Product Description

Customized Prefabricated Pole Barn Kits Barndominium Building Steel Structure Warehouse Farm Shed Prefab Workshop Metal Building

Product Description:

The Prefab Steel Warehouse by BAODU is a top-of-the-line solution for your industrial storage needs. Constructed with high-quality Q235/Q345 Steel, this steel structure is designed to provide maximum durability and strength for your warehouse, workshop, hangar, hall, or any other industrial facility.

The product is engineered with precision using advanced design software such as SAP2000, AutoCAD, PKPM, 3D3S, and TEKLA, ensuring that every detail meets the highest standards of quality and safety.

With a customizable color option, you can choose the perfect shade to match your branding or blend the structure seamlessly into its surroundings. The galvanized finish not only enhances the aesthetic appeal but also adds an extra layer of protection against corrosion and wear, making it a long-lasting investment for your business.

Security is a top priority with this steel building. The robust construction and high-quality materials provide a secure environment for your valuable assets, equipment, and inventory. You can have peace of mind knowing that your goods are protected within this reliable structure.

Whether you need a steel warehouse, workshop, hangar, hall, or any industrial facility, this Prefab Steel Warehouse offers the perfect solution. Its versatile design and sturdy construction make it suitable for a wide range of applications, including Building Galvanized Storage, Light Steel Building, and Industrial Steel Workshop.

Features:

Name	Steel Structrue Building	
Main Material	Q235 - Q420 Welded H Beam And Hot Rolled Section Steel	
Surface	Painting Or Galvanizing	
Roof And Wall Panel	EPS Sandwich Board, Single Corrugated Steel Plate, Glass Cotton Colored Board for Customers'Choice	
Window	PVC Or Aluminum Alloy	
Door	Sliding Door Or Rolling Shutter Door	
Service	Design	We have experienced designers to design.

	Manufacture	We can manufacture all kinds of steel structure products according to customers'needs.
	Installation	We provide detailed drawings to ensure installation.It also provides installation,supervision and training services.We can also send a team of engineers to guide or install on site.
Packing	1. Steel structure components will be in nude packaging with proper protection. 2.Sandwich panels will be covered with plastic film.3. Bolts and other accessories will be loaded into wooden boxes.4. Container Drying Treatment.5. According to customer's requirement	
Quality Inspection	Factory Self-inspectionCustomer Inspection Third Party Inspection	

Technical Parameters:

Steel Structural Design

We have an experienced design department, who have abundant practical experience to complete the structural design of various buildings perfectly as per Chinese design codes and local rules. The structure is reasonable and the steel consumption is cost-effective.

For overseas projects, the design work can be took by our partners, all of them are registered structural designers, and the design can be carried out as per BS-standards, US-standards, as well as the design codes of other countries.

Detailing, 3D modeling, fabrication and installation shop drawings can be free with conditions.

If you are interested in our steel structure , please give us the following information:

- 1 Location (where will be built?) _____country, area
- 2 Size: Length*width*height _____mm*_____mm*_____mm
- 3 wind load (max. Wind speed) _____kn/m2, _____km/h, _____m/s
- 4 snow load (max. Snow height)_____kn/m2, _____mm
- 5 anti-earthquake _____level
- 6 brickwall needed or not If yes, 1.2m high or 1.5m high
- 7 thermal insulation If yes, EPS, fiberglass wool, rockwool, PU sandwich panels will be suggested; If not, the metal steel sheets will be ok. The cost of the latter will be much lower than that of the former.
- 8 door quantity & size _____units, _____(width)mm*_____(height)mm
- 9 window quantity & size _____units, _____(width)mm*_____(height)mm
- 10 crane needed or not If yes, _____units, max. Lifting weight_____tons; Max. Lifting height _____m.

Applications:

**MULTI-STOREY BUILDING
IN PHILIPPINES**

**HEAVY WORKSHOP
IN AUSTRALIA**

**STEEL WAREHOUSE
IN GERMANY**

**STEEL BUILDING
IN ZIMBABWE**

**FACTORY WAREHOUSE
IN MALAWI**

**SHOPPING MALL
IN PHILIPPINES**

**PREFABRICATED SHED
IN CANADA**

**PREFAB WAREHOUSE
IN CANADA**

**METAL WORKSHOP
IN INDONESIA**

When considering the application occasions and scenarios for the BAODU Steel Warehouse, it is important to highlight its versatile and durable design. This Prefab Warehouse is ideal for various construction projects that require a reliable and efficient storage solution. The gable frame Steel Structure of the BAODU Steel Warehouse makes it suitable for a wide range of applications. Whether it is used as a warehouse, workshop, hangar, or hall, this steel structure provides a secure and spacious environment for various industrial or commercial activities.

