Product Specification

- Product Name: Good Quality Prefabricated Steel Structure Building Wide Span Warehouse Workshop Factory
- Roof & Wall Panel: Color Steel Veneer, Rockwool Sandwich Panel, PU Sandwich Panel Etc
- Window: Aluminum Alloy Window, Plastic Steel
- Keyword: Steel Structure Building Warehouse
- Purlin: C/Z Galvanized Steel(Q235)
- Maintenance: Low
- Durability: High
- Installation: Easy
- Application: Warehouse, factory, prefab House, poultry House
- Design Style: Industrial

Product Description

Good Quality Prefabricated Steel Structure Building Wide Span Warehouse Workshop Factory

Product Description:

Our steel warehouse is the perfect solution for anyone who needs a low maintenance structure that can be used for steel storage, factory, or logistic warehouse. With its durable and sturdy design, this building can withstand even the toughest conditions and is built to last for years to come.

One of the key features of our Prefab Steel Warehouse is the roof and wall, which are made from corrugated/EPS/PU/rock wool/glass wool. This ensures that the building is well insulated and provides excellent protection against the elements, including rain, wind, and snow.

Another important aspect of this product is the purlin, which is made from C/Z galvanized steel (Q235). This material is known for its strength and durability and is an essential component of the building's overall structure.

Our Prefab Steel Warehouse is also available in two different grades: Q235 and Q355. This allows you to choose the right grade for your specific needs and ensures that you get the best possible performance from your building.

Whether you need a steel warehouse for storage or as a factory or logistic warehouse, our Prefab Steel Warehouse is the perfect solution. With its high-quality materials, low maintenance requirements, and sturdy design, this building is sure to meet all of your needs and exceed your expectations.
