

## Quality Control New Design Factory Private Steel Warehouse C-Type Steel Structure Prefabricated

Our Product Introduction

for more products please visit us on [baodupanel.com](http://baodupanel.com)

### Basic Information

- Place of Origin: Hebei, China
- Brand Name: BAODU
- Certification: ISO9001, CE
- Model Number: Steel Warehouse
- Minimum Order Quantity: Discussible
- Price: Reasonable
- Packaging Details: In general, for steel structure, we use the steel frame packing to keep goods not to be broken. For sandwich panel and color steel sheet, we use the plastic packing. If the clients need special packing will according to their requirements.
- Delivery Time: 21 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 10000 Square Meter/Square Meters per Month

### Product Specification

- Product Name: Quality Control New Design Factory Private Steel Warehouse C-Type Steel Structure Prefabricated
- Roof & Wall Panel: Color Steel Veneer, Rockwool Sandwich Panel, PU Sandwich Panel Etc
- Type: Light Steel Structure
- Roof And Wall: Corrugated/EPS/PU/Rock Wool/glass Wool
- Purlin: C.Z Shape Steel
- Durability: High
- Keyword: Steel Structure Building Warehouse
- Door: Sliding Door, Rolling Door, Shutter Single Door, Color Steel
- Installation: Easy
- Delivery Time: 25 days

## Product Description

### Quality Control New Design Factory Private Steel Warehouse C-Type Steel Structure Prefabricated

#### Product Description:

The building has a gable frame steel structure, which ensures its stability and strength. The walls and roof panels are made of color steel veneer, rockwool sandwich panel, PU sandwich panel, etc., which provide excellent insulation and protection from the elements. The light steel structure is easy to assemble and disassemble, which makes it ideal for temporary or permanent use.

The Prefab Steel Warehouse is perfect for a variety of applications, including industrial steel storage, workshop, and commercial storage. Its versatility and durability make it an excellent choice for businesses that require ample storage space. The building is designed to withstand harsh weather conditions, which makes it ideal for outdoor storage.

The steel structure building warehouse is an excellent investment for businesses that require a reliable and sturdy storage solution. Its low maintenance requirements and long-term durability make it a cost-effective solution for businesses of all sizes. The building is easy to customize, which makes it ideal for businesses that require specific storage requirements.

#### Features:

Advantages of Steel Structures:

1. **Strength and Durability:** Steel has a high strength-to-weight ratio, making it capable of supporting heavy loads while being relatively lightweight. It also resists deformation and can withstand harsh environmental conditions.
2. **Versatility:** Steel can be molded into various shapes and sizes, allowing for innovative and flexible designs in architecture and construction.
3. **Speed of Construction:** Pre-fabricated steel components can be quickly assembled on-site, reducing construction time significantly compared to traditional materials.
4. **Cost-Effectiveness:** Although the initial material cost may be higher, steel structures often result in lower overall project costs due to faster construction times and lower maintenance requirements.
5. **Sustainability:** Steel is recyclable, making it an environmentally friendly option. Additionally, using steel can reduce waste during the construction process.
6. **Fire Resistance:** Steel structures can be treated with fire-resistant coatings, improving their performance in fire situations compared to other materials.

#### Technical Parameters:

Quotation information:

If you are interested in our products, please let us know your requirements for the steel structure project.

- 1: Location: Which country and region is the building located in.
- 2: Dimensions: Length \* Width \* Height
- 3: Wind load: maximum wind speed (kn/m2, km/h, m/s)
- 4: Snow load (if applicable): maximum snow height (kn/m2, mm)
- 5: Single layer steel plate mast or sandwich panel mast Do you need insulation materials? If so, it is recommended to use EPS, fiberglass wool, rock wool, and PU sandwich panels. If not, metal steel plates will be very affordable.
- 6: Seismic grade?
- 7: Do we need brick walls or not? If so, 1.2 meters high or 1.5 meters high
- 8: The Q value (unit) and size (width \* height) of doors and windows.
- 9: Do you need a crane or not? If so, it is the quantity (unit), maximum lifting weight (ton), and maximum lifting height (meter).
- 10: Are there any other special requirements?

#### Applications:

- 1) Moisture and heat resistance, waterproof and fireproof.
- 2) It can be freely lifted, fixed and combined.
- 3) Convenient transportation, cheap price and cost saving.
- 4) It is easy to assemble and disassemble, and it will not be damaged many times.
- 5) The service life is more than 50 years.
- 6) We provide remote online installation, supervision and training services. For major projects, we will conduct on-site guidance, installation and post-maintenance.
- 7) Prefabricated houses, offices, warehouses, workshops, greenhouses, workshops, garages, cold storages, container houses, hotels, toilets, etc...

