- Supply Ability: 10000 Square Meter/Square Meters per Month

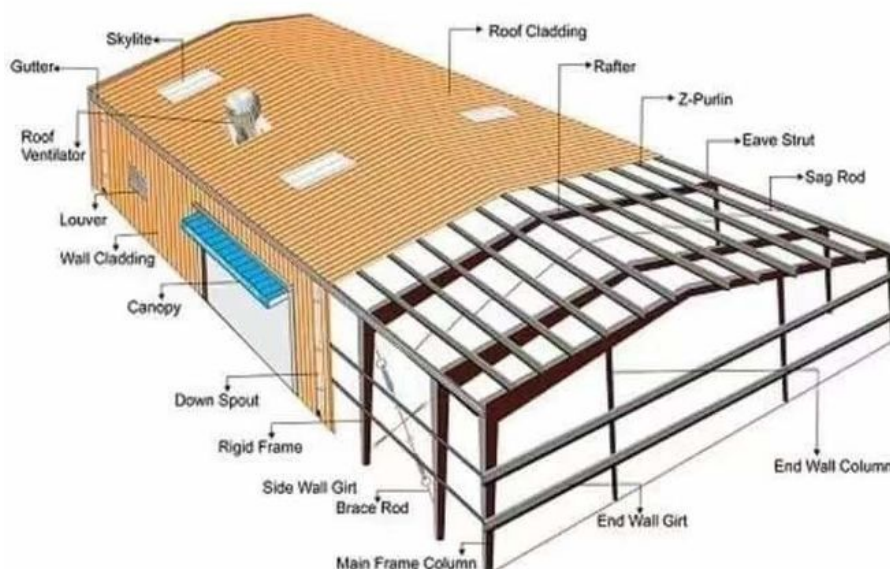

Product Specification

- Product Name: Low Cost Prefab Warehouse Steel Structure Factory Shop Workshop Prefab Factory Building
- Fire Resistance: High
- Roof & Wall Panel: Color Steel Veneer, Rockwool Sandwich Panel, PU Sandwich Panel Etc
- Security: High
- Installation: Easy
- Keyword: Steel Structure Building Warehouse
- Grade: Q235, Q355
- Processing Service: Bending, Welding, Decoiling, Cutting, Punching
- Highlight: Enhanced Security Steel Warehouse, Fireproof Steel Warehouse,

Product Description

Low Cost Prefab Warehouse Steel Structure Factory Shop Workshop Prefab Factory Building

Product Description:

Our Prefab Warehouse Construction is ideal for industrial steel buildings, workshop industrial steel, and other similar applications. With a tolerance of $\pm 1\%$, you can be assured of precision and accuracy in every component of the warehouse.

Aside from its durability, our Prefab Warehouse Construction also boasts of high fire resistance. This means that you can have peace of mind knowing that your warehouse is safe and secure from fire hazards.

If you're looking for a cost-effective solution for your warehouse needs, our Prefab Warehouse Construction is the perfect choice. Compared to traditional construction methods, our prefabricated steel warehouses are faster and easier to install. This means that you can have your warehouse up and running in no time, allowing you to focus on your business operations.

Our Prefab Warehouse Construction is also customizable to meet your specific requirements. We understand that each business has unique needs, and we are committed to providing tailored solutions that fit your needs. Whether you need a small warehouse or a large industrial steel building, we can design and build it for you.

In summary, our Prefab Steel Warehouse is a reliable and durable solution for your warehouse needs. Made from top-quality steel material, our light steel structure warehouses are designed to withstand extreme weather conditions and last for a long time. With high fire resistance and a tolerance of $\pm 1\%$, you can be assured of safety, precision, and accuracy in every component of the warehouse. Plus, our prefabricated construction method makes it faster and easier to install, saving you time and money. Contact us today to learn more about our Prefab Warehouse Construction services and how we can help your business grow.

Features:

Items		Specification
Main steel frame	Steel column	Q235, Q355 Welded H Section Steel
	steel beam	Q235, Q355 Welded H Section Steel
Secondary Frame	Purlin	Q235 C and Z purlin
	Corner support	Q235 Angle Steel
	Tie rod	Q235 Circular Steel Pipe
	brace	Q235 Round Bar
Maintenance system	Roof panel	EPS Sandwich Panel/ Glass Fiber Sandwich Panel/ Rock Wool Sandwich Panel
	Wall panel	Sandwich Panel/ Corrugated Steel Sheet

Accessories	Window	Aluminum alloy window/aluminum-plastic window/plastic steel window
	Door	Sliding track sandwich door/rolling shutter door/metal door
Structure Usage		Up to 50 years
Finishing Options		Vast array of colors and textures available

Technical Parameters:

Quotation information:

If you are interested in our products, please let us know your requirements for the steel structure project.

1: Location: Which country and region is the building located in.

