

Steel Building Warehouse For Industrial Shed Metallic Prebuilt Steel Warehouse Building Supplies

Our Product Introduction

for more products please visit us on baodupanel.com

Basic Information

- Place of Origin: Hebei, China
- Brand Name: BAODU
- Certification: ISO9001, CE
- Model Number: Steel Warehouse
- Minimum Order Quantity: Discussible
- Price: Reasonable
- Packaging Details: In general, for steel structure, we use the steel frame packing to keep goods not to be broken. For sandwich panel and color steel sheet, we use the plastic packing. If the clients need special packing will according to their requirements.
- Delivery Time: 21 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 10000 Square Meter/Square Meters per Month

Product Specification

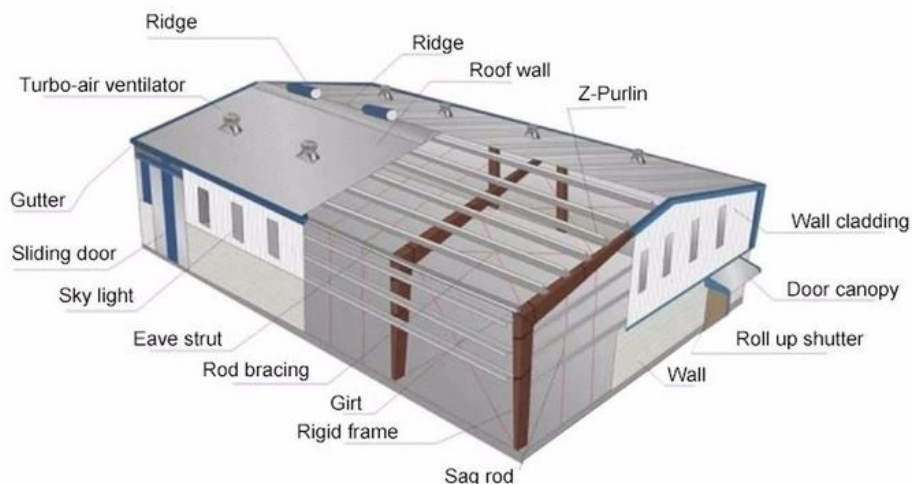

- Product Name: Steel Building Warehouse For Industrial Shed Metallic Prebuilt Steel Warehouse Building Supplies
- Material: Steel
- Surface Treatment: Hot Dip Galvanised Or Painted
- Application: Steel Storage, factory Or Logistic Warehouse
- Window: Aluminum Alloy Window, Plastic Steel
- Processing Service: Bending, Welding, Decoiling, Cutting, Punching
- Feature: Long Fatigue Life
- Durability: High
- Tolerance: $\pm 1\%$
- Keyword: Steel Warehouse
- Highlight: High Weather Resistance Prefab Steel

Product Description

Steel Building Warehouse For Industrial Shed Metallic Prebuilt Steel Warehouse Building Supplies

Product Description:

Steel structure

Steel structure material

One of the key features of this product is its long fatigue life. The steel used in the construction of this warehouse is of the highest quality and is designed to withstand even the toughest of conditions. This means that you can be sure that your warehouse will last for many years to come, even with heavy use.

In addition to its durability, the Prefab Steel Warehouse also offers a range of processing services. This includes bending, welding, decoiling, cutting, and punching, making it a versatile option for businesses with specific storage needs. The ability to customize the warehouse to fit your unique requirements means that you can maximize the available space and ensure that everything is stored in an organized and efficient manner.

Installation of the Prefab Steel Warehouse is also a breeze. The design is such that it can be easily assembled, and the installation process is quick and straightforward. This means that you can have your new warehouse up and running in no time at all, without the need for lengthy and complicated construction work.

Another great feature of this product is the range of surface treatment options available. You can choose to have your warehouse hot dip galvanized or painted, depending on your preferences. Not only does this give you greater control over the aesthetic of the building, but it also adds an extra layer of protection against the elements.

In summary, the Prefab Steel Warehouse is an excellent choice for any business in need of a high-quality storage solution. Its durability, processing services, easy installation, and surface treatment options make it a versatile and practical option for a range of industries and applications.

Features:

Product Name: Prefab Steel Warehouse

Roof and Wall: Corrugated/EPS/PU/Rock Wool/glass Wool

Window: Aluminum Alloy Window, Plastic Steel

Type: Light Steel Structure

Weather Resistance: High

Door: Sliding Door, Rolling Door, Shutter Single Door, Color Steel

This Prefab Steel Warehouse product is a **gable frame Steel Structure** that can be used as a warehouse, workshop, hangar, or hall. It

features a **Light Steel Structure** and has a **high** resistance to weather. The Roof and Wall can be made of Corrugated, EPS, PU, Rock Wool, or glass Wool. It has a variety of doors such as Sliding Door, Rolling Door, Shutter Single Door, and Color Steel, as well as windows made of Aluminum Alloy or Plastic Steel.

Technical Parameters:

If you are interested in our steel structure , please give us the following information:

- 1 Location (where will be built?) ____country, area
- 2 Size: Length*width*height ____mm*____mm*____mm
- 3 wind load (max. Wind speed) ____kn/m2, ____km/h, ____m/s
- 4 snow load (max. Snow height)____kn/m2, ____mm
- 5 anti-earthquake ____level
- 6 brickwall needed or not If yes, 1.2m high or 1.5m high
- 7 thermal insulation If yes, EPS, fiberglass wool, rockwool, PU sandwich panels will be suggested; If not, the metal steel sheets will be ok. The cost of the latter will be much lower than that of the former.
- 8 door quantity & size ____units, ____ (width)mm* ____ (height)mm
- 9 window quantity & size ____units, ____ (width)mm* ____ (height)mm
- 10 crane needed or not If yes, ____units, max. Lifting weight____tons; Max. Lifting height ____m.

Applications:

Steel structure buildings serve a wide range of purposes, including warehouses, workshops, factories, cold storage facilities, high-rise buildings, shopping malls, power plants, distribution centers, pedestrian bridges, steel-structured hotels, prefabricated public schools, sports arenas and halls, car parking centers, airplane hangars and aviation facilities, church buildings and community centers, poultry farms, agricultural buildings and barns, storage sheds, self-storage buildings, greenhouses, garages, commercial buildings, industrial facilities, and much more.

BAODU Steel Warehouse is a versatile product that can be used for many different purposes. It is ideal for building galvanized storage light steel buildings, gable frame steel structures, and more. As a result, it is suitable for use in various occasions and scenarios such as:

Industrial parks

Commercial buildings

Residential buildings

Warehouses and storage facilities

Workshops and factories

With a processing service that includes bending, welding, decoiling, cutting, and punching, this product can be customized to meet the specific needs of different customers. The steel used in this product is of high grade Q235 and Q355, which ensures that it is durable and long-lasting. Additionally, it has a tolerance of $\pm 1\%$, which makes it a reliable product.

Customization:
