

## Hot Rolled U Section Carbon Steel U Beams U Channel Structural Steel For Construction

Our Product Introduction

for more products please visit us on [baodupanel.com](http://baodupanel.com)

### Basic Information

- Place of Origin: Hebei, China
- Brand Name: BAODU
- Certification: CE, ISO, SGS
- Model Number: Steel Channel
- Minimum Order Quantity: 1 Ton
- Price: Reasonable
- Packaging Details: In general, for steel structure, we use the steel frame packing to keep goods not to be broken. For sandwich panel and color steel sheet, we use the plastic packing. If the clients need special packing will according to their requirements.
- Delivery Time: 15 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 40000 Ton/Tons per Month

### Product Specification

- Finishes: Hot Dip Galvanized/ Pre-galvanized/ Electro-polish
- Surface Treatment: Galvanized/Black/Coated
- Processing Service: Bending, Welding, Punching, Decoiling, Cutting
- Application: Construction/ Engineering/ Manufacturing
- Type: Not Perforated
- Alloy Or Not: Non-Alloy
- Raw Material: Stainless Steel SS304 / SS316 Mill / Mild / Plain Steel
- Thickness: 1.5mm-25mm
- Highlight: **hot rolled u section carbon steel ,  
construction u section carbon steel ,  
structural steel u section carbon steel**

## Product Description

### hot rolled u section carbon steel U beams U channel structural steel for construction

#### Product Description:

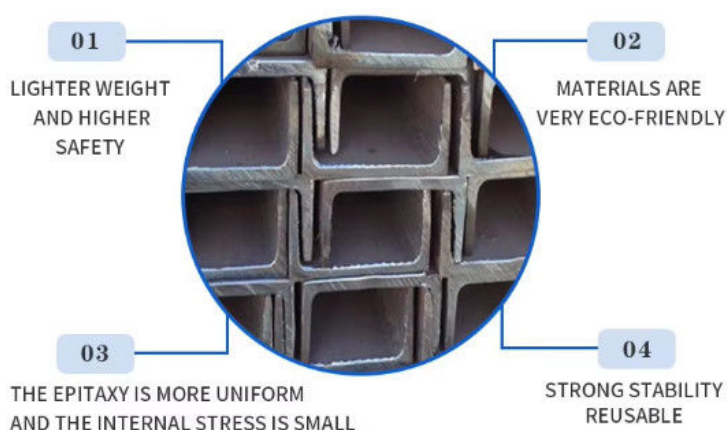

The surface treatment options for this product include galvanized, black, or coated finishes. The galvanized finish offers excellent corrosion resistance, making it suitable for outdoor and industrial applications. The black finish provides a sleek and modern look, while the coated finish provides an added layer of protection against wear and tear.

The Steel Channel product is available in three finishes: hot-dip galvanized, pre-galvanized, and electro-polish. The hot-dip galvanized finish is created by dipping the steel in a molten zinc bath, providing superior corrosion protection. The pre-galvanized finish is achieved by coating the steel with a layer of zinc before it is formed, providing moderate protection against corrosion. The electro-polish finish offers a smooth and shiny surface, making it ideal for decorative applications.

This product can be processed in various ways, including bending, welding, punching, decoiling, and cutting. This makes it easy to customize and use for specific applications, such as creating steel c channel brackets for construction projects.

Overall, the Steel Channel product is a reliable and versatile option for construction projects that require a sturdy and durable material. With its U shape steel channel profile and availability in various finishes and lengths, it is suitable for a wide range of applications. Whether you need channels steel for indoor or outdoor use, this product is sure to provide the strength and durability you need.

#### Features:

Product Name: Steel Channel

Processing Service: Bending, Welding, Punching, Decoiling, Cutting

Alloy Or Not: Non-Alloy

Surface Treatment: Galvanized/Black/Coated

Thickness: 1.5mm-25mm

Application: Construction/ Engineering/ Manufacturing

The Steel Channel is a versatile steel channel profile that can be processed in various ways such as bending, welding, punching, decoiling, and cutting. It is a non-alloy steel channel that comes in different surface treatments such as galvanized, black, or coated. It has a thickness range of 1.5mm-25mm, making it suitable for different applications in construction, engineering, and manufacturing. This stainless steel u channel is a reliable and durable material that can provide structural support for your projects.

