stainless steel angle valve, which is known for its superior strength and corrosion resistant properties. This means that you can trust our steel angle product to stand up to even the harshest environments and provide reliable performance for years to come.

In addition to its strength and corrosion resistance, our steel angle product also features a galvanized or coated surface treatment that helps to further protect it from damage and wear. This surface treatment helps to prevent rust, corrosion, and other forms of damage, ensuring that your steel angle product remains in top condition even under the toughest conditions.

At the same time, our steel angle product is also highly customizable, allowing you to choose the thickness and size that best meets your specific needs. Whether you need mild steel angle brackets for a construction project or metal angles for manufacturing purposes, our steel angle product can be customized to meet your exact specifications.

So if you're looking for a strong, durable, and high-quality steel angle product that can withstand even the toughest conditions, look no further than our stainless steel angle steel. With its advanced hot rolling techniques, superior strength, and customizable size and thickness, our steel angle product is the perfect choice for any construction or manufacturing project, big or small.

Features:

Product Name: Angle Steel

Weight: Customizable

Application: Construction/Structural Support

Features: High Strength/Corrosion Resistant

Type: Equal Or Unequal

Our angle iron steel is made with high-quality materials to ensure durability and strength in your construction projects. Whether you need 304 stainless steel angle valve or stainless steel tile angle, our angle steel is customizable to fit your specific needs. Its high strength and corrosion-resistant properties make it a reliable choice for structural support in any construction project.

Technical Parameters:

Type	equal angle steel, unequal angle steel	
Standard	GB/T9787-88, JIS G3192:2000, JIS G3101:2004, BS EN10056-1:1999, BS EN10025-2:2004	
Materials	Q235B, Q345B, SS400, SS540, S235JR, S235JO, S235J2, S275JR, S275JO, etc.	
Thickness	3-24mm	
Length	1-12 m, or as requirements	
Equal Angle	Size	20-200mm
	Weight	0.597-71.168kg/m
Unequal Angle	Size	25*16-200*125mm
	Long Side	20-200mm
	Short Side	16-125mm
	Weight	1.687-43.588kg/m
Surface Treatment	oil, black, galvanized, painted	
Technique	hot rolled/cold rolled/galvanized	
Packing	with bundle, as per standard seaworthy package or as customer's requirement	
Application	widely used in various building structure and engineering structure, such as the beam, bridges, transmission tower, lifting transportation machinery, ship, industrial furnace, reaction tower and container frame etc.	

Applications:

BAODU Steel Angle is a versatile product that can be used in a variety of industries and applications. The steel angle bar is made of high-quality stainless angle steel or galvanized steel angle, ensuring its durability and strength. It is a product that is highly demanded in the market because of its excellent properties and versatility.

Product Application Occasions:

The BAODU Steel Angle product is widely used in the construction industry as it is ideal for building structures such as beams, bridges, transmission towers, and ships. It is also used in the manufacturing of machinery and equipment, such as agricultural machinery, conveyor systems, and mining equipment. The steel angle can be used to create sturdy and reliable frames, brackets, and supports for various applications.

Another common application for the BAODU Steel Angle is in the manufacturing of furniture, particularly in creating frames for chairs, tables, and shelves. The steel angle is also used in the automotive industry, where it is used to create frames for cars, trucks, and other vehicles.

Product Application Scenarios:

The BAODU Steel Angle product is ideal for use in harsh environments, such as in offshore oil rigs, where it is exposed to saltwater and other corrosive elements. It is also ideal for use in humid environments, such as in greenhouses and other agricultural settings.

The steel angle can be used in a variety of scenarios, including outdoor construction projects, indoor manufacturing facilities, and commercial and residential settings. It is a versatile product that can be customized to meet the specific needs of each application.

The BAODU Steel Angle product is available in a range of dimensions, including 20*20--200*200mm, and can be customized to fit specific width requirements. It is available in both equal or unequal types, depending on the specific application. The normal length is 1-12m, but it can be customized as per the customer's requirement.

Support and Services:

Our Steel Angle product comes with comprehensive technical support and services to ensure that our customers have a smooth experience. This includes:

[Assistance with product selection and customization](#)

[Expert advice on installation and maintenance](#)

[Guidance on product specifications and compatibility](#)

[Access to technical documentation and manuals](#)

[Training resources for customers and their staff](#)

[Warranty and repair services](#)

[24/7 customer support for urgent inquiries and issues](#)

Our team is dedicated to providing prompt and reliable support to help our customers achieve their goals. Contact us for more information.

Packing and Shipping:

FAQ:

A: The brand name is BAODU.

Q: What is the model number of the Steel Angle product?

A: The model number is Angle Steel.

Q: Where is the Steel Angle product manufactured?

A: The Steel Angle product is manufactured in Hebei, China.

Q: What certifications does the Steel Angle product have?

A: The Steel Angle product has ISO9001:2008 and SGS certifications.

Q: What is the minimum order quantity for the Steel Angle product?

A: The minimum order quantity is 1 ton.

Q: What is the price range for the Steel Angle product?

A: The price is reasonable and varies based on the quantity ordered.

Q: How is the Steel Angle product packaged?

A: The Steel Angle product is packaged in export standard packing or according to customers' requirement.

Q: What is the delivery time for the Steel Angle product?

A: The delivery time is 21 days.

Q: What are the payment terms for the Steel Angle product?

A: The payment terms are L/C, D/A, D/P, T/T, Western Union, and MoneyGram.

Q: What is the supply ability for the Steel Angle product?

A: The supply ability is 40000 Ton/Tons per Month.