With its origin in Hebei, China, this Steel Warehouse boasts certifications such as ISO9001 and CE, ensuring high-quality standards in its construction. The minimum order quantity is discussible, making it accessible for different project requirements.

Offering a reasonable price point, the packaging details for the BAODU Steel Warehouse include steel frame packing for protection during transportation. The Roof cladding options such as EPS, Rockwool, Fiberglass Wool, PU Sandwich Panel, or Steel Sheet provide customization based on insulation needs.

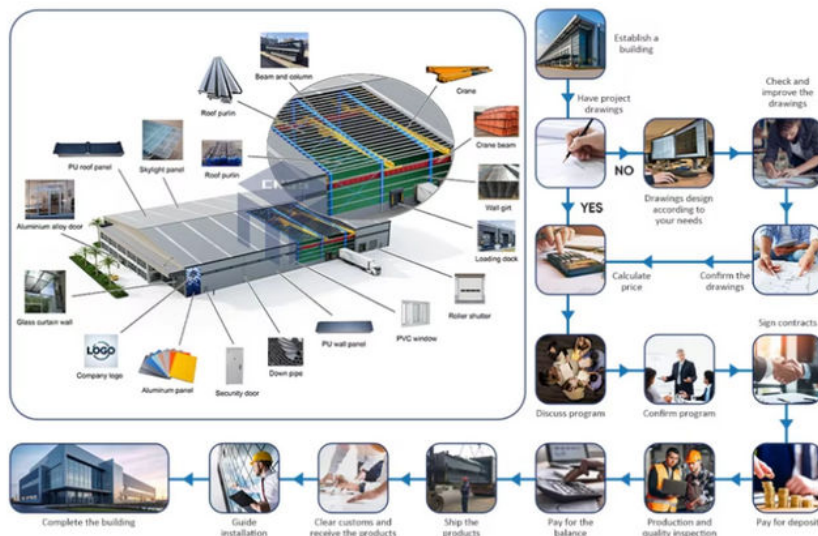

With a delivery time of 15-21 days, flexible payment terms including L/C, D/A, D/P, T/T, Western Union, and MoneyGram are accepted.

The supply ability of 10000 Square Meter per month ensures timely availability for construction projects.

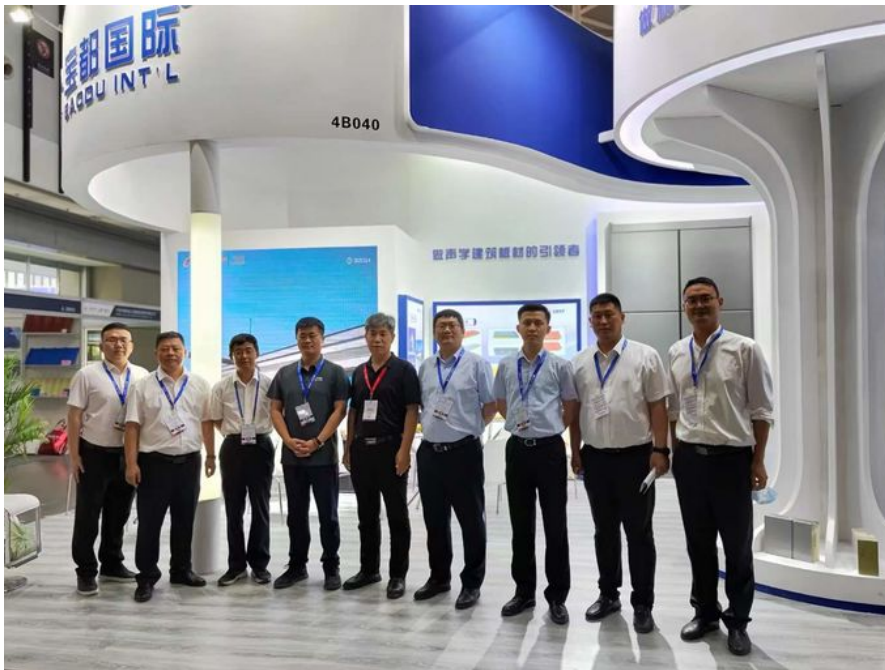

The structure of the Steel Warehouse features a welded Steel Structure Frame, offering durability and stability. The 10-year warranty provides assurance of its longevity and performance.

Equipped with various door options such as Sliding Door, Rolling Door, Shutter Single Door, and Color Steel, the BAODU Steel Warehouse caters to different entry requirements for efficient operations.

Customization:

Support and Services:

The Product Technical Support and Services for the Prefab Steel Warehouse include:

- Assistance with installation and setup of the warehouse
- Guidance on maintenance and troubleshooting of the steel structure
- Recommendations for customization and additional features
- Access to online resources and manuals for reference
- Regular updates and notifications regarding product enhancements

Packing and Shipping:
