

Construction Steel Structure Building Warehouse Customized Size Prefabricated

Our Product Introduction

for more products please visit us on baodupanel.com

Basic Information

- Place of Origin: Hebei, China
- Brand Name: BAODU
- Certification: ISO9001, CE
- Model Number: Steel Warehouse
- Minimum Order Quantity: Discussible
- Price: Reasonable
- Packaging Details: In general, for steel structure, we use the steel frame packing to keep goods not to be broken. For sandwich panel and color steel sheet, we use the plastic packing. If the clients need special packing will according to their requirements.
- Delivery Time: 21 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 10000 Square Meter/Square Meters per Month

Product Specification

- Material: Q235/Q345 Steel
- Fire Resistance: High
- Warranty: 10 Years
- Secondary Frame: C&Z Purlin, Brace
- Installation: Easy
- Keyword: Steel Structure Building Warehouse
- Size: Customized Size
- Feature: Long Fatigue Life
- Product Name: Cheap Price Structural Steel Construction Building Prefabricated Prefab Warehouse Steel Structure
- Type: Light Steel Structure
- Highlight: **Prefabricated Steel Structure Building Warehouse**

Product Description

Cheap Price Structural Steel Construction Building Prefabricated Prefab Warehouse Steel Structure

Product Description:

The Prefab Steel Warehouse is a versatile and reliable solution for a wide range of industrial and commercial applications, including steel warehouse workshop, hangar hall, and steel structure. This product is designed with a focus on durability and functionality, making it ideal for various uses such as Workshop Industrial Steel.

The secondary frame of the Prefab Steel Warehouse is constructed using high-quality C&Z Purlin and Brace, providing excellent support and stability for the entire structure. This ensures that the warehouse can withstand heavy loads and harsh environmental conditions, making it a dependable choice for long-term use.

Constructed with a steel structure frame welded together, the Prefab Steel Warehouse offers superior strength and durability. The use of Grade Q235 and Q355 steel ensures that the warehouse is robust and reliable, capable of withstanding various stresses and pressures over time. This makes it a secure and long-lasting investment for any industrial or commercial operation.

The Purlin of the Prefab Steel Warehouse is made of C/Z Galvanized Steel (Q235), offering corrosion resistance and enhanced durability. This ensures that the warehouse remains in top condition even in challenging environments, providing a reliable storage or workshop space for your business needs.

Additionally, the Prefab Steel Warehouse comes with a generous 10-year warranty, guaranteeing the quality and performance of the

product. This warranty offers peace of mind and assurance that your investment is protected, allowing you to focus on your operations without worrying about maintenance or repairs.

Features:

Items		Specification
Main steel frame	Column	Q355 Welded H Section Steel (equivalent to S355JR, ASTM A572 Gr. 50)
	Beam	Q355 Welded H Section Steel (equivalent to S355JR, ASTM A572 Gr. 50)
Secondary Frame	Purlin	Q235 C and Z purlin (equivalent to S235JR, ASTM A36)
	Knee brace	Q235 Angle Steel (equivalent to S235JR, ASTM A36)
	Tie Rod	Q235 Circular Steel Pipe (equivalent to S235JR, ASTM A36)
	Brace	Q235 Round Bar (equivalent to S235JR, ASTM A36)
Maintenance system	Roof Panel	EPS Sandwich Panel/ Glass Fiber Sandwich Panel/ Rock Wool Sandwich Panel
	Wall Panel	Sandwich Panel/ Corrugated Steel Sheet
Accessories	Window	Aluminium Alloy Window/ PVC Window/ Sandwich Panel Window
	Door	Sliding Sandwich Panel Door/ Rolling Metal Door/ Personal Door
Structure Usage		Up to 50 years
Finishing Options		Vast array of colors and textures available

Technical Parameters:

If you are interested in our steel structure , please give us the following information:

- 1 Location (where will be built?) _____country, area
- 2 Size: Length*width*height _____mm*_____mm*_____mm
- 3 wind load (max. Wind speed) _____kn/m2, _____km/h, _____m/s
- 4 snow load (max. Snow height)_____kn/m2, _____mm
- 5 anti-earthquake _____level
- 6 brickwall needed or not If yes, 1.2m high or 1.5m high
- 7 thermal insulation If yes, EPS, fiberglass wool, rockwool, PU sandwich panels will be suggested; If not, the metal steel sheets will be ok. The cost of the latter will be much lower than that of the former.
- 8 door quantity & size _____units, _____(width)mm*_____ (height)mm
- 9 window quantity & size _____units, _____(width)mm*_____ (height)mm
- 10 crane needed or not If yes, _____units, max. Lifting weight_____tons; Max. Lifting height _____m.

Applications:

**MULTI-STOREY BUILDING
IN PHILIPPINES**

**HEAVY WORKSHOP
IN AUSTRALIA**

**STEEL WAREHOUSE
IN GERMANY**

**STEEL BUILDING
IN ZIMBABWE**

**FACTORY WAREHOUSE
IN MALAWI**

**SHOPPING MALL
IN PHILIPPINES**

**PREFABRICATED SHED
IN CANADA**

**PREFAB WAREHOUSE
IN CANADA**

**METAL WORKSHOP
IN INDONESIA**

BAODU Steel Warehouse is a versatile and reliable solution for various product application occasions and scenarios. With its high-quality construction and excellent attributes, this prefab steel warehouse is suitable for a wide range of uses.

Building Galvanized Storage: The BAODU Steel Warehouse is ideal for building galvanized storage facilities due to its durable steel frame construction and high-grade materials. Whether you need to store equipment, inventory, or materials, this warehouse provides a secure and efficient solution.

Light Steel Building: This steel warehouse from BAODU is perfect for light steel building projects. Its lightweight yet sturdy design makes it easy to assemble and suitable for applications such as small workshops, storage sheds, or temporary structures.

Workshop Industrial Steel: The BAODU Steel Warehouse is well-suited for workshop industrial steel applications. Its gable frame steel structure provides ample space for manufacturing, assembly, or other industrial activities. The warehouse can be customized to meet specific workshop requirements.

With a model number of Steel Warehouse and originating from Hebei, China, this product boasts ISO9001 and CE certifications, ensuring high quality and reliability. The minimum order quantity is discussible, making it flexible for different project scales. The reasonable pricing, along with packaging details tailored to protect the goods during transit, makes it a cost-effective choice.

The delivery time of 21 days is efficient, and the payment terms including L/C, D/A, D/P, T/T, Western Union, and MoneyGram offer flexibility to customers. With a supply ability of 10000 square meters per month, BAODU Steel Warehouse can meet various demands.

Featuring roof cladding options such as EPS, Rockwool, Fiberglass Wool, PU Sandwich Panel, or steel sheet, and wall cladding choices including EPS, Rockwool, Fiberglass Wool, PU Sandwich Panel, or steel sheet, this warehouse can be customized to suit different requirements. The inclusion of aluminum alloy windows and plastic steel windows enhances functionality and aesthetics.

Customization:

Support and Services:

Our Product Technical Support and Services for the Prefab Steel Warehouse include:

- Assistance with installation and assembly
- Troubleshooting and maintenance guidance
- Technical consultations for customization
- Warranty support and claims processing
- Access to online resources and manuals

Packing and Shipping:

This Prefab Steel Warehouse is carefully packaged to ensure its safe delivery to your location. The product will be wrapped in protective materials and securely packed in a sturdy box to prevent any damage during transit. For shipping, we partner with reliable carriers to deliver your Prefab Steel Warehouse in a timely manner. You will receive a tracking number once your order has been dispatched, allowing you to monitor the delivery status of your product.

FAQ:
