

Metal Prefab Prefabricated Steel Warehouse Structure Sheds Prefabricated Wide Span Steel Warehouse Building

Our Product Introduction

for more products please visit us on baodupanel.com

Basic Information

- Place of Origin: Hebei, China
- Brand Name: BAODU
- Certification: ISO9001, CE
- Model Number: Steel Warehouse
- Minimum Order Quantity: Discussible
- Price: Reasonable
- Packaging Details: In general, for steel structure, we use the steel frame packing to keep goods not to be broken. For sandwich panel and color steel sheet, we use the plastic packing. If the clients need special packing will according to their requirements.
- Delivery Time: 21 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 10000 Square Meter/Square Meters per Month

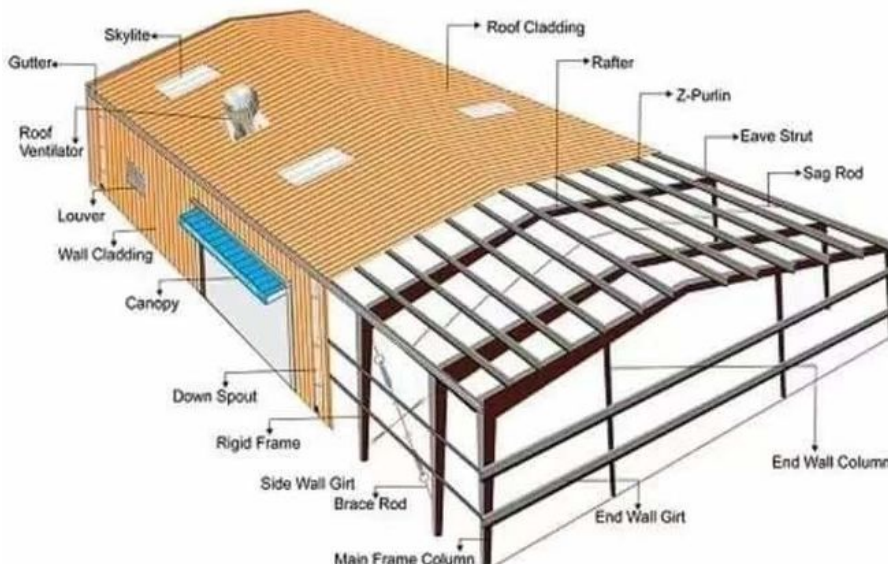

Product Specification

- Product Name: Metal Prefab Prefabricated Steel Warehouse Structure Sheds Prefabricated Wide Span Steel Warehouse Building
- Feature: Long Fatigue Life
- Application: Steel Storage, factory Or Logistic Warehouse
- Grade: Q235, Q355
- Material: Steel
- Maintenance: Low
- Tolerance: $\pm 1\%$
- Roof And Wall: Corrugated/EPS/PU/Rock Wool/glass Wool
- Purlin: C.Z Shape Steel
- Keyword: Steel Warehouse
- Highlight: **Industrial Steel C.Z Shape Purlin,**
Steel Structure Building C.Z Shape Purlin

Product Description

Metal Prefab Prefabricated Steel Warehouse Structure Sheds Prefabricated Wide Span Steel Warehouse Building

Product Description:

The drawing design of the Prefab Steel Warehouse is created using SAP2000, AutoCAD, PKPM, 3D3S, and TEKLA software. This ensures that the structure is sturdy, durable, and able to withstand heavy loads. The use of galvanized steel in the construction of the warehouse makes it resistant to corrosion and rust, ensuring that it will last for many years to come.

Installation of the Prefab Steel Warehouse is easy, making it a great option for those who need a quick and efficient solution to their storage needs. The steel structure is pre-fabricated, which means that all components are manufactured in a factory and then transported to the site for installation. This helps to reduce the amount of time and labor required for construction, making it a cost-effective option.

The Prefab Steel Warehouse is suitable for a wide range of applications, including steel storage, factory, or logistic warehouse. Its versatility makes it an ideal solution for businesses that need a flexible and adaptable storage space. The steel warehouse workshop, industrial steel building, and hangar hall steel structure are just a few examples of the types of buildings that can be constructed using this product.

In summary, the Prefab Steel Warehouse is a durable, fire-resistant, and easy-to-install storage solution that is perfect for a wide range of applications. Its use of galvanized steel ensures that it will last for many years, while its versatility makes it suitable for a variety of different building types. Whether you need a steel warehouse workshop, industrial steel building, or galvanized storage light steel building, the Prefab Steel Warehouse is the perfect choice.