BAODU Steel Warehouse is a high-quality steel structure that can be used for a variety of applications. With its ISO9001 and CE certifications, you can be sure that this product is reliable and built to last. Whether you're looking for a building for storage, a factory, or a logistics warehouse, the Steel Warehouse is an ideal choice.

One of the most significant benefits of the Steel Warehouse is its versatility. The gable frame steel structure allows for easy customization, making it suitable for a wide range of applications. Additionally, the steel structure is galvanized, ensuring that it is durable and long-lasting, even in harsh weather conditions.

The Steel Warehouse is an excellent option for those who need a building for galvanized storage. It is designed to withstand heavy loads and keep your goods safe and secure. The low maintenance requirements also make it an ideal choice for busy warehouses and storage facilities. Another application for the Steel Warehouse is as a light steel building. Its lightweight design makes it easy to transport and install, while still providing a sturdy and reliable structure. If you're looking for a building that is easy to maintain and built to last, the Steel Warehouse is an excellent option. Its hot-dip galvanized or painted surface treatment ensures that it will look great for years to come,

while its low maintenance requirements make it an ideal choice for busy facilities.

When it comes to packaging and delivery, BAODU has you covered. The Steel Warehouse is packed using steel frame packing to ensure that it arrives in excellent condition. Delivery time is typically 21 days, and payment terms are flexible, including L/C, D/A, D/P, T/T, Western Union, and MoneyGram. With a supply ability of 10,000 square meters per month, you can be sure that you'll get what you need when you need it.

Finally, when it comes to processing services, the Steel Warehouse offers a range of options, including bending, welding, decoiling, cutting, and punching. This makes it easy to customize the building to your specific needs and ensures that you get a product that meets your requirements. Overall, if you're looking for a reliable, high-quality building for your storage, factory, or logistics warehouse needs, the BAODU Steel Warehouse is an excellent choice. With its reasonable price, high level of security, and versatile applications, it is a product that is hard to beat.

### Customization:

### Competitive Price

With over 12 years of experience in steel structure industry, BAODU can provide the most reasonable and economical scheme to prevent over designs. Long term partnerships with raw material product suppliers give us the ability to control quality and price effectively. Large-scale production reduces our procurement, production and management costs, which can bring customers more economic benefits. We produce both steel structure (frame) and wall and roof panels, reducing external sourcing, ensuring consistency in product quality and further saving on costs.

### Vast Experience in the foreign projects

In the past 13 years, BAODU's products are exported to more than 50 countries and regions, we have vast experience in

design, transportation and overseas installation. Do not worry that you are far away from us, whether Asia, Oceania, America or Africa, we can provide installation workers or installation instructions according to customer needs for the project. For us, the end of a project is not you pay us to get the products, but you successfully complete the installation of our products.

### Good Quality

Quality first, which is the key to our success in these years. We develop new technologies to improve the performance of our products, even if using the same raw materials, our products will be in more high quality.

### Reputation

Our company have a good reputation and credibility in the industry. The customers that we have cooperated evaluate our company as follow, "This is a professional company, which has good service attitude, which really solves problem for customers, which can be trusted by the customers. It's a great thing to cooperate with such a company. You don't need to worry about the quality of the products, don't need to worry about the transport and installation. They will give you the

most reasonable and economical design, transportation and installation plan"

### Support and Services:

Our Prefab Steel Warehouse product comes with comprehensive technical support and services to ensure that your building meets all of your requirements. Our team of experts are available to assist you with any questions or issues that arise during the construction process, and we offer on-site assistance to help ensure that your building is installed properly. In addition, we offer maintenance and repair services to keep your building in top condition for years to come. Contact us today to learn more about our technical support and services for the Prefab Steel Warehouse product.

### Packing and Shipping:

Product Packaging:

The Prefab Steel Warehouse product will be packaged in metal crates for safe transportation. The crates will be labeled with the product name and specifications for easy identification.

Shipping:

Shipping options will be provided to the customer upon purchase. The customer can choose from standard or expedited shipping. The shipping cost will depend on the destination and weight of the product.

### FAQ:

**Q1: What is the brand name of this product?**

**A1:** The brand name of this product is BAODU.

**Q2: Where is the Steel Warehouse made?**

A2: The Steel Warehouse is made in Hebei, China.

**Q3: What certifications does this product have?**

A3: This product has ISO9001 and CE certifications.

**Q4: What is the minimum order quantity for this product?**

A4: The minimum order quantity is discussible.

**Q5: What are the payment terms for purchasing this product?**

A5: The payment terms include L/C, D/A, D/P, T/T, Western Union, and MoneyGram.
