

Heavy Structure Sandwich Panel Prefabricated Warehouse Building

Our Product Introduction

for more products please visit us on baodupanel.com

Basic Information

- Place of Origin: Hebei, China
- Brand Name: BAODU
- Certification: ISO9001, CE
- Model Number: Steel Warehouse
- Minimum Order Quantity: Discussible
- Price: Reasonable
- Packaging Details: In general, for steel structure, we use the steel frame packing to keep goods not to be broken. For sandwich panel and color steel sheet, we use the plastic packing. If the clients need special packing will according to their requirements.
- Delivery Time: 21 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 10000 Square Meter/Square Meters per Month

Product Specification

- Product Name: Prefabricated Industrial Sheds Steel Structure From China Heavy Steel Structure Sandwich Panel Prefab Warehouse
- Processing Service: Bending, Welding, Decoiling, Cutting, Punching
- Material: Steel
- Door: Sliding Door, Rolling Door, Shutter Single Door, Color Steel
- Security: High
- Type: Light Steel Structure
- Feature: Long Fatigue Life
- Purlin: C/Z Galvanized Steel(Q235)
- Weather Resistance: High
- Size: Client Requirements

Product Description

Prefabricated Industrial Sheds Steel Structure from China Heavy Steel Structure Sandwich Panel Prefab Warehouse

Product Description:

Our steel warehouses are made from high-quality steel materials that are built to last. They have been designed to withstand even the harshest weather conditions and are perfect for storing equipment, goods, and other materials. Their high durability ensures that they will last for many years, providing a reliable storage solution for your business.

Our prefab steel warehouses are also low-maintenance, making them a great choice for busy businesses that don't have time for constant upkeep. They are easy to clean and maintain, with minimal effort required to keep them looking their best.

When it comes to design, we use the latest technology, including SAP2000, AutoCAD, PKPM, 3D3S, and TEKLA. This ensures that our steel warehouses are designed to meet your specific needs and requirements. We can customize your warehouse to include features such as mezzanines, ventilation systems, and more.

Another great benefit of our prefab steel warehouses is their quick delivery time. We can have your warehouse delivered in as little as 15-21 days, which is much faster than traditional construction methods. This means that you can get your business up and running quickly and efficiently.

In summary, our prefab steel warehouses are the perfect solution for any business looking for a durable, low-maintenance, and customizable storage solution. Whether you need a warehouse for your workshop industrial steel, factory, or logistic warehouse, we have you covered. Contact us today to learn more about how we can help you with your storage needs!

Features:

Specifications:	
main steel frame	H section steel beam and columns, painted or galvanized, galvanized C section or steel pipe
Secondary frame	hot dip galvanized C purlin , steel bracing , tie bar , knee brace , edge cover etc.
Roof panel	EPS sandwich panel,glass fiber sandwich panel,rock wool sandwich panel,and PU sandwich panel or steel sheet
Wall panel	Sandwich Panel or Corrugated Steel Sheet
Tie Rod	Circular Steel Tube
Brace	Round Bar
Knee Brace	Angle Steel
Roof Gutter	Color Steel Sheet
Drawings & Quotation:	
(1) Customized design is welcomed.	
(2) In order to give you an exactly quotation and drawings, please let us know the length, width, eave height and local weather. We will quote for you promptly.	

Technical Parameters:

If you are interested in our steel structure , please give us the following information:

- 1 Location (where will be built?) _____country, area
- 2 Size: Length*width*height _____mm*_____mm*_____mm
- 3 wind load (max. Wind speed) _____kn/m2, _____km/h, _____m/s
- 4 snow load (max. Snow height)_____kn/m2, _____mm
- 5 anti-earthquake _____level
- 6 brickwall needed or not If yes, 1.2m high or 1.5m high
- 7 thermal insulation If yes, EPS, fiberglass wool, rockwool, PU sandwich panels will be suggested; If not, the metal steel sheets will be ok. The cost of the latter will be much lower than that of the former.
- 8 door quantity & size _____units, _____(width)mm*_____(height)mm
- 9 window quantity & size _____units, _____(width)mm*_____(height)mm
- 10 crane needed or not If yes, _____units, max. Lifting weight_____tons; Max. Lifting height _____m.

Applications:

