

Galvanized Light Steel Building Tolerance High Durability For Storage Needs

Our Product Introduction

for more products please visit us on baodupanel.com

Basic Information

- Place of Origin: Hebei, China
- Brand Name: BAODU
- Certification: ISO9001, CE
- Model Number: Steel Warehouse
- Minimum Order Quantity: Discussible
- Price: Reasonable
- Packaging Details: In general, for steel structure, we use the steel frame packing to keep goods not to be broken. For sandwich panel and color steel sheet, we use the plastic packing. If the clients need special packing will according to their requirements.
- Delivery Time: 15-21 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 10000 Square Meter/Square Meters per Month

Product Specification

- Grade: Q235, Q355
- Tolerance: $\pm 1\%$
- Type: Light Steel Structure
- Durability: High
- Feature: Long Fatigue Life
- Maintenance: Low
- Product Name: Building Galvanized Storage Light Steel Building Tolerance And High Durability For Storage Needs
- Keyword: Prefab Warehouse
- Highlight: **Storage Needs Galvanized Light Steel Building, Tolerance Galvanized Light Steel Building, High Durability Galvanized Light Steel Building**

Building Galvanized Storage Light Steel Building Tolerance and High Durability for Storage Needs

Product Description:

The Prefab Steel Warehouse is a high-quality steel structure that is designed to provide you with the perfect solution for your storage needs. This steel structure is made using gable frame Steel Structure, which offers superior strength and durability, making it perfect for any industrial or commercial application.

Our Prefab Warehouse Construction is designed to be a quick and cost-effective solution for your storage needs. It is a fully customizable building that can be tailored to meet your specific needs and requirements. We offer a range of processing services, including Bending, Welding, Decoiling, Cutting, and Punching, to ensure that your building is built to your exact specifications.

Our team of experts will work with you to ensure that your Prefab Steel Warehouse is delivered on time and within budget. We understand that time is of the essence, which is why we offer a delivery time of 15-21 days. Our team will work tirelessly to ensure that your building is delivered and installed as quickly as possible, without compromising on quality.

The Prefab Steel Warehouse is also highly resistant to fire, making it an ideal choice for any industrial or commercial application. With its high fire resistance, you can rest assured that your building is safe and secure at all times.

One of the key features of our Prefab Steel Warehouse is its long fatigue life. This means that it is designed to last for many years, even under the most demanding conditions. This makes it a cost-effective solution for any business looking for a long-term storage solution.

In addition to its long fatigue life, the Prefab Steel Warehouse also offers high levels of security. With its superior strength and durability, it is virtually impenetrable, making it an ideal choice for any business looking to protect its assets.

Overall, the Prefab Steel Warehouse is an excellent choice for any business looking for a cost-effective, customizable, and durable storage solution. Whether you need a workshop, industrial steel building, or a warehouse, our team of experts will work with you to ensure that your building is built to your exact specifications, delivered on time, and within budget. Contact us today to learn more about our Prefab Steel Warehouse and how we can help you meet your storage needs.

Features:

Advantages of Steel Structures:

1. **Strength and Durability:** Steel has a high strength-to-weight ratio, making it capable of supporting heavy loads while being relatively lightweight. It also resists deformation and can withstand harsh environmental conditions.
2. **Versatility:** Steel can be molded into various shapes and sizes, allowing for innovative and flexible designs in architecture and construction.
3. **Speed of Construction:** Pre-fabricated steel components can be quickly assembled on-site, reducing construction time significantly compared to traditional materials.
4. **Cost-Effectiveness:** Although the initial material cost may be higher, steel structures often result in lower overall project costs due to faster construction times and lower maintenance requirements.
5. **Sustainability:** Steel is recyclable, making it an environmentally friendly option. Additionally, using steel can reduce waste during the construction process.
6. **Fire Resistance:** Steel structures can be treated with fire-resistant coatings, improving their performance in fire situations compared to other materials.

Technical Parameters:

Quotation information:

If you are interested in our products, please let us know your requirements for the steel structure project.

- 1: Location: Which country and region is the building located in.
- 2: Dimensions: Length * Width * Height
- 3: Wind load: maximum wind speed (kn/m2, km/h, m/s)
- 4: Snow load (if applicable): maximum snow height (kn/m2, mm)
- 5: Single layer steel plate mast or sandwich panel mast Do you need insulation materials? If so, it is recommended to use EPS, fiberglass wool, rock wool, and PU sandwich panels. If not, metal steel plates will be very affordable.
- 6: Seismic grade?
- 7: Do we need brick walls or not? If so, 1.2 meters high or 1.5 meters high
- 8: The Q value (unit) and size (width * height) of doors and windows.
- 9: Do you need a crane or not? If so, it is the quantity (unit), maximum lifting weight (ton), and maximum lifting height (meter).
- 10: Are there any other special requirements?

Applications:

Steel structure warehouse

Steel structure factory building

Steel structure building

Steel structure garage/hangar

Steel structure house

Steel structure livestock house

Steel warehouse workshop: The BAODU Steel Warehouse is perfect for use as a steel warehouse workshop. It can be used to store equipment, materials, and products. The product's gable frame Steel Structure design provides ample space for storage and can be customized to meet specific storage needs.

Hangar hall: The durability and strength of the BAODU Steel Warehouse make it an excellent choice for a hangar hall. It is suitable for storing planes, helicopters, and other aircraft. The product's high fire resistance makes it a safe storage option for aircraft.