Features:

| | | |
|---------------------|---|---|
| Name | Steel Structure Building | |
| Main Material | Q235 - Q420 Welded H Beam And Hot Rolled Section Steel | |
| Surface | Painting Or Galvanizing | |
| Roof And Wall Panel | EPS Sandwich Board, Single Corrugated Steel Plate, Glass Cotton Colored Board for Customers' Choice | |
| Window | PVC Or Aluminum Alloy | |
| Door | Sliding Door Or Rolling Shutter Door | |
| Service | Design | We have experienced designers to design. |
| | Manufacture | We can manufacture all kinds of steel structure products according to customers' needs. |

| | | |
|--------------------|--|--|
| | Installation | We provide detailed drawings to ensure installation. It also provides installation, supervision and training services. We can also send a team of engineers to guide or install on site. |
| Packing | 1. Steel structure components will be in nude packaging with proper protection. .Sandwich panels will be covered with plastic film. 3. Bolts and other accessories will be loaded into wooden boxes. 4. Container Drying Treatment. 5. According to customer's requirement | |
| Quality Inspection | Factory Self-inspectionCustomer Inspection Third Party Inspection | |

Technical Parameters:

If you are interested in our steel structure , please give us the following information:

- 1 Location (where will be built?) _____country, area
- 2 Size: Length*width*height _____mm*_____mm*_____mm
- 3 wind load (max. Wind speed) _____kn/m2, _____km/h, _____m/s
- 4 snow load (max. Snow height)_____kn/m2, _____mm
- 5 anti-earthquake _____level
- 6 brickwall needed or not If yes, 1.2m high or 1.5m high
- 7 thermal insulation If yes, EPS, fiberglass wool, rockwool, PU sandwich panels will be suggested; If not, the metal steel sheets will be ok. The cost of the latter will be much lower than that of the former.
- 8 door quantity & size _____units, _____(width)mm*_____(height)mm
- 9 window quantity & size _____units, _____(width)mm*_____(height)mm
- 10 crane needed or not If yes, _____units, max. Lifting weight_____tons; Max. Lifting height ____m.

Applications:

BAODU Steel Warehouse is a versatile and reliable building option for a variety of industrial and commercial applications. With its high-quality construction and durable materials, it is ideal for use as a steel storage facility, a factory or logistic warehouse, or any other type of industrial building.

The Steel Warehouse is manufactured in Hebei, China, and comes with ISO9001 and CE certifications, ensuring that it meets the highest standards of quality and safety. The minimum order quantity is negotiable, and the price is reasonable, making it a cost-effective solution for businesses of all sizes.

The Steel Warehouse is packaged carefully to ensure that it arrives at its destination in excellent condition. Steel structures are packed using steel frames to prevent damage, while sandwich panels and color steel sheets are packed in plastic. Special packaging is available upon request.

The Steel Warehouse is delivered within 21 days of ordering, and payment can be made using a variety of methods, including L/C, D/A, D/P, T/T, Western Union, and MoneyGram. The supply ability is 10,000 square meters per month, and the tolerance level is $\pm 1\%$.

The Steel Warehouse is made from high-quality Q235 and Q355 grade steel and is a light steel structure. It can be customized to meet a variety of needs, with processing services such as bending, welding, decoiling, cutting, and punching available.

Some of the many applications and scenarios where the Steel Warehouse is a perfect fit include:

Workshop industrial steel

Steel warehouse workshop hangar hall steel structure

Workshop industrial steel

No matter what your needs, the BAODU Steel Warehouse is a reliable and cost-effective solution for your industrial building needs.

Customization:

BAODU offers Product Customization Services for their Steel Warehouse product which is a durable and secure building galvanized storage light steel building with a long fatigue life. This steel warehouse workshop hangar hall steel structure is made of high-quality steel material with a tolerance of $\pm 1\%$. It is certified with ISO9001 and CE and has a reasonable price with negotiable minimum order quantity. The packaging details vary depending on the material used, but in general, the steel frame packing is used to keep goods from being broken and for sandwich panel and color steel sheet, plastic packing is used. If clients need special packing, BAODU can customize according to their requirements. The delivery time is 21 days, and payment terms include L/C, D/A, D/P, T/T, Western Union, and MoneyGram. With a supply ability of 10000 square meter/square meters per month, BAODU's Steel Warehouse is a perfect choice for those who need a sturdy and reliable building for storage or other purposes.

Support and Services:
