

## High-quality Steel Structure Warehouse/Industrial Steel Structure Warehouse

### Our Product Introduction

#### Basic Information

- Place of Origin: Hebei, China
- Brand Name: BAODU
- Certification: ISO9001, CE
- Model Number: Steel Warehouse
- Minimum Order Quantity: Discussible
- Price: Reasonable
- Packaging Details: In general, for steel structure, we use the steel frame packing to keep goods not to be broken. For sandwich panel and color steel sheet, we use the plastic packing. If the clients need special packing will according to their requirements.
- Delivery Time: 45 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 10000 Square Meter/Square Meters per Month

#### Product Specification

- Product Name: High-quality Steel Structure Warehouse/Industrial Steel Structure Warehouse
- Warranty: 50 -100 Year
- Main Frame: Solid H-shape Steel Beam
- Purlin: C/Z Galvanized Steel
- Drawing Design: Customers' Request
- Material: Q345 Q235
- Processing Service: Bending, Welding, Decoiling, Cutting, Punching
- Application Fields: Warehouse, Factory, Steel Structure Building
- Surface Treatment: Hot Dip Galvanised Or Painted
- Window: Aluminum Alloy Sliding Window
- Keyword: Steel Structure Prefabricated Warehouses Building

#### Product Description

## High-quality Steel Structure Warehouse/Industrial Steel Structure Warehouse

About Material & Application	
Main Structure	Including Column & Beam, Made of welded H section Steel, Steel Grade Q355B/Q235B
	Column&Beam Connection:High Strength Bolt
	Column &Foundation Connection:Pre-embedded Anchor Bolt
Secondary Structure	Roof Purlin & Wall Purlin: C-shape or Z-shape Steel
	Knee Brace:Angle Steel
	Brace: Steel Rod
	Tie Bar:Steel Pipe

Types of wall panels and roof panels	Applicable Regions and Scenarios
Color Steel Sheet	Areas without winter, preferred for processing workshops and warehouses
Color Steel Sheet & Fiberglass Roll Insulation	Areas with winter but with low requirements of temperature, preferred for warehouses and workshops
Insulated Sandwich Panel	Workshops and warehouses with temperature requirements
PU insulated Sandwich Panel	Workshops, warehouses and public facilities with high requirements of temperature for the working environment

### Advantages of Steel Structure Buildings

Steel structure is a building structure system composed of steel materials, it is one of the main building structure types, widely used in high-rise buildings, bridges, aerospace facilities, industrial plants and other fields.

**High material strength, light weight:** The high strength and low density of steel make the steel structure have smaller component section size under the same stress conditions, thereby reducing the building's own weight and improving the stability and safety of the structure.

**Fast construction speed:** Because the steel structure can be assembled with prefabricated parts on site, the construction period of the steel structure project is shorter and the construction efficiency is improved.

**Recyclable:** Steel can reduce resource consumption through recycling, reduce the generation of construction waste, and contribute to environmental protection.

**Good seismic performance:** The plastic deformation ability and good ductility of steel make it able to effectively absorb energy in the case of earthquakes and other disasters and reduce the damage to buildings.

**Wide range of application:** Steel structure is suitable for many types of projects, such as high-rise buildings, bridges, aerospace facilities, industrial plants, etc.

### Technical Parameters

## Quality Assurance

Excellent product quality is our eternal pursuit, and it is also the fundamental reason for us to base ourselves on the global market. BAODU GROUP implements whole-process quality management and strictly supervises every process such as raw material supply, engineering design, steel component manufacturing, installation and construction.

We have established a professional team of quality inspection engineers, introduced internationally leading quality inspection equipment such as German GS1000 vacuum spectrometer and high-frequency infrared carbon sulfur analyzer, established a high-quality product inspection room, and won many awards from China's advanced quality management unit. In addition, we support testing and certification by SGS, TUV, BV.

After many years of operation, the BAODU Group has grown from strength to strength and made important contributions to the development of the construction industry and the steel structure industry. It is trusted by builders and customers from all over the world.

Our team of experts is available to provide technical support and services for the Prefab Steel Warehouse product. We offer:

Consultations to help you determine the best solutions for your needs

- Customized design services to ensure the warehouse meets your specific requirements
- Quality control inspections throughout the production process
- On-site installation and assembly services
- Maintenance and repair services to keep your warehouse in top condition

Our goal is to provide our customers with reliable, durable, and cost-effective solutions for their storage needs.

## Why Choose Us

The structure of customized buildings are flexible because different customers need different style. We help the customer design the structure to meet the individual requirements. We provide free design for you. Of course, we can follow your drawings to arrange.

Export to 50+ Countries

Many years of experience in steel structure building.

Our prefabricated buildings have been exported to over 50 countries, where they are installed in a wide variety of geographical and climatic conditions. In the process of design and installation, we have accumulated extensive practical experience and paid attention to the following key points

We have obtained the SGS certification, CE certification, ISO certification, and Alibaba International Gold Supplier certification.

OEM/ODM Services

Quality Certification

Design/ technician/ QA/QC support

Professional customized solutions

## Company Profile

Baodu International Advanced Construction Material Co., Ltd was established in January 2010 with the office in Beijing and factory in Hebei, China. Baodu is a designer, manufacturer, supplier and exporter of industrial noise comprehensive treatment, steel structure, sandwich panel and prefab house.

Baodu has an annual output of 6 million square meters of acoustic sandwich panels, 100,000 tons of steel structures and 1 million square meters of floor decking sheet. The products are sold in more than 30 countries and regions around the world.

Baodu has a professional design team with more than 10 years' experience, including 5 senior engineers, 20 engineers, and 35 technicians. Baodu has several energy saving and environment protection intellectual property rights, construction and environment protection design qualification, CE certification and Russian GOST certification etc.

Baodu participated in the military parade village project for the 60th anniversary of China and project of Beijing Daxing International Airport. Under the guidance of China's "one belt, one road" strategy, Baodu has also undertaken overseas projects such as the project of Thar, Pakistan coal fired power plant, Hasyan Dubai power plant and so on.

## Packing & Shipping

Shipping preparation

Finished goods packaging

Packing steel components and pipe into bundles with steel straps

Wrapping the ends of steel components with fabric

Packaging parts in iron boxes

Regular goods will be transported in 40ft HQ (High Cubic) containers. If we use 40ft HQ, steel pallets are required to pack the goods, and then the pallets are pushed into the container. When unloading, the entire pallet is pulled out of the container, which can better protect the steel components and quickly unload.

We can accommodate special packaging requirements upon request.
