

Customized Industrial Metal Prefab Steel Warehouse

Our Product Introduction

for more products please visit us on baodupanel.com

Basic Information

- Place of Origin: Hebei, China
- Brand Name: BAODU
- Certification: ISO9001, CE
- Model Number: Steel Warehouse
- Minimum Order Quantity: Discussible
- Price: Reasonable
- Packaging Details: In general, for steel structure, we use the steel frame packing to keep goods not to be broken. For sandwich panel and color steel sheet, we use the plastic packing. If the clients need special packing will according to their requirements.
- Delivery Time: 21 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 10000 Square Meter/Square Meters per Month

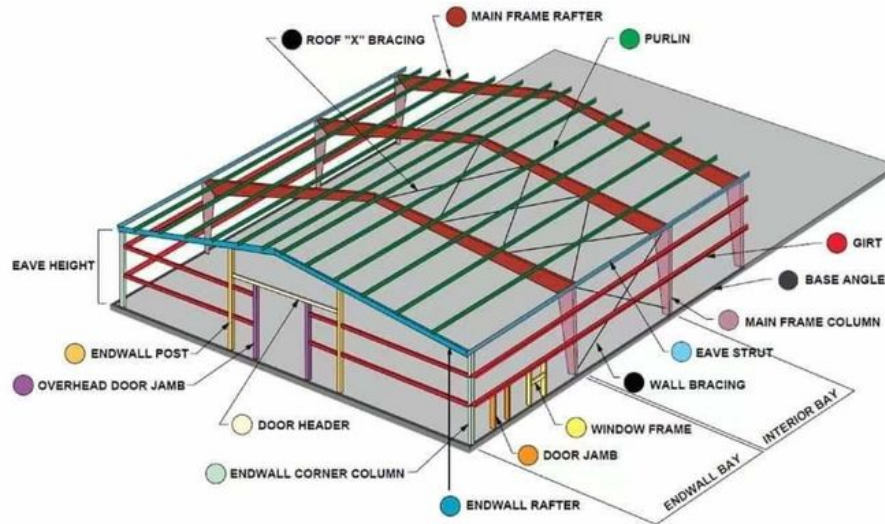

Product Specification

- Product Name: Cheap Customized Industrial Metal Steel Structure Building Materials Design Warehouse Hangar Prefabricated Workshops Plants
- Drawing Design: SAP2000/AutoCAD /PKPM /3D3S/TEKLA
- Maintenance: Low
- Weather Resistance: High
- Fire Resistance: High
- Processing Service: Bending, Welding, Decoiling, Cutting, Punching
- Keyword: Steel Structure Building Warehouse
- Grade: Q235, Q355
- Security: High
- Installation Guide: Installation Drawings And Video

Cheap Customized Industrial Metal Steel Structure Building Materials Design Warehouse Hangar Prefabricated Workshops Plants

Product Description:

Our prefab steel warehouse is made of high-quality materials, ensuring its strength, durability, and long-lasting performance. The gable frame steel structure is designed to withstand extreme weather conditions, making it a perfect choice for areas prone to harsh weather conditions.

Our prefab steel warehouse boasts high security features, ensuring that all your goods and equipment are safe and secure. The steel structure is designed to prevent unauthorized access and is fire-resistant, further enhancing the security features of the warehouse.

Our prefab steel warehouse comes with a range of processing services, including bending, welding, decoiling, cutting, and punching. These services ensure that the warehouse is customized to meet your specific needs and requirements, making it a perfect fit for your business operations.

The weather resistance of our prefab steel warehouse is unmatched, with the steel structure designed to withstand harsh environmental conditions. Whether it's heavy snow, strong winds, or extreme heat, our prefab steel warehouse is built to last and protect your goods and equipment.

When it comes to delivery, we pride ourselves on our fast and efficient service. Our prefab steel warehouse can be delivered within 15-21 days, ensuring that you can start using your new warehouse as soon as possible.

Overall, our prefab steel warehouse is a reliable, high-quality, and cost-effective solution for your business needs. Whether you need a storage facility, workshop, or industrial space, our gable frame steel structure prefab steel warehouse is the perfect fit for your operations. Contact us today to learn more about our products and services.

