- Supply Ability: 10000 Square Meter/Square Meters per Month

### Product Specification

- Type: Light Steel Structure
- Installation: Easy
- Maintenance: Low
- Roof And Wall: Corrugated/EPS/PU/Rock Wool/glass Wool
- Drawing Design: SAP2000/AutoCAD /PKPM /3D3S/TEKLA
- Door: Sliding Door, Rolling Door, Shutter Single Door, Color Steel
- Keyword: Steel Structure Building Warehouse
- Grade: Q235, Q355
- Product Name: Gable Frame Light Metal Building Prefabricated Industrial Steel Structure Warehouse
- Tolerance:  $\pm 1\%$
- Highlight: Prefabricated Steel Warehouse Building

## Product Description

### Gable Frame Light Metal Building Prefabricated Industrial Steel Structure Warehouse

#### Product Description:

The Purlin of this Prefab Steel Warehouse is made of C.Z Shape Steel. This material is known for its durability, strength, and resistance to corrosion. It is designed to provide excellent support for the roof and walls of your building, ensuring that your structure is stable and secure.

The Window of this Prefab Steel Warehouse is made of Aluminum Alloy and Plastic Steel. These materials are lightweight, strong, and resistant to weathering. They are designed to provide natural light and ventilation to your building, helping to improve energy efficiency and comfort.

This Prefab Steel Warehouse is a Light Steel Structure, which means it is designed to be lightweight and easy to install. It is ideal for projects that require a quick turnaround time and minimal disruption to your business operations. The installation process is simple, and you can have your building up and running in no time.

The Prefab Steel Warehouse also comes with a range of Processing Services, including Bending, Welding, Decoiling, Cutting, and Punching. These services are designed to help you customize your building to your specific needs and requirements. You can choose from a range of sizes, shapes, and configurations to create a building that is tailored to your business.

In conclusion, if you are looking for a reliable and cost-efficient solution for your construction needs, the Prefab Steel Warehouse is an excellent choice. It is versatile, durable, and easy to install, making it ideal for Workshop Industrial Steel, gable frame Steel Structure, Steel warehouse workshop hangar hall steel structure, and other commercial and industrial applications. With its high-quality materials and customizable options, this product is sure to meet your expectations and exceed your standards.

#### Features:

Items		Specification
Main steel frame	Column	Q235, Q355 Welded H Section Steel
	Beam	Q235, Q355 Welded H Section Steel
Secondary Frame	Purlin	Q235 C and Z purlin
	Knee brace	Q235 Angle Steel
	Tie Rod	Q235 Circular Steel Pipe
	Brace	Q235 Round Bar
Maintenance system	Roof Panel	EPS Sandwich Panel/ Glass Fiber Sandwich Panel/ Rock Wool Sandwich Panel
	Wall Panel	Sandwich Panel/ Corrugated Steel Sheet
Accessories	Window	Aluminium Alloy Window/ PVC Window/ Sandwich Panel Window
	Door	Sliding Sandwich Panel Door/ Rolling Metal Door/ Personal Door
Structure Usage		Up to 50 years
Finishing Options		Vast array of colors and textures available

#### Technical Parameters:

If you are interested in our steel structure , please give us the following information:

1 Location (where will be built? ) \_\_\_\_\_country, area

2 Size: Length\*width\*height \_\_\_\_\_mm\*\_\_\_\_\_mm\*\_\_\_\_\_mm

3 wind load (max. Wind speed) \_\_\_\_\_kn/m2, \_\_\_\_\_km/h, \_\_\_\_\_m/s

4 snow load (max. Snow height)\_\_\_\_\_kn/m2, \_\_\_\_\_mm

5 anti-earthquake \_\_\_\_\_level

6 brickwall needed or not If yes, 1.2m high or 1.5m high

7 thermal insulation If yes, EPS, fiberglass wool, rockwool, PU sandwich panels will be suggested; If not, the metal steel sheets

will be ok. The cost of the latter will be much lower than that of the former.  
8 door quantity & size \_\_\_\_\_ units, \_\_\_\_\_(width)mm\*\_\_\_\_\_(height)mm  
9 window quantity & size \_\_\_\_\_ units, \_\_\_\_\_(width)mm\*\_\_\_\_\_(height)mm  
10 crane needed or not If yes, \_\_\_\_\_units, max. Lifting weight\_\_\_\_\_tons; Max. Lifting height \_\_\_\_m.

### Applications:

- 1) Moisture and heat resistance, waterproof and fireproof.
- 2) It can be freely lifted, fixed and combined.
- 3) Convenient transportation, cheap price and cost saving.
- 4) It is easy to assemble and disassemble, and it will not be damaged many times.
- 5) The service life is more than 50 years.
- 6) We provide remote online installation, supervision and training services. For major projects, we will conduct on-site guidance, installation and post-maintenance.
- 7) Prefabricated houses, offices, warehouses, workshops, greenhouses, workshops, garages, cold storages, container houses, hotels, toilets, etc...

One of the main uses for the Steel Warehouse is for industrial purposes. It is ideal for use as a Workshop Industrial Steel structure that can withstand harsh weather conditions. The Steel Warehouse is weather-resistant, ensuring that it can protect the contents from extreme weather conditions. Its high durability also makes it ideal for use in industrial settings where there are high levels of activity and movement.

The Steel Warehouse is also suitable for use as a storage facility for various goods. Its high-quality construction and ability to withstand harsh weather conditions make it ideal for storing goods that may be sensitive to temperature or humidity. The Steel Warehouse can be customized to suit specific storage needs, making it ideal for different applications.

The Steel Warehouse can also be used as a commercial space, such as a retail store or office space. Its customizable design allows for the creation of different layouts that can accommodate various commercial needs. The Steel Warehouse is also equipped with aluminum alloy or plastic steel windows, which provide ample natural light and ventilation.

BAODU's Steel Warehouse is available for purchase at a reasonable price, with minimum order quantities to be discussed. Packaging details may vary depending on the specifics of the order, but in general, steel frame packing is used for the Steel Warehouse to ensure that goods are not broken during transport. The delivery time for the Steel Warehouse is 21 days, with payment terms that include L/C, D/A, D/P, T/T, Western Union, and MoneyGram. The Steel Warehouse has a supply ability of 10,000 square meters per month, ensuring that it can meet the demands of different customers.

In conclusion, the Steel Warehouse by BAODU is a versatile and durable solution for various applications. Its high-quality construction, weather resistance, and customizable design make it perfect for different occasions and scenarios, including industrial, storage, and commercial use.

### Customization:
