- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 10000 Square Meter/Square Meters per Month

### Product Specification

- Product Name: Metal Building Material Prefab Warehouse  
For Sale Building Steel Structure Metal  
Warehouse Prefab Commercial Building  
Structure
- Weather Resistance: High
- Material: Steel
- Drawing Design: SAP2000/AutoCAD /PKPM /3D3S/TEKLA
- Type: Light Steel Structure
- Maintenance: Low
- Grade: Q235, Q355
- Roof & Wall Panel: Color Steel Veneer, Rockwool Sandwich  
Panel, PU Sandwich Panel Etc
- Highlight: **Professional Prefab Steel Warehouse,  
expandable Low Maintenance Steel Warehouse,**

## Product Description

# Metal Building Material Prefab Warehouse For Sale Building Steel Structure Metal Warehouse Prefab Commercial Building Structure

### Product Description:

The warehouse features a variety of roof and wall panels to choose from, including Color Steel Veneer, Rockwool Sandwich Panel, PU Sandwich Panel, and more. Each option is designed to provide optimal insulation and protection against the elements, ensuring the warehouse stays cool in the summer and warm in the winter. The Rockwool Sandwich Panel and PU Sandwich Panel options offer superior insulation properties, making them an excellent choice for temperature-controlled storage facilities.

The easy installation process of the Prefab Steel Warehouse means that it can be quickly assembled and put into use in a short amount of time. This is especially useful for businesses that need to quickly expand their storage space or set up a new warehouse location. The warehouse design is customizable, allowing businesses to create a space that meets their specific needs and requirements.

The durability of the Prefab Steel Warehouse is high, thanks to the use of high-quality Steel material and the gable frame Steel Structure design. The warehouse can withstand heavy loads and harsh weather conditions, making it a reliable option for long-term use. The steel warehouse workshop hangar hall steel structure design also ensures that the warehouse is fire-resistant, providing added safety and protection for stored goods.

In conclusion, the Prefab Steel Warehouse is an excellent option for businesses looking for a durable, easy-to-install, and customizable warehouse solution. The gable frame Steel Structure design, along with the variety of roof and wall panel options, make it a versatile option for a variety of applications. Its high durability makes it a reliable option for long-term use, and its quick installation process allows businesses to quickly expand their storage space or set up a new warehouse location.

### Features:

main steel frame	H section steel beam and columns, galvanized C section ,Q345, Q235, Q345B, Q235B etc.	Secondary frame	hot dip galvanized C purlin , steel bracing , tie bar , knee brace , edge cover etc.
Roof panel	EPS sandwich panel,glass fiber sandwich panel,rock wool sandwich panel,and PU sandwich panel or steel sheet	Wall panel	EPS, Mineral wool, PU sandwich, corrugated steel sheet
Tie Rod	Circular Steel Tube	Brace	Round Bar
Knee Brace	Angle Steel	Roof Gutter	Color Steel Sheet
Door:	Rolled up door or Sliding door	Window:	Plastic steel or Aluminum alloy window
Surface:	Hot dip galvanized or painted	Crane:	5MT, 10MT, 15MT and more

### Technical Parameters:

**If you are interested in our steel structure , please give us the following information:**

- 1 Location (where will be built? ) \_\_\_\_\_country, area
- 2 Size: Length\*width\*height \_\_\_\_\_mm\*\_\_\_\_\_mm\*\_\_\_\_\_mm
- 3 wind load (max. Wind speed) \_\_\_\_\_kn/m2, \_\_\_\_\_km/h, \_\_\_\_\_m/s
- 4 snow load (max. Snow height)\_\_\_\_\_kn/m2, \_\_\_\_\_mm
- 5 anti-earthquake \_\_\_\_\_level
- 6 brickwall needed or not If yes, 1.2m high or 1.5m high
- 7 thermal insulation If yes, EPS, fiberglass wool, rockwool, PU sandwich panels will be suggested; If not, the metal steel sheets will be ok. The cost of the latter will be much lower than that of the former.
- 8 door quantity & size \_\_\_\_\_units, \_\_\_\_\_(width)mm\*\_\_\_\_\_(height)mm
- 9 window quantity & size \_\_\_\_\_units, \_\_\_\_\_(width)mm\*\_\_\_\_\_(height)mm
- 10 crane needed or not If yes, \_\_\_\_\_units, max. Lifting weight\_\_\_\_\_tons; Max. Lifting height \_\_\_\_\_m.

### Applications:

- 1) Moisture and heat resistance, waterproof and fireproof.
- 2) It can be freely lifted, fixed and combined.
- 3) Convenient transportation, cheap price and cost saving.
- 4) It is easy to assemble and disassemble, and it will not be damaged many times.
- 5) The service life is more than 50 years.
- 6) We provide remote online installation, supervision and training services. For major projects, we will conduct on-site guidance, installation and post-maintenance.
- 7) Prefabricated houses, offices, warehouses, workshops, greenhouses, workshops, garages, cold storages, container houses, hotels, toilets, etc...

BAODU Steel Warehouse is a perfect solution for prefabricated warehouse construction. It is a building galvanized storage light steel building that is designed and manufactured in Hebei, China. The product is ISO9001 and CE certified, ensuring its quality and reliability. The minimum order quantity is discussible, and the price is reasonable for its superior features.

The Steel Warehouse is available with different types of doors such as sliding door, rolling door, shutter single door, and color steel. The purlin used in the construction of the Steel Warehouse is C.Z Shape Steel, which provides a long fatigue life to the product. The roof and

wall of the warehouse are available in different materials such as corrugated, EPS, PU, Rock Wool, and glass Wool, providing the customers with a variety of options to choose from.

The Steel Warehouse is a perfect solution for various application occasions and scenarios. It is suitable for use as a storage facility, manufacturing plant, workshop, and more. The product is designed to be easily assembled and disassembled, making it perfect for temporary usage requirements. The Steel Warehouse is also ideal for remote locations where traditional construction is not viable.

The Steel Warehouse is designed using SAP2000/AutoCAD /PKPM /3D3S/TEKLA, providing the customers with accurate and reliable drawings. The Steel Warehouse is supplied with steel frame packing to keep the goods from being broken during transportation. The sandwich panel and color steel sheet are packed using plastic packing. If the clients need special packing, the company will pack the product according to their requirements.

The Steel Warehouse has a supply ability of 10,000 square meters per month, making it a perfect solution for large projects. The delivery time for the product is 21 days, and the payment terms include L/C, D/A, D/P, T/T, Western Union, and MoneyGram.

### Customization:

1. Quality: imported equipment from Germany and Switzerland, professional workers who have been engaged in more than ten years, have their own research and development department, and fully meet the use standards of various countries.

2. Customized service: We arrange special person to connect according to customer needs, one-to-one service.

3. Technical support:

Activity room: We provide online guidance and installation services by dedicated personnel, as well as after-sales team service 24/7.

Workshop: We have nearly 50 professional engineers who can go abroad to provide technical support and guidance until all problems are solved for our customers.

4. International trade operation: We have been focusing on international trade in the construction industry for more than ten years, and have accumulated various experiences from different customers in different countries. So we can keep our operations up to date with our customers and new rules. Helps in customs clearance and saves cost and time for our customers.