Features:

Specifications:

main steel frame	H section steel beam and columns, painted or galvanized, galvanized C section or steel pipe
Secondary frame	hot dip galvanized C purlin , steel bracing , tie bar , knee brace , edge cover etc.
Roof panel	EPS sandwich panel,glass fiber sandwich panel,rock wool sandwich panel,and PU sandwich panel or steel sheet
Wall panel	Sandwich Panel or Corrugated Steel Sheet
Tie Rod	Circular Steel Tube
Brace	Round Bar
Knee Brace	Angle Steel
Roof Gutter	Color Steel Sheet

Drawings & Quotation:

(1) Customized design is welcomed.

(2) In order to give you an exactly quotation and drawings, please let us know the length, width, eave height and local weather. We will quote for you promptly.

Technical Parameters:

Widely Use

It can be applied to steel structure buildings, warehouses, gymnasiums, aircraft hangars, etc. It is suitable for both single-story large-span buildings and multi-story or high-rise buildings.

Quick Erection

All steel components are fabricated at the factory and linked by bolts at the site. So the erection process is fast, step by step, easy to install and requires simple equipment.

Flexibility

steel structure buildings is flexible in any requirement of design, easy to expand in the future and also economically with low transportation costs.

Cost Saving

Price per square meter can be 25% lower than conventional steel buildings. Site erection cost is low because of faster erection times.

Durable and easy to maintain

designed by general computer can resist harsh weather and only needs simple maintenance.

Energy Efficiency

Nowadays, steel structure buildings are the green solution for the environment with CO2 reduction, energy efficiency, and recyclability.

Quotation information:

If you are interested in our products, please let us know your requirements for the steel structure project.

1: Location: Which country and region is the building located in.

2: Dimensions: Length * Width * Height

3: Wind load: maximum wind speed (kn/m2, km/h, m/s)

4: Snow load (if applicable): maximum snow height (kn/m2, mm)

5: Single layer steel plate mast or sandwich panel mast Do you need insulation materials? If so, it is recommended to use EPS, fiberglass wool, rock wool, and PU sandwich panels. If not, metal steel plates will be very affordable.

6: Seismic grade?

7: Do we need brick walls or not? If so, 1.2 meters high or 1.5 meters high

8: The Q value (unit) and size (width * height) of doors and windows.

9: Do you need a crane or not? If so, it is the quantity (unit), maximum lifting weight (ton), and maximum lifting height (meter).

10: Are there any other special requirements?

Applications:

Steel structure warehouse

Steel structure factory building

Steel structure building

Steel structure garage/hangar

Steel structure house

Steel structure livestock house

The BAODU Steel Warehouse is a versatile and cost-effective solution for a wide range of industrial and commercial applications. This product is a gable frame steel structure that can be used as a workshop, industrial steel building, galvanized storage, or light steel building. Its robust and durable construction makes it ideal for use in harsh environments and can withstand extreme weather conditions. The Steel Warehouse is manufactured in Hebei, China, and is certified by ISO9001 and CE. The product's quality is ensured to meet international standards, and the minimum order quantity is discussible. The price is reasonable, and the packaging details are carefully considered. Steel structure is packed using the steel frame to prevent damage, while sandwich panel and color steel sheet use plastic packing. Special packing is available upon request.

The Steel Warehouse's delivery time is 15-21 days, and payment terms include L/C, D/A, D/P, T/T, Western Union, and MoneyGram. The product's supply ability is 10000 Square Meter/Square Meters per Month, and the tolerance is $\pm 1\%$. Drawing designs are available using SAP2000/AutoCAD/PKPM/3D3S/TEKLA.

The Steel Warehouse's roof and wall panel options include Color Steel Veneer, Rockwool Sandwich Panel, and PU Sandwich Panel. The door options include Sliding Door, Rolling Door, Shutter Single Door, and Color Steel. This product is suitable for various occasions and scenarios, such as storage facilities, industrial workshops, and manufacturing plants.

Advantages of Steel Structure Buildings:

1: The components of steel structures have small cross-sections, light weight, and are easy to transport and install. They are suitable for structures with large spans, high heights, and heavy loads.

