Product Specification

- Product Name: Cheap Customized Industrial Metal Steel Structure Building Materials Design Warehouse Hangar Prefabricated Workshops
- Keyword: Steel Structure Building Warehouse
- Type: Light Steel Structure
- Grade: Q235, Q355
- Purlin: C.Z Shape Steel
- Feature: Long Fatigue Life
- Durability: High
- Security: High
- Window: Aluminum Alloy Window, Plastic Steel
- Roof&wall Material: Steel Sheet Or Sandwich Panel
- Highlight: Plastic Steel Windows Workshop

Product Description

Cheap Customized Industrial Metal Steel Structure Building Materials Design Warehouse Hangar Prefabricated Workshops

Product Description:

The roof and walls of our Prefab Steel Warehouse are made with high-quality materials, including corrugated, EPS, PU, rock wool, and glass wool, ensuring maximum insulation and protection. You can choose the material that best suits your needs and budget, while also ensuring that your warehouse remains safe and secure.

Our Prefab Steel Warehouse also features a range of window options, including aluminum alloy and plastic steel, allowing for plenty of natural light and ventilation. You can choose the type of window that best suits your needs and preferences, ensuring that your warehouse remains comfortable and well-lit. For easy access, our Prefab Steel Warehouse features a range of door options, including sliding doors, rolling doors, shutter single doors, and color steel doors. You can choose the type of door that best suits your needs and preferences, ensuring that your warehouse remains secure and accessible.

In addition to its durability and convenience, our Prefab Steel Warehouse is also low-maintenance, requiring minimal upkeep and repair. This means that you can save time and money on maintenance costs, while also ensuring that your warehouse remains in top condition for years to come. Overall, if you're looking for a reliable and cost-effective solution for your warehouse needs, our Prefab Steel Warehouse is the perfect choice. With its high durability, range of materials and features, and low-maintenance design, it's the ideal option for any business or organization looking to optimize their space and operations.

Features:

Advantages of Steel Structures:

1. **Strength and Durability:** Steel has a high strength-to-weight ratio, making it capable of supporting heavy loads while being relatively lightweight. It also resists deformation and can withstand harsh environmental conditions.
2. **Versatility:** Steel can be molded into various shapes and sizes, allowing for innovative and flexible designs in architecture and construction.
3. **Speed of Construction:** Pre-fabricated steel components can be quickly assembled on-site, reducing construction time significantly compared to traditional materials.
4. **Cost-Effectiveness:** Although the initial material cost may be higher, steel structures often result in lower overall project costs due to faster construction times and lower maintenance requirements.
5. **Sustainability:** Steel is recyclable, making it an environmentally friendly option. Additionally, using steel can reduce waste during the construction process.
6. **Fire Resistance:** Steel structures can be treated with fire-resistant coatings, improving their performance in fire situations compared to other materials.

Technical Parameters:

If you are interested in our steel structure , please give us the following information:

- 1 Location (where will be built?) ____country, area
- 2 Size: Length*width*height ____mm*____mm*____mm
- 3 wind load (max. Wind speed) ____kn/m2, ____km/h, ____m/s
- 4 snow load (max. Snow height) ____kn/m2, ____mm
- 5 anti-earthquake ____level
- 6 brickwall needed or not If yes, 1.2m high or 1.5m high
- 7 thermal insulation If yes, EPS, fiberglass wool, rockwool, PU sandwich panels will be suggested; If not, the metal steel sheets will be ok. The cost of the latter will be much lower than that of the former.
- 8 door quantity & size ____units, ____ (width)mm*____ (height)mm
- 9 window quantity & size ____units, ____ (width)mm*____ (height)mm
- 10 crane needed or not If yes, ____units, max. Lifting weight ____tons; Max. Lifting height ____m.

Applications:

Steel structure warehouse

Steel structure factory building

Steel structure building

Steel structure garage/hangar

Steel structure house

Steel structure livestock house

BAODU Steel Warehouse is an ideal solution for prefab warehouse construction, workshop industrial steel, and gable frame steel structure. Our steel warehouse is made in Hebei, China, with high-quality steel and has ISO9001 and CE certification. The minimum order quantity is discussible, and the price is reasonable.

Our Steel Warehouse is perfect for a variety of application occasions and scenarios. It can be used as a storage facility for goods, vehicles, and large equipment.
