

Q235 Q355 Grade Prefab Warehouse Building Low Maintenance

Our Product Introduction

for more products please visit us on baodupanel.com

Basic Information

- Place of Origin: Hebei, China
- Brand Name: BAODU
- Certification: ISO9001, CE
- Model Number: Steel Warehouse
- Minimum Order Quantity: Discussible
- Price: Reasonable
- Packaging Details: In general, for steel structure, we use the steel frame packing to keep goods not to be broken. For sandwich panel and color steel sheet, we use the plastic packing. If the clients need special packing will according to their requirements.
- Delivery Time: 15-21 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 10000 Square Meter/Square Meters per Month

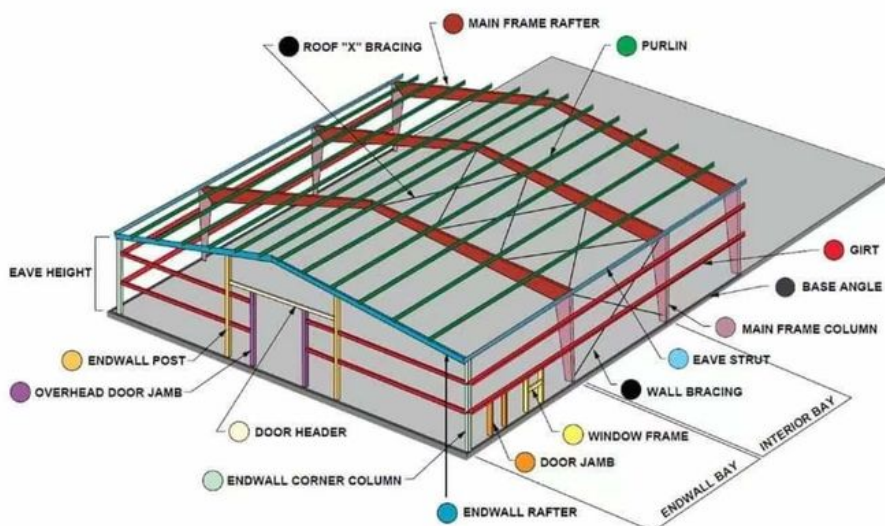

Product Specification

- Product Name: Prefabricated Steel Structure Metal Warehouse Building Manufacturer Steel Structure Workshop Building Steel Structure
- Tolerance: $\pm 1\%$
- Window: Aluminum Alloy Window, Plastic Steel
- Grade: Q235 Q355
- Maintenance: Low
- Installation: Easy
- Roof & Wall Panel: Color Steel Veneer, Rockwool Sandwich Panel, PU Sandwich Panel Etc
- Material: Steel
- Highlight: **Q355 Prefab Warehouse Building,
Q235 Prefab Warehouse Building,
Low Maintenance Prefab Warehouse Building**

Product Description

Prefabricated Steel Structure Metal Warehouse Building Manufacturer Steel Structure Workshop Building Steel Structure

Product Description:

Made from high-grade Q235 and Q355 steel, this warehouse is built to last. It can withstand harsh weather conditions, heavy loads, and other types of wear and tear. This makes it an ideal choice for industrial and commercial applications where durability is essential.

The window options for this warehouse include aluminum alloy windows and plastic steel windows. Both options are designed to provide ample natural light and ventilation while also being easy to clean and maintain. This helps to create a comfortable and productive working environment for employees.

One of the key advantages of our Prefab Steel Warehouse product is that it is easy to install. The prefabricated design means that it can be assembled quickly and efficiently, saving time and money on construction costs. This makes it an ideal choice for businesses that need to set up a new facility quickly or expand an existing one without disrupting operations.

The versatility of this warehouse is another advantage. It can be used for a variety of applications, including steel storage, factory or logistic warehouse, and more. This makes it a great choice for businesses in a range of industries, including manufacturing, logistics, and construction.

Overall, our Prefab Steel Warehouse product is an excellent choice for anyone looking for a durable, easy-to-install, and versatile warehouse solution. Whether you need a workshop industrial steel, steel warehouse workshop, hangar hall steel structure, or other type of facility, this product is sure to meet your needs and exceed your expectations.

Features:

Name	Steel Structrue Building	
Main Material	Q235 - Q420 Welded H Beam And Hot Rolled Section Steel	
Surface	Painting Or Galvanizing	
Roof And Wall Panel	EPS Sandwich Board, Single Corrugated Steel Plate, Glass Cotton Colored Board for Customers'Choice	
Window	PVC Or Aluminum Alloy	
Door	Sliding Door Or Rolling Shutter Door	
Service	Design	We have experienced designers to design.
	Manufacture	We can manufacture all kinds of steel structure products according to customers'needs.

