We also offer regular maintenance services to keep the warehouse in top condition. In addition, we provide training programs to educate our customers on how to operate and maintain the warehouse efficiently. Our goal is to provide exceptional support and services to ensure our customers' satisfaction and success.

Packing and Shipping:

Shipment

Normal the goods will be shipped by use 40' open top container and 40' HQ container. If use 40'HQ, it need to do a steel pallet to pack the goods, then the whole pallet cargo will be pushed into container together, when you unload the goods, you wold pull the whole pallet out of the container. In this case, the ocean freight will be cheaper, but will increase the cost of pallet. Regarding the open top containers, all the goods will be loaded one by one. In this case, the sea freight of 40'OT is higher than 40'HQ, but The steel pallet for 40'HQ need to be charged. You can tell me your prefer.

Cautions

- (1) The lifting large there must be a person responsible for the use of fixture, suitable, strictly abide by the rules of lifting, to prevent the occurrence of vibration, impact, deformation or damage, fall in the hoisting process.
- (2) At the time of loading, there must be a special supervision, check car number and packing, the car pile up securely, and to increase the necessary binding component loosening, prevent the loss.