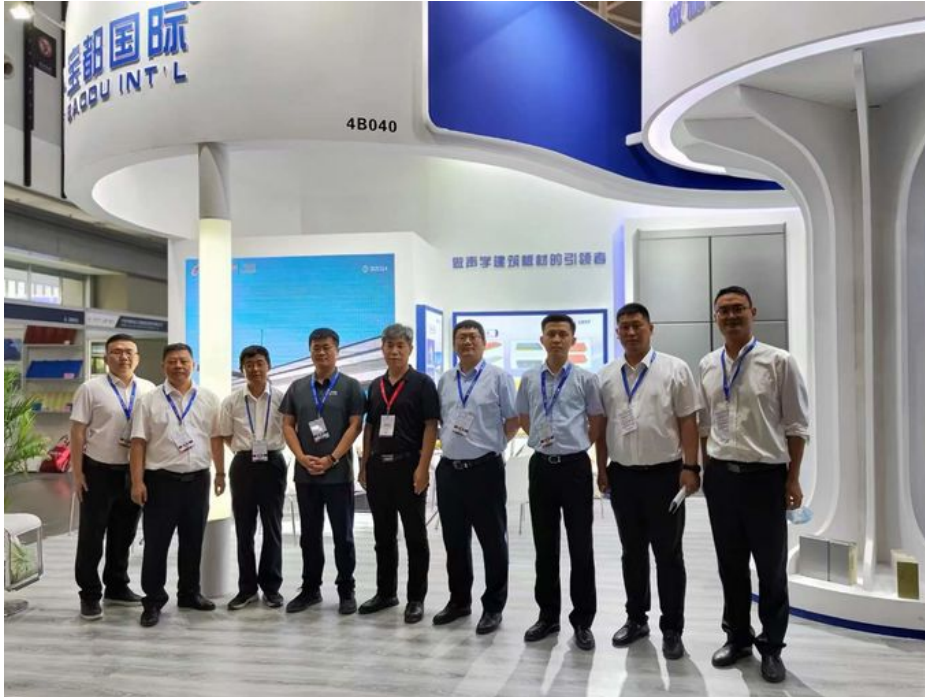

2: Suitable for withstanding impact and dynamic loads, with good seismic performance, uniform internal structure of steel, and high reliability.

3: Mechanized production of steel structural components with high precision, high production efficiency, fast on-site assembly speed, and

short construction period in factories.

4: Steel structures have high fire resistance and corrosion resistance. 5: Steel structure buildings are easy to move and pollution-free.

Support and Services:

Our prefab steel warehouse product comes with comprehensive technical support and services to ensure smooth installation and operation:

Expert consultation on design and customization options

Installation guidance and supervision

On-site training and support for staff

Regular maintenance and repair services

24/7 customer support for any technical issues or questions

We are committed to providing our customers with the highest level of support and service throughout the entire lifespan of our products.

Packing and Shipping:

Product Packaging:

The steel components are packed in bundles and secured with steel straps.

All the parts are labeled for easy identification during assembly.

The packaging is designed to protect the components during transportation and storage.

Shipping:

The prefab steel warehouse is shipped in containers or by bulk freight, depending on the quantity and destination.

We work with reliable shipping partners to ensure timely and safe delivery.

The customer is responsible for unloading the shipment and inspecting the contents for any damage or missing parts.

Company:

Baodu International Advanced Construction Material Co., Ltd was established in January 2010 with the office in Beijing and factory in Hebei, China. Baodu is a designer, manufacturer, supplier and exporter of industrial noise comprehensive treatment, steel structure, sandwich panel and prefab house. Baodu has an annual output of 6 million square meters of acoustic sandwich panels, 100000 tons of steel structures and 1 million square meters of floor decking sheet. The products are sold in more than 30 countries and regions around the world. Baodu has a professional design team with more than 10 years' experience, including 5 senior engineers, 20 engineers, and 35 technicians. Baodu has several energy saving and environment protection intellectual property rights, construction and environment protection design qualification, CE certification and Russian GOST certification etc. Baodu participated in the military parade village project for the 60th anniversary of China and project of Beijing Daxing International Airport. Under the guidance of China's "one belt, one road" strategy, Baodu has also undertaken overseas projects such as the project of Thar,Pakistan coal fired power plant, Hasyan Dubai power plant and so on. Finally, welcome your coming to Baodu for a visit and cooperation!

FAQ:

Q1: What is the brand name of the product?

A1: The brand name of the product is BAODU.

Q2: What is the model number of the product?

A2: The model number of the product is Steel Warehouse.

Q3: Where is the product made?

A3: The product is made in Hebei, China.

Q4: What certifications does the product have?

A4: The product has ISO9001 and CE certifications.

Q5: What are the payment terms and delivery time for the product?

A5: The payment terms for the product are L/C, D/A, D/P, T/T, Western Union, and MoneyGram. The delivery time is 21 days. However, the minimum order quantity, packaging details, and supply ability are discussible and can be customized according to the client's requirements.
