- Highlight: **Exterior Glass Wool Sandwich Panel, Roofing Glass Wool Sandwich Panel,**

Soundproofing Insulation Exterior Foam Color Steel Exterior Glass Wool Sandwich Panel For Roofing

Product Description:

One of the key features of the Glasswool Sandwich Panel is its fire resistance. It has been tested to meet fire safety standards and is capable of withstanding high temperatures without compromising its structural integrity. This makes it an ideal choice for buildings and structures where fire safety is a primary concern.

The surface treatment of the Glasswool Sandwich Panel can be customized to suit the specific needs of a project. This allows for a range of finishes and coatings that can enhance the panel's performance and durability. Whether it is for outdoor use or indoor applications, the surface treatment can be tailored to provide the necessary protection and aesthetics.

Customers who purchase the Glasswool Sandwich Panel also benefit from comprehensive after-sale services. Online technical support is available to help with any queries or issues that may arise during the installation or use of the product. Onsite installation services can also be arranged to ensure that the panel is installed correctly and to the highest standards.

While the MOQ for the Glasswool Sandwich Panel is customized, customers can request a free sample to test the product's quality and suitability for their project. This allows for a risk-free evaluation of the panel's performance and helps customers make an informed decision about their purchase.

In summary, the Glasswool Sandwich Panel is a fire-resistant, lightweight, and efficient thermal insulation option for construction projects. Its customizable surface treatment and comprehensive after-sale services make it a reliable and convenient choice for builders and contractors. With a density of 64kg/m³, it is easy to handle and install, while its fireproof glass wool core ensures maximum safety and protection. Whether it is for commercial or residential use, the Glasswool Sandwich Panel is an excellent choice for any construction project that requires fire resistance, acoustic insulation, and thermal efficiency.

Features:

Product Name	Glass Wool Sandwich Panel with PU Edge
Width	1000mm
Top plate/Bottom plate	0.5-1mm
Core thickness	50mm,75mm,100mm,150mm,200mm
Length	Less than 11.8m (For transport need)
Density	100-180kg/m ³
Color	White, Red, Blue,Customized
Connection Way	Hidden
Sound insulation	20-25db
Application	various walls of large size factory warehouse, exhibition halls,gymnasiums

Technical Parameters:

Allowable vertical load and thermal conductivity of BAODU new model fireproof glass wool roof sandwich panel (allowable deflection $\leq L/200$)								
S(mm)	W/m ² K	G(kg)	P=KN/m ²	0.60	0.80	1.00	1.20	1.50
50	0.69	12.95	L(m)	3.74	3.23	2.86	2.57	2.23
70	0.47	14.50	L(m)	5.01	4.34	3.86	3.48	3.05
100	0.36	16.04	L(m)	6.21	5.32	4.73	4.28	3.75
125	0.34	17.06	L(m)	7.11	6.31	5.77	4.93	4.32
150	0.33	19.14	L(m)	8.00	6.94	6.18	5.58	4.89
200	0.30	22.78	L(m)	9.79	8.56	7.63	6.88	6.00

Applications:

Due to their light weight, Glasswool Sandwich Panels are easy to handle and install, making them ideal for various applications. These panels can be used in both residential and commercial buildings, including warehouses, factories, sports halls, and more.

The Glasswool Sandwich Panel is an ideal solution for areas where thermal insulation is a must, such as cold storages, refrigerated trucks, and more. These panels are designed to maintain the temperature inside the room, ensuring that the products remain fresh and intact.

BAODU Glasswool Sandwich Panels are also customizable in length and surface treatment, making them perfect for various projects. The panels come with a CE certification, ensuring that they meet all safety standards.

With a reasonable price and a minimum order quantity that is discussible, BAODU Glasswool Sandwich Panels are an excellent choice for those who are looking for high-quality panels that are also budget-friendly. The panels are packed using steel frame or plastic packing, depending on the type of product.

BAODU Glasswool Sandwich Panels have a supply ability of 5000 square meters per day, ensuring that the orders are fulfilled on time. The delivery time is 15 days, and the payment terms include L/C, D/A, D/P, T/T, Western Union, and MoneyGram.

BAODU Glasswool Sandwich Panels also come with a free sample, allowing customers to test the product before making a purchase. With their numerous benefits and customizable options, Glasswool Sandwich Panels by BAODU are an ideal solution for various construction projects.

Order now and experience the benefits of BAODU Glasswool Sandwich Panels for yourself!

Support and Services:

The Glasswool Sandwich Panel is a durable and versatile building material that is suitable for a wide range of applications. Our product technical support team is available to provide expert guidance and assistance with product selection, installation, and maintenance to ensure that your project is a success.

We offer a range of services to ensure that you get the most out of your Glasswool Sandwich Panel, including:

[Technical consulting to help you choose the right product for your needs](#)

[Installation support to ensure that your panels are installed correctly](#)
