- Delivery Time: 21 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 10000 Square Meter/Square Meters per Month

Product Specification

- Product Name: Steel Prefabricated Metal Warehouse Steel Structure Design Light Weight Structural Galvanized Beams H Beam Warehouse Metal Building
- Drawing Design: SAP2000/AutoCAD /PKPM /3D3S/TEKLA
- Weather Resistance: High
- Window: Aluminum Alloy Window, Plastic Steel
- Roof & Wall Panel: Color Steel Veneer, Rockwool Sandwich Panel, PU Sandwich Panel Etc
- Purlin: C.Z Shape Steel
- Surface Treatment: Hot Dip Galvanised Or Painted
- Application: Steel Storage, factory Or Logistic Warehouse
- Highlight: **Steel prefabricated metal warehouse, Weather Resistant prefabricated metal warehouse**

Product Description

Steel Prefabricated Metal Warehouse Steel Structure Design Light Weight Structural Galvanized Beams H Beam Warehouse Metal Building

Product Description:

The warehouse is constructed with high-quality steel materials that are both strong and cost-effective. The steel materials used are designed to provide ultimate protection against fire, wind, and other hazards, ensuring your stored items are safe and secure at all times. The Aluminum Alloy Window and Plastic Steel used in the construction of our warehouse are designed to provide natural light and ventilation, ensuring your stored items are not affected by humidity and temperature variations. This feature provides a comfortable and well-lit environment for staff working within the warehouse.

Our warehouse is also equipped with C.Z Shape Steel Purlin, which provides additional support and increased structural strength. The purlin is designed to provide maximum stability and support, ensuring the building can withstand even the harshest of weather conditions. The warehouse is designed for multiple applications, including steel storage, factory or logistic warehouse, and other commercial and industrial purposes. The flexibility in application makes it a perfect fit for any business looking to expand its storage capacity while minimizing costs.

The roof and wall of the warehouse are made from high-quality materials such as Corrugated, EPS, PU, Rock Wool, and Glass Wool, providing maximum insulation and protection against heat and cold. The materials used in construction are designed to reduce energy costs and provide a comfortable working environment for staff.

The Building Galvanized Storage Light Steel Building is an all-in-one solution, providing an affordable and efficient way of storing and protecting your goods. The building comes with easy-to-follow instructions, making it easy to assemble within a short time, saving you both time and money.

With our prefab steel warehouse, you can be confident that your goods are safe, secure, and well-protected. Contact us today to learn more about our warehouse and how it can help your business.

Features:

Specifications:

main steel frame	H section steel beam and columns, painted or galvanized, galvanized C section or steel pipe
Secondary frame	hot dip galvanized C purlin , steel bracing , tie bar , knee brace , edge cover etc.
Roof panel	EPS sandwich panel,glass fiber sandwich panel,rock wool sandwich panel,and PU sandwich panel or steel sheet
Wall panel	Sandwich Panel or Corrugated Steel Sheet
Tie Rod	Circular Steel Tube
Brace	Round Bar
Knee Brace	Angle Steel
Roof Gutter	Color Steel Sheet

Drawings & Quotation:

(1) Customized design is welcomed.

(2) In order to give you an exactly quotation and drawings, please let us know the length, width, eave height and local weather. We will quote for you promptly.

Technical Parameters:

If you are interested in our steel structure , please give us the following information:

- 1 Location (where will be built?) _____country, area
- 2 Size: Length*width*height _____mm*_____mm*_____mm
- 3 wind load (max. Wind speed) _____kn/m2, _____km/h, _____m/s
- 4 snow load (max. Snow height)_____kn/m2, _____mm
- 5 anti-earthquake _____level
- 6 brickwall needed or not If yes, 1.2m high or 1.5m high
- 7 thermal insulation If yes, EPS, fiberglass wool, rockwool, PU sandwich panels will be suggested; If not, the metal steel sheets will be ok. The cost of the latter will be much lower than that of the former.
- 8 door quantity & size _____units, _____(width)mm*_____(height)mm
- 9 window quantity & size _____units, _____(width)mm*_____(height)mm
- 10 crane needed or not If yes, _____units, max. Lifting weight_____tons; Max. Lifting height _____m.

Applications:

The Steel Warehouse is suitable for various product application occasions and scenarios. It can be used as a building galvanized storage light steel building, steel warehouse workshop, hangar hall steel structure, and many more. It is ideal for storing goods and equipment, as well as for housing industrial and commercial activities.

The Steel Warehouse is reasonably priced, and the packaging is carefully designed to prevent damage during transportation.