Steel structure warehouse

Steel structure factory building

Steel structure building

Steel structure garage/hangar

Steel structure house

Steel structure livestock house

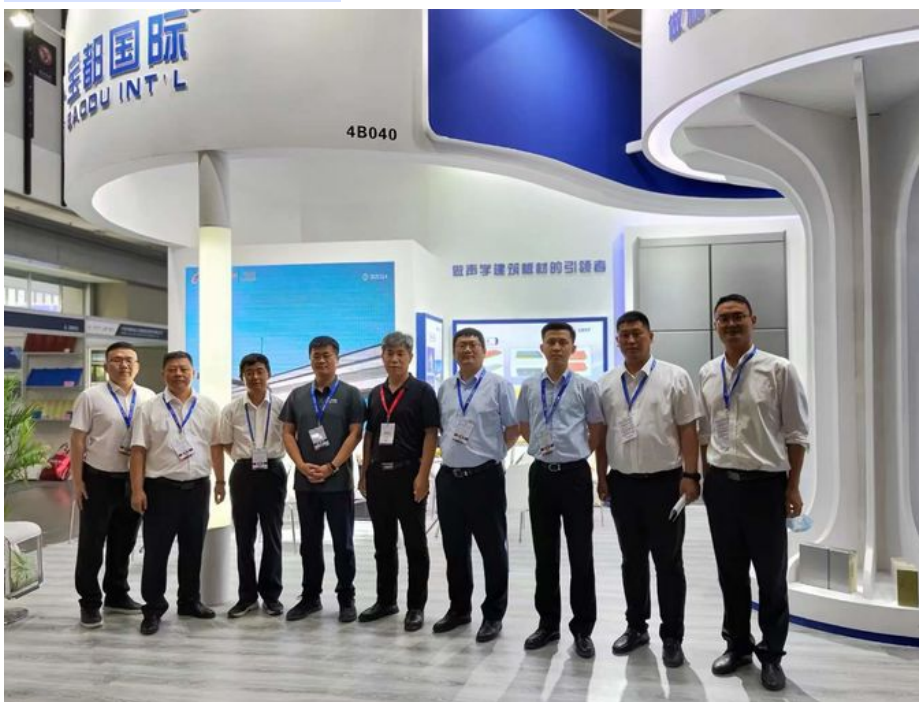

The Steel Warehouse can be used for different applications, including warehouse, workshop, hangar, hall, and other steel structure needs. Its gable frame Steel Structure design makes it fire-resistant and provides a high level of safety for the goods and equipment inside.

The Steel Warehouse's packaging details guarantee that it arrives at the destination in excellent condition. The steel frame packing is used to keep goods from being broken, while the plastic packing is used for sandwich panel and color steel sheet. If special packing is required, it can be according to the client's needs.

Furthermore, the Steel Warehouse's delivery time is 21 days, and the payment terms include L/C, D/A, D/P, T/T, Western Union, and MoneyGram. The minimum order quantity is discussible, and the supply ability is 10000 Square Meter/Square Meters per Month.

In conclusion, BAODU Steel Warehouse is a cost-effective solution that offers versatility, durability, and high-quality standards. Its applications are vast, and it is suitable for different scenarios, including industrial, commercial, and agricultural needs. Its gable frame Steel Structure ensures safety and fire resistance, while its easy installation and low maintenance make it a practical choice.

Support and Services:

Our Prefab Steel Warehouse product comes with comprehensive technical support and services to ensure the smooth installation and operation of your building. Our team of experts is available to answer any questions and provide guidance throughout the process.

We offer assistance with site preparation, foundation design, and engineering. Additionally, we provide detailed instructions and drawings for easy assembly on site. Our team can also provide on-site technical assistance and training as needed.

In the unlikely event of any issues or defects, we offer a warranty and prompt resolution of any problems. Our goal is to ensure that your prefab steel warehouse is durable, safe, and meets all of your specific needs.

Company Profile:

Baodu International Advanced Construction Material Co., Ltd was established in January 2010 with the office in Beijing and factory in Hebei, China. Baodu is a designer, manufacturer, supplier and exporter of industrial noise comprehensive treatment, steel structure, sandwich panel and prefab house. Baodu has an annual output of 6 million square meters of acoustic sandwich panels, 100000 tons of steel structures and 1 million square meters of floor decking sheet. The products are sold in more than 30 countries and regions around the world. Baodu has a professional design team with more than 10 years' experience, including 5 senior engineers, 20 engineers, and 35 technicians. Baodu has several energy saving and environment protection intellectual property rights, construction and environment protection design qualification, CE certification and Russian GOST certification etc. Baodu participated in the military parade village project for the 60th anniversary of China and project of Beijing Daxing International Airport. Under the guidance of China's "one belt, one road" strategy, Baodu has also undertaken overseas projects such as the project of Thar,Pakistan coal fired power plant, Hasyan Dubai power plant and so on. Finally, welcome your coming to Baodu for a visit and cooperation!

Your trustworthy and reliable partner

Competitive Price

With over 12 years of experience in steel structure industry, BAODU can provide the most reasonable and economical scheme to prevent over designs.Long term partnerships with raw material product suppliers give us the ability to control quality and price effectively.Large-scale production reduces our procurement, production and management costs, which can bring customers more economic benefits.We produce both steel structure (frame) and wall and roof panels, reducing external sourcing, ensuring consistency in product quality and further saving on costs.

Vast Experience in the foreign projects

In the past 13 years, BAODU's products are exported to more than 50 countries and regions, we have vast experience in design,transportation and overseas installation. Do not worry that you are far away from us, whether Asia, Oceania, America or Africa, we can provide installation workers or installation instructions according to customer needs for the project. For us, the end of a project is not you pay us to get the products, but you successfully complete the installation of our products.

Good Quality

Quality first, which is the key to our success in these years. We develop new technologies to improve the performance of our products, even if using the same raw materials, our products will be in more high quality.

Reputation

Our company have a good reputation and credibility in the industry. The customers that we have cooperated evaluate our company as follow, "This is a professional company, which has good service attitude, which really solves problem for customers, which can be trusted by the customers.It's a great thing to cooperate with such a company. You don't need to worry about the quality of the products, don't need to worry about the transport and installation.They will give you the most reasonable and economical design,transportation and installation plan"
