

## Customized Service Modular Steel Buildings , Prefab Warehouse Building Low Maintenance

Our Product Introduction

for more products please visit us on [baodupanel.com](http://baodupanel.com)

### Basic Information

- Place of Origin: Hebei, China
- Brand Name: BAODU
- Certification: ISO9001, CE
- Model Number: Steel Warehouse
- Minimum Order Quantity: Discussible
- Price: Reasonable
- Packaging Details: In general, for steel structure , we use the steel frame packing to keep goods not to be broken . For sandwich panel and color steel sheet, we use the plastic packing . If the clients need special packing will according to their requirements.
- Delivery Time: 15-21days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 10000 Square Meter/Square Meters per Month

### Product Specification

- Product Name: Steel Structure Metal High Quality Material From Factory Direct Supply Customized Service Free Sample Steel Structure
- Purlin: C.Z Shape Steel
- Security: High
- Surface Treatment: Hot Dip Galvanised Or Painted
- Roof & Wall Panel: Color Steel Veneer, Rockwool Sandwich Panel, PU Sandwich Panel Etc
- Feature: Long Fatigue Life
- Maintenance: Low
- Weather Resistance: High
- Highlight: **Prefab Warehouse Building Modular Steel Buildings**  
**, low maintenance Modular Steel Buildings,**  
**Customized Service Modular Steel Buildings**

### Product Description

#### Steel Structure Metal High Quality Material Factory Direct Supply Customized Service Steel Structure

#### Product Description:

The building has a gable frame steel structure, which ensures its stability and strength. The walls and roof panels are made of color steel veneer, rockwool sandwich panel, PU sandwich panel, etc., which provide excellent insulation and protection from the elements. The light steel structure is easy to assemble and disassemble, which makes it ideal for temporary or permanent use. The Prefab Steel Warehouse is perfect for a variety of applications, including industrial steel storage, workshop, and commercial storage.

Our Product Intro

Its versatility and durability make it an excellent choice for businesses that require ample storage space. The building is designed to withstand harsh weather conditions, which makes it ideal for outdoor storage.

The steel structure building warehouse is an excellent investment for businesses that require a reliable and sturdy storage solution. Its low maintenance requirements and long-term durability make it a cost-effective solution for businesses of all sizes. The building is easy to customize, which makes it ideal for businesses that require specific storage requirements.

In conclusion, the Prefab Steel Warehouse is a top-of-the-line storage solution that offers excellent durability and versatility. Its light steel structure, gable frame steel structure, and color steel veneer, rockwool sandwich panel, PU sandwich panel roof and wall panels make it an ideal choice for businesses that require ample storage space. Its low maintenance requirements and long-term durability make it a cost-effective and practical solution for storage.

### Features:

Advantages of Steel Structures:

1. **Strength and Durability:** Steel has a high strength-to-weight ratio, making it capable of supporting heavy loads while being relatively lightweight. It also resists deformation and can withstand harsh environmental conditions.
2. **Versatility:** Steel can be molded into various shapes and sizes, allowing for innovative and flexible designs in architecture and construction.
3. **Speed of Construction:** Pre-fabricated steel components can be quickly assembled on-site, reducing construction time significantly compared to traditional materials.
4. **Cost-Effectiveness:** Although the initial material cost may be higher, steel structures often result in lower overall project costs due to faster construction times and lower maintenance requirements.
5. **Sustainability:** Steel is recyclable, making it an environmentally friendly option. Additionally, using steel can reduce waste during the construction process.
6. **Fire Resistance:** Steel structures can be treated with fire-resistant coatings, improving their performance in fire situations compared to other materials.

### Technical Parameters:

Name	Steel Structure Building	
Main Material	Q235 - Q420 Welded H Beam And Hot Rolled Section Steel	
Surface	Painting Or Galvanizing	
Roof And Wall Panel	EPS Sandwich Board, Single Corrugated Steel Plate, Glass Cotton Colored Board for Customers'Choice	
Window	PVC Or Aluminum Alloy	
Door	Sliding Door Or Rolling Shutter Door	
Service	Design	We have experienced designers to design.
	Manufacture	We can manufacture all kinds of steel structure products according to customers'needs.
	Installation	We provide detailed drawings to ensure installation. It also provides installation, supervision and training services. We can also send a team of engineers to guide or install on site.
Packing	1. Steel structure components will be in nude packaging with proper protection. .Sandwich panels will be covered with plastic film. 3. Bolts and other accessories will be loaded into wooden boxes. 4. Container Drying Treatment. 5. According to customer's requirement	
Quality Inspection	Factory Self-inspectionCustomer Inspection Third Party Inspection	

### Applications:

BAODU Steel Warehouse is an ideal solution for prefabricated warehouse construction, workshop industrial steel, and gable frame steel structure. Our steel warehouse is made in Hebei, China, with high-quality steel and has ISO9001 and CE certification. The minimum order quantity is discussible, and the price is reasonable.

Our Steel Warehouse is perfect for a variety of application occasions and scenarios. It can be used as a storage facility for goods, vehicles, and large equipment. It can also be used as a workshop for manufacturing, assembling, and repairing operations. The Steel Warehouse is also an excellent option for creating a distribution center or logistics hub for businesses.

The Steel Warehouse is easy to install and has a fast delivery time of 21 days. We offer various payment terms, including L/C, D/A, D/P, T/T, Western Union, and MoneyGram. Our supply ability is 10000 square meters per month.

Our Steel Warehouse is a light steel structure that is highly fire-resistant and has low maintenance. The door options include sliding door, rolling door, shutter single door, and color steel. The packaging details include steel frame packing for steel structure and plastic packing for sandwich panel and color steel sheet. We also offer special packing as per client requirements.

In conclusion, BAODU Steel Warehouse is an excellent choice for prefabricated warehouse construction, workshop industrial steel, and gable frame steel structure. It is highly durable, fire-resistant, low maintenance, and easy to install. Contact us today to discuss your steel warehouse needs.

## Customization:

### OUR CERTIFICATE

- 1) Cost saving and transportation convenient, customer design available.
- 2) The main beam and column are qualified steel.
- 3) The steel structure makes the house resisting heavy wind of 140km/h and 8 grade earthquake.
- 4) Good ability to assemble and disassemble for several times without damage.
- 5) Widely used in construction site, office building, dormitory etc.
- 6) Environmental protection effect is good. Steel structure housing construction greatly reduces the sand, stone, the dosage of the ash, used materials mainly green, recyclable or degradation materials, building dismantled, most of the material can be recycled or degradation, won't cause much rubbish.

## Support and Services:

Our prefabricated steel warehouse product comes with technical support and services to ensure that your building project is a success. Our team of experts is available to assist you with any questions or concerns you may have during the construction process. We offer a range of technical support services, including: - Structural engineering support - Architectural design support - Project management support - Installation guidance and support - Quality control inspections In addition to our technical support services, we also provide a range of after-sales services to ensure the ongoing maintenance and upkeep of your prefabricated steel warehouse. These services include: - Maintenance and repair services - Replacement parts and components - Upgrades and retrofits We are committed to providing our customers with the highest level of support and service throughout the entire lifecycle of their prefabricated steel warehouse. Contact us today to learn more about how we can assist you with your building project.