	Installation	We provide detailed drawings to ensure installation. It also provides installation, supervision and training services. We can also send a team of engineers to guide or install on site.
Packing	1. Steel structure components will be in nude packaging with proper protection. .Sandwich panels will be covered with plastic film. 3. Bolts and other accessories will be loaded into wooden boxes. 4. Container Drying Treatment. 5. According to customer's requirement	
Quality Inspection	Factory Self-inspectionCustomer Inspection Third Party Inspection	

Technical Parameters:

If you are interested in our steel structure , please give us the following information:

- 1 Location (where will be built?) _____country, area
- 2 Size: Length*width*height _____mm*_____mm*_____mm
- 3 wind load (max. Wind speed) _____kn/m2, _____km/h, _____m/s
- 4 snow load (max. Snow height)_____kn/m2, _____mm
- 5 anti-earthquake _____level
- 6 brickwall needed or not If yes, 1.2m high or 1.5m high
- 7 thermal insulation If yes, EPS, fiberglass wool, rockwool, PU sandwich panels will be suggested; If not, the metal steel sheets will be ok. The cost of the latter will be much lower than that of the former.
- 8 door quantity & size _____units, _____(width)mm*_____ (height)mm
- 9 window quantity & size _____units, _____(width)mm*_____ (height)mm
- 10 crane needed or not If yes, _____units, max. Lifting weight_____tons; Max. Lifting height _____m.

Applications:

The Steel Warehouse is suitable for various application occasions and scenarios, such as:

Workshop Industrial Steel: Steel Warehouse is perfect for workshops, as it provides ample space to carry out various activities. It is also highly durable, making it a suitable choice for industrial workshops.

Steel warehouse workshop hangar hall steel structure: The Steel Warehouse is ideal for constructing hangars and halls for various purposes. Its sturdy structure ensures safety and reliability for the users.

Building Galvanized Storage Light Steel Building: The Steel Warehouse is perfect for building galvanized storage structures. Its steel structure ensures that the storage facility is safe and secure while providing ample space for storage.

The Steel Warehouse is made of Q235 and Q355-grade steel and has various roofing and wall options such as Corrugated/EPS/PU/Rock Wool/glass Wool. The structure can be customized as per the client's requirements and can have different door options such as Sliding Door, Rolling Door, Shutter Single Door, Color Steel. The product is designed using SAP2000/AutoCAD /PKPM /3D3S/TEKLA software, ensuring that the structure is precise and accurate.

The Steel Warehouse has a supply ability of 10000 Square Meter/Square Meters per Month and has a delivery time of 21 days. The payment terms are flexible, and L/C, D/A, D/P, T/T, Western Union, MoneyGram are accepted.

Customization:

Support and Services:

Our Prefab Steel Warehouse product comes with comprehensive technical support and services to ensure a smooth and successful project completion. Our team of experienced engineers and project managers are available to assist with any technical questions or concerns that may arise during the construction process. We offer a range of services including project planning, design and engineering, fabrication, logistics, and installation supervision. Our goal is to provide our clients with a reliable, safe, and efficient steel warehouse solution that meets their specific needs and requirements.

Packing and Shipping:

Product Packaging:

The Prefab Steel Warehouse will be packaged in sturdy steel frames and wrapped with protective materials to ensure safe transportation and delivery.

Shipping:

We offer shipping options worldwide with reliable shipping partners. Our team will coordinate the delivery with you and provide updates on the shipment status until it arrives at your destination.

FAQ:

Q: What is the brand name of this product?

A: The brand name of this product is BAODU.

Q: Where is the Steel Warehouse produced?

A: The Steel Warehouse is produced in Hebei, China.

Q: What certifications does this product have?

A: This product has ISO9001 and CE certifications.

Q: What are the payment terms for this product?

A: The payment terms for this product are L/C, D/A, D/P, T/T, Western Union, and MoneyGram.

Q: What is the delivery time for this product?

A: The delivery time for this product is 21 days.

Q: What is the minimum order quantity for this product?

A: The minimum order quantity for this product is discussible.

Q: What is the packaging for this product?

A: In general, for steel structure, we use the steel frame packing to keep goods not to be broken. For sandwich panel and color steel sheet, we use the plastic packing. If the clients need special packing will according to their requirements.

Q: What is the supply ability for this product?

A: The supply ability for this product is 10000 Square Meter/Square Meters per Month.

Q: What is the price of this product?

A: The price of this product is reasonable.