2: Dimensions: Length * Width * Height

3: Wind load: maximum wind speed (kn/m2, km/h, m/s)

4: Snow load (if applicable): maximum snow height (kn/m2, mm)

5: Single layer steel plate mast or sandwich panel mast Do you need insulation materials? If so, it is recommended to use EPS, fiberglass wool, rock wool, and PU sandwich panels. If not, metal steel plates will be very affordable.

6: Seismic grade?

7: Do we need brick walls or not? If so, 1.2 meters high or 1.5 meters high

8: The Q value (unit) and size (width * height) of doors and windows.

9: Do you need a crane or not? If so, it is the quantity (unit), maximum lifting weight (ton), and maximum lifting height (meter).

10: Are there any other special requirements?

Applications:

Steel structure buildings serve a wide range of purposes, including warehouses, workshops, factories, cold storage facilities, high-rise buildings, shopping malls, power plants, distribution centers, pedestrian bridges, steel-structured hotels, prefabricated public schools, sports arenas and halls, car parking centers, airplane hangars and aviation facilities, church buildings and community centers, poultry farms, agricultural buildings and barns, storage sheds, self-storage buildings, greenhouses, garages, commercial buildings, industrial facilities, and much more.

BAODU Steel Warehouse is a reliable and durable construction solution for various application occasions and scenarios. As a gable frame Steel Structure, it provides excellent stability and strength, making it a perfect choice for Building Galvanized Storage Light Steel Building, and other industrial and commercial purposes.

With ISO9001 and CE certifications, customers can trust the quality of this product. The minimum order quantity is discussible, and the price is reasonable, making it an affordable option for any business. The packaging details are tailored to the product's components, with steel frame packing for steel structure and plastic packing for sandwich panels and color steel sheets.

Customers can expect a delivery time of 21 days, and payment terms can be flexible, including L/C, D/A, D/P, T/T, Western Union, and MoneyGram. The supply ability is 10000 Square Meter/Square Meters per Month, ensuring that your business can have a quick and reliable construction solution when needed.

The drawing design is made with top-of-the-line software, including SAP2000, AutoCAD, PKPM, 3D3S, and TEKLA, ensuring accurate and precise designs that meet your specific requirements.

BAODU Steel Warehouse comes with various door options, including Sliding Door, Rolling Door, Shutter Single Door, and Color Steel. The grade of the steel used is Q235 and Q355, and the surface treatment is either Hot Dip Galvanised or Painted.

The roof and wall options include Corrugated, EPS, PU, Rock Wool, and glass Wool, depending on your preferences and needs. Overall, BAODU Steel Warehouse is an excellent construction solution that offers flexibility, durability, and reliability for any industrial or commercial application.

Customization:

BAODU Steel Warehouse is a high-quality prefab steel structure that can be customized to fit any client's needs. Our product is made with Q235 and Q355 grade steel, ensuring its durability and strength.

We offer customization services such as bending, welding, decoiling, cutting, and punching to make sure that our product fits our clients' requirements. Our Steel Warehouse is perfect for use as a warehouse workshop, hangar hall, or any other steel structure needs.

Our Steel Warehouse is manufactured in Hebei, China, and comes with ISO9001 and CE certification. The minimum order quantity is discussible, and the price is reasonable. For packaging, we use steel frame packing for the steel structure and plastic packing for sandwich panel and color steel sheet. If the client requires special packaging, we will accommodate their needs.

Our delivery time is 21 days, and we offer payment terms such as L/C, D/A, D/P, T/T, Western Union, and MoneyGram. We can supply up to 10000 Square Meter/Square Meters per month.

Our Steel Warehouse comes with aluminum alloy windows or plastic steel windows.

Support and Services:

Our Prefab Steel Warehouse product comes with comprehensive technical support and services to ensure that our customers have a smooth and hassle-free experience. Our team of experts is available to assist throughout the entire process, from initial planning and design to installation and maintenance.

Our technical support includes site visits, building design optimization, and 3D modeling. We also offer training for onsite assembly and installation to ensure that our customers can manage the process effectively.

In addition, we provide ongoing maintenance and support to ensure that our customers' warehouses remain in optimal condition. This includes regular inspections, repairs, and upgrades as required. Our goal is to provide a complete end-to-end solution that meets our customers' needs and exceeds their expectations.

Packing and Shipping:

Product Packaging:

All steel components are packaged in high-quality, durable materials to ensure they arrive in pristine condition.

Roof and wall panels are carefully stacked and secured to prevent damage during transit.

All screws, bolts, and other fasteners are packaged separately to prevent loss during shipping.

Shipping:

Shipping will be arranged by our team and will be based on the delivery address provided by the customer.

Customers will be provided with tracking information once the order has been shipped.

Delivery times may vary based on the customer's location, but we strive to ensure that all orders are delivered as quickly and efficiently as possible.