#### Technical Parameters:

Size(mm)		Theoretical weight (KG/M)	Size(mm)		Theoretical weight(KG/M)
5#	50*37*4.5	5.438	20a	200*73*7	22.64

### Applications:

The Steel Channel is widely used in the construction, engineering, and manufacturing industries. It is a versatile product that can be used for a variety of applications. The Steel Channel is available in different finishes such as hot dip galvanized, pre-galvanized, and electro-polish. The u channel steel, c channel steel prices vary based on the finish and the length of the product. The Steel Channel is available in lengths of 3 meters, 5.8 meters, 6 meters, or as required.

BAODU Steel Channel is a product that is highly in demand due to its quality and durability. It is a popular choice for construction projects, as it is strong and can withstand heavy loads. The Steel Channel is also used in the manufacturing industry, where it is used for the production of various products.

The Steel Channel is available in different processing services such as bending, welding, punching, decoiling, and cutting. This makes it a versatile product that can be customized to meet the specific requirements of different applications.

When it comes to packaging, BAODU Steel Channel is well-protected to prevent any damage during transportation. For steel structures, the steel frame packing is used, while for sandwich panels and color steel sheets, plastic packing is used. If the clients need special packing, it will be done according to their requirements.

With a supply ability of 40000 Ton/Tons per month, BAODU Steel Channel is readily available to meet the demands of different customers. The product is available in different payment terms such as L/C, D/A, D/P, T/T, Western Union, and MoneyGram, making it easy for customers to purchase the product.

In conclusion, if you are looking for a high-quality and durable Steel Channel, BAODU Steel Channel is a great choice. It is a versatile product that can be used for different applications in the construction, engineering, and manufacturing industries. The product is well-packaged and readily available, making it easy to purchase.

### Customization:

Our Steel Channel is produced in Hebei, China, and is certified with CE, ISO, and SGS. We offer a reasonable price and have a minimum order quantity of 1 ton. Our packaging is designed to keep your goods safe during delivery, with steel frame packing used for steel structure products, and plastic packing used for sandwich panel and color steel sheet products. If you require special packaging, we can

accommodate your needs.

At BAODU, we are committed to meeting our customer's needs. We offer flexible payment terms including L/C, D/A, D/P, T/T, Western Union, and MoneyGram. Our supply ability is 40000 Ton/Tons per Month, ensuring we can meet your demand.

Our Steel Channel is a U shape steel channel profile, and we offer standard sizes to meet your needs. Contact us today to learn more about our products and c channel steel prices.

### Support and Services:

Our Steel Channel product technical support team is available to assist you with any questions or concerns you may have regarding the product. This includes assistance with installation, troubleshooting, and product specifications.

In addition to technical support, we also offer a range of services to ensure that your Steel Channel product performs at its best. These services include regular maintenance, repairs, and replacements for any damaged or worn parts.

Our team of experienced technicians are trained to quickly diagnose and resolve any issues with your Steel Channel product. We are committed to providing you with the highest level of service and support to ensure your complete satisfaction.

### Packing and Shipping:

Product Packaging:

The Steel Channel product will be packaged securely to ensure safe transportation and delivery. Each piece will be wrapped in protective material to prevent any scratches or damage during transit. The product will then be placed in a sturdy steel sheet box with additional cushioning to provide extra protection.

Shipping:

We offer shipping services to all locations within the United States. Once your order has been confirmed and payment has been received, your Steel Channel product will be shipped out within 1-2 business days. We use reputable shipping carriers to ensure timely and safe delivery. You will receive a tracking number once your package has been shipped so you can track its progress and estimated delivery date.

### FAQ:

Q: What is the brand name of this product?

A: The brand name of this product is BAODU.

Q: Where is the Steel Channel made?

A: The Steel Channel is made in Hebei, China.

Q: Does this product have any certification?

A: Yes, this product is certified with CE, ISO, and SGS.

Q: What is the minimum order quantity for this product?

A: The minimum order quantity for this product is 1 Ton.

Q: What is the packaging detail for this product?

A: In general, for steel structure, we use the steel frame packing to keep goods not to be broken. For sandwich panel and color steel sheet, we use the plastic packing. If the clients need special packing, we will according to their requirements.

Q: What is the supply ability for this product?

A: The supply ability for this product is 40000 Ton/Tons per month.

Q: What are the payment terms for this product?

A: The payment terms for this product are L/C, D/A, D/P, T/T, Western Union, and MoneyGram.

Q: What is the delivery time for this product?

A: The delivery time for this product is 15 days.

Q: Is the price of this product reasonable?

A: Yes, the price of this product is reasonable.