Prefab Warehouse Construction: The BAODU Steel Warehouse is an ideal product for prefab warehouse construction. It is easy to install and requires minimal maintenance. The product's low maintenance and high fire resistance make it a cost-effective and safe option for prefab warehouse construction.

One of the most common applications of the Steel Warehouse is in the construction industry, where it is often used as a steel warehouse workshop, hangar hall steel structure, or building galvanized storage light steel building. Its versatility and durability make it an ideal solution for storing equipment, tools, and materials. The Steel Warehouse is capable of withstanding harsh weather conditions, making it a great choice for outdoor storage.

Another common application of the Steel Warehouse is in the manufacturing industry, where it can be used as a production facility or a storage area. Its large and open design allows for easy movement of materials and equipment, making it a great choice for businesses that require a lot of space.

The Steel Warehouse is also a great choice for businesses in the logistics industry. Its large size and durability make it an ideal solution for storing and organizing goods before transportation. It can also be used as a distribution center for companies that need to quickly and efficiently transport their products.

Other industries that can benefit from the Steel Warehouse include agriculture, mining, and retail. Its high-quality construction and fire resistance make it a great choice for storing agricultural equipment, mining supplies, and retail products.

With its ISO9001 and CE certification, the Steel Warehouse is a reliable and high-quality product that meets international standards. Its minimum order quantity is discussible, and its reasonable price makes it an affordable solution for businesses of all sizes. The Steel Warehouse is also available with different processing services, including bending, welding, decoiling, cutting, and punching.

The Steel Warehouse is packed with care to ensure that it arrives at the destination without any damage. For steel structure, we use the steel frame packing to keep goods from being broken. For sandwich panel and color steel sheet, we use plastic packing. If clients need special packing, we will provide it according to their requirements.

Delivery time for the Steel Warehouse is 15-21 days, and payment terms include L/C, D/A, D/P, T/T, Western Union, and MoneyGram. With a supply ability of 10,000 square meters per month, the Steel Warehouse is a reliable and efficient solution for businesses in need of a durable and cost-effective storage solution.

Customization:

Looking for a reliable and high-quality prefab warehouse construction? Look no further than BAODU's Steel Warehouse! Our steel warehouse is constructed using top-grade materials and features a sturdy and durable design that is perfect for industrial use.

Our prefab warehouse construction service includes customization options to meet your specific needs. You can choose from a range of sizes and configurations to suit your requirements, and our expert team can work with you to design the perfect layout for your needs.

Our Workshop Industrial Steel is manufactured in Hebei, China, and is certified to ISO9001 and CE standards. With a minimum order quantity that is discussible and a reasonable price, our Steel Warehouse is the perfect solution for all your industrial needs.

The packaging details for our Steel Warehouse vary depending on the materials used, but in general, we use steel frame packing to keep goods from breaking. For sandwich panels and color steel sheets, we use plastic packing. If you have any special requirements, we are happy to accommodate them.

Our delivery time for Steel Warehouse is typically 21 days, and we accept a range of payment terms, including L/C, D/A, D/P, T/T, Western Union, and MoneyGram. We also offer a supply ability of 10,000 square meters per month, meaning you can rely on us to meet your needs.

Installation of our Steel Warehouse is easy, and we provide full instructions to ensure that you can get up and running quickly and with minimal hassle. Our warehouse steel structure building workshop features C/Z galvanized steel (Q235) purlins and is highly resistant to fire, making it a safe and reliable option for your business.

Support and Services:

Our Prefab Steel Warehouse product comes with comprehensive technical support and services to ensure that your building project is successful. Our team of experts is available to answer any questions you may have and provide guidance throughout the process. We offer a range of services, including:

[Custom design and engineering](#)

[Installation support](#)

[Technical drawings and schematics](#)

[Product training and education](#)

[Maintenance and repair services](#)

Our goal is to provide you with the resources and support you need to complete your project efficiently and effectively. Contact us today to learn more about our technical support and services for the Prefab Steel Warehouse product.

Packing and Shipping:

Product Packaging:

The Prefab Steel Warehouse will be packaged in separate pieces and securely loaded onto pallets for safe transportation. The parts will be labeled for easy identification and assembly.

Shipping:

The Prefab Steel Warehouse will be shipped via a trusted freight carrier with insurance coverage. The shipping cost will be calculated based on the weight and dimensions of the entire package.

FAQ:

Q: What is the brand name of the product?

A: The brand name of the product is BAODU.

Q: What is the model number of the product?

A: The model number of the product is Steel Warehouse.

Q: Where is the product manufactured?

A: The product is manufactured in Hebei, China.

Q: What certifications does the product have?

A: The product is certified with ISO9001 and CE.

Q: What are the payment terms for purchasing the product?

A: The payment terms for purchasing the product are L/C, D/A, D/P, T/T, Western Union, and MoneyGram.

Q: What is the delivery time for the product?

A: The delivery time for the product is 21 days.

Q: What is the packaging method for the product?

A: In general, for steel structure, we use the steel frame packing to keep goods not to be broken. For sandwich panel and color steel sheet, we use the plastic packing. If the clients need special packing will according to their requirements.

Q: What is the minimum order quantity for the product?

A: The minimum order quantity for the product is discussible.

Q: What is the supply ability of the product?

A: The supply ability of the product is 10000 Square Meter/Square Meters per month.

Q: What is the price range for the product?

A: The price for the product is reasonable.
