Product Specification

- Roof And Wall: Corrugated/EPS/PU/Rock Wool/glass Wool
- Door: Sliding Door, Rolling Door, Shutter Single Door, Color Steel
- Type: Light Steel Structure
- Drawing Design: SAP2000/AutoCAD /PKPM /3D3S/TEKLA
- Weather Resistance: High
- Processing Service: Bending, Welding, Decoiling, Cutting, Punching
- Installation: Easy
- Purlin: C/Z Galvanized Steel(Q235)
- Highlight: **Industrial Prefabricated Warehouse Building, High Durability Prefabricated Warehouse Building**
Industrial Applications Prefabricated

Product Description:

The surface treatment of our Prefab Steel Warehouse is either Hot Dip Galvanized or painted, providing an added layer of protection against harsh weather conditions and corrosion. The galvanized finish also gives the building a sleek and modern aesthetic that will complement any surroundings.

Our Prefab Steel Warehouse is proudly manufactured by BAODU, a trusted brand in the industry known for their commitment to quality and customer satisfaction. With BAODU, you can be confident that your building will meet or exceed all necessary safety and quality standards.

The building features aluminum alloy windows and plastic steel, providing ample natural light and ventilation to keep your stored items in optimal condition. The windows also add an aesthetic touch to the building, enhancing its overall appearance.

Best of all, our Prefab Steel Warehouse is designed for fast and easy construction. With a delivery time of just 15-21 days, you can have your building up and running in no time. Whether you need a Steel warehouse workshop hangar hall steel structure for your business or a Building Galvanized Storage Light Steel Building for personal use, our Prefab Warehouse Construction is the perfect solution.

Features:

Product Name: Prefab Steel Warehouse

Drawing Design: SAP2000/AutoCAD/PKPM/3D3S/TEKLA

Durability: High

Roof and Wall: Corrugated/EPS/PU/Rock Wool/glass Wool

Installation: Easy

Fire Resistance: High

This Prefab Steel Warehouse is an ideal solution for building galvanized storage light steel buildings. It is perfect for prefab warehouse construction and can be used as a steel warehouse workshop, hangar hall or steel structure.

Technical Parameters:

Purlin	C/Z Galvanized Steel(Q235)
Window	Aluminum Alloy Window, Plastic Steel
Product Name	Warehouse Steel Structure Building Workshop
Application	Steel Storage, factory or Logistic Warehouse
Maintenance	Low
Installation	Easy
Door	Sliding Door, Rolling Door, Shutter Single Door, Color Steel
Security	High

Applications:

The Steel Warehouse is a versatile product that can be used in a variety of application occasions and scenarios. It is perfect for use as a warehouse, workshop, industrial steel hangar hall, and other storage facilities. The Steel Warehouse is designed to be easy to erect and dismantle, making it ideal for temporary structures. It is also suitable for permanent constructions and can withstand heavy loads and harsh weather conditions.

With its ISO9001 and CE certification, customers can be assured of the quality and durability of this product. The Steel Warehouse is available for purchase in any quantity, and the minimum order quantity is discussible. The price of the Steel Warehouse is reasonable, making it an affordable solution for storage facilities.

The packaging details of the Steel Warehouse are designed to ensure that the goods are not damaged during transportation. Steel frames are used to pack the steel structure, while plastic packing is used for sandwich panels and color steel sheets. Special packaging can be done according to the client's requirements.

The Steel Warehouse has a fast delivery time of 21 days, and customers can choose from various payment terms, including L/C, D/A, D/P, T/T, Western Union, and MoneyGram. The supply ability of the Steel Warehouse is 10000 square meters per month, ensuring that customers can get their orders on time.

Overall, the BAODU Steel Warehouse is a reliable and durable solution for various storage needs. Its weather and fire resistance make it suitable for use in different weather conditions, while its high-quality construction materials make it ideal for heavy loads and long-term use. With its versatile application scenarios, customers can use it as a warehouse, workshop, or industrial steel hangar hall, among other uses. The Steel Warehouse is a must-have for anyone who needs a reliable and durable storage solution.

Customization:

BAODU offers product customization services for the Steel Warehouse model. Our steel structure buildings are made in Hebei, China and meet ISO9001 and CE certification standards. The minimum order quantity is discussible and our prices are reasonable.

In terms of packaging, we use steel frame packing for steel structure and plastic packing for sandwich panel and color steel sheet. If clients require special packaging, we will accommodate their needs. The delivery time is typically 21 days and we accept various payment terms including L/C, D/A, D/P, T/T, Western Union, and MoneyGram. Our supply ability is 10,000 square meters per month.

The Warehouse Steel Structure Building Workshop comes with a choice of sliding door, rolling door, shutter single door, or color steel. It has high weather resistance and is suitable for use as a steel warehouse workshop, hangar hall steel structure, or prefab warehouse construction.

Support and Services:

Our Prefab Steel Warehouse is designed to provide long-lasting and durable storage solutions for various industries. To ensure high-quality and reliable performance, we offer a range of technical support and services to our customers. Some of our technical support services include on-site installation and training, maintenance and repair, and consultation on customization options. Our team of experts is available to answer any questions or concerns you may have about your prefab steel warehouse. In addition to technical support, we also offer a variety of services to help you get the most out of your prefab steel warehouse. These services include project management, engineering and design, and logistics and transportation. We work closely with our customers to ensure that their warehouse meets their specific needs and requirements. At our company, we are committed to providing exceptional customer service and support. If you have any questions or require assistance with your prefab steel warehouse, please do not hesitate to contact us.

Packing and Shipping:

Product Packaging:

All steel components are securely packaged in wooden crates or bundles with protective materials to prevent damage during transportation and handling.

The roofing and wall panels are packaged separately to prevent scratching and denting.

All hardware and accessories are organized and packaged in sealed bags for easy identification.

Shipping:

Shipping is available worldwide.

The product will be shipped via container vessels or flatbed trucks depending on the delivery location.

Customers will be provided with a tracking number and expected delivery date once the product has been shipped.

Shipping fees may vary depending on the delivery location and the size of the order.
